There has been so much wheat put on the market the past few days, it may possibly result in a nervous trading market around these prices for the next day or so, but we cannot see anything in the situation to warrant any permanent decline from present prices, and we strongly acrise the purchase of wheat now and the same and the strongly acrise the purchase of wheat now and the same a

all weak spots. Ennis & Stoppani wired to J. L. Mitchrectate the efforts nade by traders here late yesterday to enhance values was not conductive to the strengthening of the latter's position and in the abscence of special sustaining influences, the market suffered from a rather severe case of indispecial sustaining influences, the market suffered from a rather severe case of indigestion, being unable to absorb the offerings, which resulted in a sharp decline of a cent and a half. At the low point claims of large export sales were industriously put in circulation, and had the effect of causing many of the early sellers, who sold without knowing why, to cover, thus rallying the market half a cent. The inherent weakness of the situation clearly revalled itself thruout the session, and the market closed with but a feeble rally from the low point. Receipts everywhere were liberal, foreign markets lower and the world's visible increased 400,000 bushels, all grades. The export claims totaled about 600,000 bushels, all grades. The export claims totaled about 600,000 bushels, all grades. The export claims totaled about 600,000 bushels, all grades. The export claims totaled about 600,000 bushels, all grades. The export claims totaled about 600,000 bushels, all grades with succession and the first properties of the situation claims of a succession and the effect of causing many of the early sellers, who sold without knowing why, to cover, thus rallying the market half a cent. The inherent was a succession and the effect of causing many of the early sellers, who sold without knowing why, to cover, thus rallying the market half a cent. The inherent was a succession and the effect of causing many of the early sellers, who sold without knowing why, to cover, thus rallying the market half a cent. The inherent was a succession and the effect of causing many of the early sellers, who sold without knowing why, to cover, thus rallying the market half a cent. The inherent was a succession and the effect of causing many of the early sellers, who sold without knowing why, to cover, thus rally sellers, with & Richardson, Columbus; Baron Buchanan, Smith & Richardson, Columbus; Baron Buchanan,

meral, foreign markets lower and the world's visible increased 400,000 bushels, all grades. The export claims totaled about 600,000 bushels, all grades. With distant futures going to a premium over the May option, the claims of cash demand fall rather flat, and it looks as if the concentrated holdings of both May and cash wheat were being disposed of as fast as the market would take it.

Corn and oats were sold freely by bear-is: traders due to the weakness in wheat is a traders, due to the weakness in wheat, but on decline encountered good support and closed with only a slight loss for the day. There is practically no change in underlying conditions, and around present prices we advise nurchases.

this, with springlike weather, and slow flour demand, added to the large receipts northwest, started a selling movement to flour demand, added to the large receipts not thwest, started a selling movement to which there was no resistance. The buying power in the futures is lacking, and while prices this morning looked very reasonable as compared with foreign markets, we are inclined to believe they will work still lower as a result of increasing demestic receipts and good winter wheat crop prospects. For the near future we would advise sales on any sharp bulge. Carn—Receipts very moderate, bot cables lost all of their advance of yesterday, and the poor quality of arrivals caused a decline of 'Ac in cash prices. The immense resultors of their advance of yesterday, and the poor quality of arrivals caused a decline of 'Ac in cash prices. The immense resultors of their advance of yesterday, and the poor quality which will make early salpments in perative. We look to see corn sell lower.

Oats—The market is in a different position from that of other grains, and, while prices are comparatively high, they can easily be maintained owing to small receipts and solutions and small stocks.

New Market Building Has Been Converted Into an Admirable Arena.

The spring stallion show will be formally opened this afternoon in the St. Lawrence Market, at King and Jarvisstreets, which has been converted into an admirable arena, with promenade and seating accommodation for 3000 or 4000 people. The place, it is considered, is even better adapted for the purpose than are the Armories. The show ring is wider than at the Armories and is only about ten feet shorter. There are only about ten feet shorter. There are

and roomy promenade.

Hon. Nelson Monteith, minister of agriculture, will open the show at 2 p.m. To-night, owing to the banquet of the Canadian Horse Breeders' Association at the Minus Breeders' Association at t will be given, but to-morrow, Friday and Saturday afternoon and evenings, the exhibition will be open. A military band will be in attendance, and four furnaces will see that the heating is

kept right.

At to-night's banquet Hon. Mr. Foy,
Hon. Mr. Monteith, Hon. Dr. Reaume,
Goldwin Smith and a number of others will be present:

The annual meeting of the Canadian Hackney Society will be held at the King Edward at 11 a.m. to-day; that of the Clydesdale Association to-morrow at 10.30, and the Shire Horse As-

sociation on Friday, at 10.30.

That the Ontario Horse Breeders are going to enjoy a genuine treat and horse lovers an unusual display of fine animals is evidenced from the following big entry list of animals for the show, which opens to-day. Among the names will be noticed a widely representative number of farmers, who are bringing out their best to compete for the valuable prizes. Perhaps in the history of Ontario, there has been

the purchase of wheat now and the life was spots.

Attention is directed to the following letter of James Kerr, President : PENNSYLVANIA, BEECH CREEK AND EASTERN COAL CO.

OFFICE OF THE PRESIDENT, WHITEHALL BUILDING.

New York, Jan. 29, 1907. Gentlemen,-Referring to your request for information with reference to the property and earnings of this Company I beg leave to state the Company controls by lease for a period of 999 years from September 1st, 1906, 106,000 acres of coal land, including the property of the well known and long established Pennsylvania Coal & Coke Co., Beech Creek Coal & Coke Co., Webster Coal and Co ke Co. and other subsidiary companies.

The workable, merchantable, bituminous coal underlying these properties conservatively estimated by E. V. D'Invilliers, H. M. Chance and William Glyde Wilkins, well known geologists and independent coal experts, amounts to between eight and nine hundred million to us of high grade bituminous coal of the best steaming and coking quality. These lands are so situated that the product commands the lowest freight rates to tidewate

over, measured from the bottom of the hoof and to weigh not less than 1050 companies with valuable rights and franchises, all the stock of the Hooverhurst & Southwestern Railroad and a lbs.: Rex Edward, S J Patterson, large majority of the stock in the North River Coal & Wharf Company, the latter company having valuable docks in New York Harbor, known as Port Liberty, which furnish excellent facilities for its harbor and steamship Coleman; Mograzia, Miss Wilks, Galt.

This Company also

This Company also owns about 1000 Railroad cars, 937 coke ovens, a large number of dwellings, and has thirtythree shipping points for the coal originating at thirty-nine mining operations as well as a half interest in two other independent coal operations with machinery and all equipment in first-class condition. It has an annual business of about 4,600,000 tons of coal shipped over the New York Central, Pennsylvania, Philadelphia & Reading and Central Railroad of New Jersey. Notwithstanding the fact that during the first six months this company has been in operation the Railroads have been unable to move the tonnage originating at these properties, and the car supply has been so inadequate as to cause a falling off in the production of the collieries of nearly thirty per cent., the earnings for the at period (February estimated) show a surplus over all in-

terest, rentals and other charges, including the interest on the bonds outstanding, equivalent to eight per cent. upon the \$2,250,000 capital stock herein attaching to the bonds as a bonus. The Pennsylvania, Beech Creek & Eastern Coal Co. has secured contracts for a very large amount of steamship and general coal busines for the ensuing year. The proceeds from the sale of these bonds will be

utilized for further developments to provide this tonnage. Yours sincerely,

JAMES KERR, President.

THE SUBSCRIPTION LIST WILL BE OPEN AT 10 A.M. ON MONDAY, FEBRUARY 25, 1907, AND CLOSED AT OR BEFORE 3 P.M THE SAME DAY. THE BONDS AND STOCK WILL BE DELIVERED BY THE UNDERSIGNED IMMEDIATELY UPON PAY-MENT IN FULL THEREFOR. NEGOTIABLE RECEIPTS BEARING 5 PER CENT. INTEREST UPON FACE OF BONDS SUBSCRIBED WILL BE ISSUED FOR PARTIAL PAYMENTS.
