

## TO REPAIR BLOOR STREET

Controllers Recommend That the Asphalt Pavement Be Repaired and Not Re-Surfaced.

## MUNICIPAL CONVENTION IDEA

Mayor Sends Out Letters Asking Heads of Municipalities to Be Present at It.

At the Board of Control yesterday afternoon, the Reception and Legislation Committee reported that they had received a letter from the Dominion Publishing Company, stating that they wish to be the privilege of publishing a program of the events which will take place during the visit of the Duke and Duchess of York. The company desire that there shall be the official program, and that the Council sanction it. It would not cost anything, they say.

The controllers allowed the recommendation to go on to Council.

See Water at the Hall.  
Ald. Lamb asked that \$100 be reported for the purchase of a water meter, to be placed in the City Hall corridor. The Mayor, however, has a large one in his room, and thought that this would fill the bill. The other controllers agreed.

The recommendation of the City Engineer that the Bell Telephone Company be given permission to erect poles on the south side of Bloor-street was approved by the board, on the understanding that it would be without prejudice to the city's contention.

The report of a sub-committee, in connection with the grading of Harrison-street, between Shaw-street and Ossington-avenue, was referred back for a report from the Assessment Commissioner and City Engineer.

Repairs to Bloor Street.

The question as to what is to be done with the East Bloor-street pavement was considered. To re-surface the pavement would cost a large sum, and repairs to it could be done a great deal cheaper, and be satisfactory, it was claimed. Ald. Lamb said the street should not be re-surfaced, because the city would then be committed to the practice of paying out permanent pavements, after they were paid for. He said this would cost the city about \$100,000 per year, if it were done.

The board finally decided to recommend that the road be repaired. It will cost about \$1500. If it were re-surfaced, the cost would be in the neighborhood of \$12,000.

Ald. Urquhart inquired what the Board of Control thought about the instructions they had received last November, to inspect the cedar block pavements on Ossington-avenue, Arthur-street, Usher-street and other thoroughfares.

The board have done nothing about it.

Wants Opinion of Bar.

Yesterday morning the Mayor received a telegram from B. B. Hovington, which reads as follows: "Mills states Canada satisfied Privy Council. Could opinion Ontario and the province be ascertained? Communicate Judge Emerson, Newfoundland delegate, Inns Court Hotel."

His Worship sent the telegram to Mr. Wilson, K.C., Chairman of the Western Bar Association, with a letter asking if the cablegram is entirely intended to be communicated to the bar.

"If anybody," the Mayor adds, "at the conference, from this country, or any other colony, is endeavoring to give the impression that the colonies would desire to be relieved from the appellate jurisdiction of the Privy Council, it seems to me it would be very proper, if not necessary, that your association should record its opinion. If I am not greatly mistaken, it would be strongly in favor of the maintenance of the right of appeal."

A similar letter was also sent to A. Irving, K.C., of the Ontario bar.

Street Car Penders.

Corporation Counsel Patterton has written Hon. F. R. Latchford, asking if the street car penders have been approved of by the Provincial Legislature, as the legislation of last session provided for.

Municipal Convention Idea.

The following is a copy of the letter the Mayor is sending out to the heads of the various outside municipalities, in connection with the municipal convention idea:

Pursuant to letters from and conferences with several Mayors of other cities, a project is under consideration by the Council of the City of Toronto to arrange a conference of the municipal representatives of the Dominion, with a view to forming a union for common action in defence of municipal rights and the rights of the citizens against the encroachments of great corporations. Other subjects of common interest and advantage from a municipal point of view may come up for discussion and be handled by the proposed union.

It is thought that a suitable and central place for such a meeting would be Toronto, and that a convenient time would be during the period of the annual Industrial Exhibition, about Sept. 1. Half fares are then granted by the railways to visitors to Toronto.

As your Council may soon adjourn for the summer, I would ask you to submit the proposition to them, and, if it meets with their approval, obtain the necessary authority for yourself or other representatives to present and conduct the conference.

The conclusions arrived at at the conference can only be recommended, and subject, of course, to ratification by the respective Municipal Councils.

Should it not be convenient for your Council to send a representative, perhaps I would be glad to ask you to submit the proposition to them, and, if it meets with their approval, obtain the necessary authority for yourself or other representatives to present and conduct the conference.

The Church is a Wreck.

Any one who wants to see a desecrated church should look inside the edifice at the corner of Sherbourne and Carlton-streets. The wreck is not, however, the work of vandals. The church members have decided to improve the interior. In order to make the church furniture in keeping with new mural effects, the architect has put in new chairs. The ones formerly in use will be disposed of in short order. Any one who is in search of a modern chair at a reasonable price should not overlook this sale in another column.

Woodbine Parade Ground.

Ottawa, June 28.—In a week or two Gen. O'Grady-Haly will go to Toronto to plant the Col. Oiler in regard to the plans for the royal review of troops there next fall. Col. Oiler thinks that the Woodbine parade ground would be the best place for holding the review, but a final decision on the matter has not yet been reached.

Sending a Crippled Beaver.

The request of the Minnesota government for a Canadian beaver to be placed in the National Park at the head of the Mississippi is being partially complied with by the chief ranger of the Algonquin Park, who is sending a beaver captured with a broken leg. The fractured limb has been set in plaster Paris.

## WONDERS OF FACE TRANSFORMATION

All the World's Reading Professor BOYD LAYNARD'S Great Work.

## "SECRETS OF BEAUTY, Health and Long Life."

Which is pronounced by the English Press to be the MOST REMARKABLE WORK OF THE CENTURY.

The book contains 125 chapters, and is published at Two Shillings. If ordered direct from the Publisher, it will be forwarded to readers of The Toronto World, carriage paid, at

FIFTY CENTS.

Among the numerous subjects dealt with in the following are but a few. A complete syllabus, showing the contents of the whole of the 125 CHAPTERS, contains upwards of 500 SUBJECTS and divisions of subjects.

The way we make our own faces—Secrets of face transformation—Changeableness of beauty and its causes—Metaphysical secrets of keeping young and preserving a youthful appearance—The author's investigations into the causes why some individuals look younger than others at a certain age—Discovery of a great metaphysical secret—Wonders of the skin—Effects of mental emotions upon the skin—Bad complexion and its causes—Die that cures the hair—Why hair falls out—Premature greyness—The cause of Premature Greyness—General care of the hair—Superficial hairs and how to treat them—Wrinkles, their prevention and treatment—Dry skin and dry eyes and nose—How the nose can be improved—Grooving ears and their treatment—Offensive Breath—General care of the teeth—Tallness and how to attain it—Round shoulders and how to cure them—Acquire a full chest—Perspiration and figure; their proper proportions—Thinness and its treatment—Excessive stoutness—Physiology, or the art of reading character from the face—Mental influences upon the body—Power of the mind over the body—Influence of the mind in curing diseases—How the mind can induce disease—How violent passions injure the health—Laughter as a cure—The influence of the mind upon our bodies of the principal articles of food—Fruits and vegetables as medicine—The influence of the mind upon the system—Health-preserving diet and its condition—Intellectual culture—Influence of various foods upon our passions and propensities—Periodic articles of food—Light and its influence upon health—Exercise and its relation to health—Baths and bathing; their influence upon health—Stomachic—Showing the connection of married and single persons—100 professions, trades and occupations; their respective influence upon health and long life—Sleep and its relation to health—Perspiration and its treatment—The eyes and how to preserve them—The ears and hearing; how to prevent deafness—The voice; its cultivation and preservation—Memory and how to improve it—Stammering and how to cure it—Blushing; its physiology and treatment—Rules of life for attaining longevity—How to live to a hundred—Premature old age—The influence of the mind upon the system—Centenarians, whose ages range from 115 to 185 years—Genetic principles that can be laid down for the anticipation of longevity—The eight signs of long life.

ORDER FORM (6466732)

TO HAMMOND, HAMMOND & CO., 19, 21 and 23 Ludgate Hill, London, England.

Please forward me Professor Boyd Laynard's SECRETS OF BEAUTY, HEALTH AND LONG LIFE, carriage paid, for which I enclose the sum of FIFTY CENTS.

## PARIS-BERLIN MOTOR RACE

Seventy-Three of the Competing Cars Reached Aix-la-Chapelle and Started on Second Stage.

## LEADING MACHINES COLLIDED

But Were Not Damaged—Fountain, Who Led the First Day, is Still Ahead.

Aix-la-Chapelle, June 28.—Altogether 73 motor cars completed the first stage of the automobile race between Paris and Berlin yesterday, and started again at 5 o'clock this morning for Hanover, 276 miles distant. The racers started from here in the same order in which they arrived.

## Two Motors Collided.

Dusseldorf, Rhineland Prussia, June 28.—Two of the motors competing in the Paris-Berlin race (those of M.M. Fournier and Girardot) collided on their arrival at the checking station at Ober-Kassel, and ran into a crowd of spectators. Several persons were injured, but the motors were not damaged, and proceeded.

## Fournier Holds His Lead.

Hanover, Prussia, June 28.—Fournier was again first to arrive at the end here of the day's stage of the motor race. De Knytt was second, and the Grand Duke of Luxembourg's prize, which he won yesterday, the award of the Hanover for the quickest journey from Paris to Hanover.

## Outcry About Accidents.

Paris, June 28.—The automobile accidents yesterday in the Paris-Berlin race are causing an outcry, and Deputy Gauchier brought the Chamber before the Chamber of Deputies this afternoon. He asked that measures be taken to stop running automobiles at excessive speeds, and marked, amid loud applause from the Rightists, that it was a stupor and a danger to the public to allow a race to Berlin, passing through Havelle and Sedan.

The Premier, M. Waldeck-Rousseau, replied that the race would not have been authorized if it had only been started for pleasure or sport. Regulations were about to be issued to control the speed of automobiles, and henceforth no race would be authorized at a speed exceeding that used in the ordinary course of business.

The statement was greeted with cheers.

## WANT 22 CENTS AN HOUR.

Rochester Contractors Notify Workmen to Return to Work or Have Agreement Abrogated.

Rochester, N.Y., June 28.—The contractors have issued an ultimatum to the striking street laborers in the following terms: "We hereby notify the laborers that if they do not return to work on Monday morning next, all propositions or agreements heretofore offered or existing will be abrogated."

Yesterday the contractors rejected the strikers' latest proposal for a settlement of the difficulty by agreeing to shade their demands to \$12.25 per day, an increase of only a fourth of a cent an hour from the old schedule, and now the men are notified that if they fail to return to work by the following morning all negotiations are off. Serious trouble is anticipated, and at strike headquarters the day's indication is in no unambiguous tones is expressed. The strikers say they will not go back on a schedule of 22 cents per hour has been agreed to.

## Refused Wages.

Reading, Pa., June 28.—Three hundred of 250 striking Reading mill hands refused to take the offer today in answer to the public notice that they would be paid. They refused to surrender their books of membership in the company's relief association, and they refused their wages.

## Still a Strike.

June 28.—At a meeting of the Dayton's and National Cash Register companies, the strikers' union was refused the company's offer to settle the dispute. The company at once decided to operate the large concern in the two departments affected. The employees in other departments will remain at work.

## RUSSIANS FOR CANADA.

Twelve Thousand Moldavians Desire to Leave the Car—Will Not Do Military Duty.

Ottawa, June 28.—A party of six representative farmers of the Moldavian tribe of South Russia arrived here today, in charge of A. Landy of Hamburg, Germany. The men, who are fine, stalwart-looking agriculturists, are pioneers, and are a delegation of the tribe who visited Canada last year. These six will settle, and at the same time look about them for good land. The tribe numbers some 12,000 in all, and are seeking a place where most land can be had and liberty enjoyed. They are a sect by themselves, neither smoking, drinking nor eating pork. They are trinitarians, and do not use the cross either as a sign or emblem. They are trinitarians, and do not use the cross either as a sign or emblem. They are seeking a new home for political reasons, and are seeking a place where most land can be had and liberty enjoyed. They are a sect by themselves, neither smoking, drinking nor eating pork. They are trinitarians, and do not use the cross either as a sign or emblem. They are seeking a new home for political reasons, and are seeking a place where most land can be had and liberty enjoyed.

## FAINTED IN COURT.

A. M. Chisholm, Charged With Forgery in Kingston, Overcome Yesterday.

Kingston, June 28.—A. M. Chisholm, manager of the Helena gold mine, near Kildare, Barrie Township, is under arrest here charged with fraudulently obtaining \$153 from Michael Seitz, a partner. At the Police Court he pleaded not guilty. Counsel for the prosecution asked for a postponement in order to lay two other charges of theft against the prisoner, stating that the prosecution had 150 specific charges against the prisoner, who was overcome by a fainting spell and had to be carried out of court, a physician being summoned to attend him. New York capitalists are prosecuting.

## Advertising Ontario.

The handbook of Ontario, published by the Crown Lands Department, intended for foreign consumption, it will chiefly be distributed at the Pan-American Exposition, and by the Ontario agent at Liverpool, England. Attractive and creditable in appearance, its article on political institutions will be found to contain some hints for Ross campaign speakers. The pamphlet for which the authors are acting is not yet out of the hands of the printers, and the colonization work, and in the meantime the handbook is hampered for lack of up-to-date literature.

## Prizes Catch many women.
