Government will accept the British note,
leaving the question of suzerainty on the
basis of the convention of 1884.

How to Regulate the Big Combina-

CAPITAL FORGED TO COMBINE
Largely Because of the Organiza-
tion of Labor, Said Prof. Jenks
of Cornell University.

**Chicago, Sept. 13.—The Civic Federation
conference on the uses and abuses of
trusts and combinations, with representa-
tives from nearly every state in at-
tendance, opened here to-day. Central
Music Hall was packed with the 200 dele-
gates and hundreds of spectators. The
meeting was called to order by Chairman
Franklin H. Head, Dr. Howard S. Taylor,
as the representative of Mayor Harrison,
welcomed the delegates to Chicago.**

Trouble Broken Out Early.
The motion was carried that the conference
appoint a committee on program and rules,
to manage the sessions, composed of one
member from each state represented, the
State delegates to regulate and give the
admission. Secretary John W. Hayes, of
the Knights of Labor, announced that he
did not propose to be associated in any way
with the New Jersey delegation. This an-
nouncement was met with approval by
some of the delegates.

Chicago Gains of Chicago Secured the floor
before the vote was announced, and
that the Knights of Labor and other labor
organizations, including the American
Federation of Labor, had secured the floor
on a basis as a State. After a good deal
of caustic discussion the motion was carried.

First Resolutions Adopted.
The first resolutions adopted were those
relating to the program and rules, and
to the management of the sessions. These
were adopted by a vote of 150 to 100.

SILVER QUESTION IS NOT FIRST
Will Be the Principal Issues
—Winnipeg News.

**Winnipeg, Sept. 13.—(Special.)—President
Russell of the Mobile and Ohio Railroad,
speaking regarding American election pros-
pects, said he thought Bryan's nomination
as the Democratic candidate was certain,
and his chances for election as president
were good. Some of his strongest oppo-
nents at the last election were now decla-
ring themselves in his favor. The silver
question would be subordinate to other
great issues, viz., the fight against trusts,
and the expansion policy. It was a
strong feeling in the country against the
war in the Philippines. It was against the
conscience of the people.**

Rev. W. J. Gaston Chozen.
The Episcopal Committee having the mat-
ter in charge, after consideration, sug-
gested the name of Rev. W. J. Gaston,
of Emerson, to go as delegate to Eastern Can-
ada in place of Canon Rogers, to interest
the churches there in Rupert's Land Home
Missions.

Still a Lot of Work to Do.
J. Herbert Mason, Toronto, president of
the Canada Permanent Loan and Savings
Company, is in the city. Mr. Mason stated
that no information could be given as yet
as to the changes consequent upon the
annatuation of the four big companies.
The valuations are at work here still
a great deal before them, and after they
have finished, then the directors will take
the matters of management and office de-
tails in hand.

FEAR BRITAIN'S POWER.
The Boers Know Well That a War
With Britain Means Ruin
to Them.

**Cape Town, South Africa, Sept. 13.—A
highly dignitary of the Dutch Church here,
who has just returned from a journey in
the Transvaal, says he conversed with
President Kruger and the leading Boers
and Uitlanders, and found that, contrary to
the ordinary declarations of the British
press, the Boers fully realize that their
war means certain ruin, and that eventu-
ally, annexation to Great Britain.**

British Might Win Peacefully.
Nevertheless, this informant declares, it
is his belief that the Boers, so wrought up
about the auxiliary question, will
resist to the death the British assumption
of a right to interfere in the internal affairs
of the republic. Both sides, he regrets to
say, are absolutely distrustful of the other,
and the British Government, if it would,
guaranteeing the independence of the South
African Republic, might pave the way to
a peaceful solution of the crisis.

Things are what they are, and the Ameri-

**First, it requires some effort to realize
the vastness of the archipelago, which ex-
tends in triangular form from Formosa
to Hormoe and Celebes Sea, through 16 de-
grees of latitude. Never ending into the
Pacific Ocean on the east, nor the China
Sea on the west, I made a circuit of 2000
miles, all south of Manila. This gives some
idea of the difficulty of maintaining an ef-
fective blockade, as the whole line of all
the islands embraced in the archipelago is
many more thousand miles.**

Multiplicity of Languages.
Second, the multiplicity and heteroge-
neous nature of the tribes is something
unfamiliar to us. Over 60 different languages
are spoken in the archipelago, and the majority
of the tribes are small. There are at least
1000 different dialects in all. This makes
it impossible for us to understand the
thoughts of the natives. These tribes
are all civilized and Christianized, but small
uncivilized tribes, among whom the
ignorance seem best known to America, in-
habit the interior of the islands.

**Third, it is the Tagalogs, that inhabit
southern Luzon, who are the most impor-
tant of the archipelago. They are not
receiving the authority of the United
States. While civilized Filipinos are gen-
erally loyal to their Government, the
uneducated masses are not. They are
guaranteeing the independence of the South
African Republic, might pave the way to
a peaceful solution of the crisis.**
