ADVICE TO A YOUNG HUSBAND.

Annual Review of Bradstreet's Gives Highest Figures in Last Five Years.

BOOM REFLECTED IN BANK CLEARINGS

mense Traffic-Many Depress-

breaker" among the five succeeding years of commercial expansion enjoyed by the United States. Its pre-eminence, the re-United States. Its pre-eminence, the review stated, was all the more notable because it suffered from a combination of happenings that in a normal year would have proved depressing, if not disastrous Enumerated in the latter were the machinists' and steel strikes, the stock panic of May, the failure of several imprudently managed combinations, the efforts of some strewn on the shore. May, the failure of several imprudently and hundreds of cases of the salmon are managed combinations, the efforts of some strewn on the shore. combinations, including that in copper, to fix prices, the shortage in corn, cotton and oats, and the assassination of President McKinley. Summarizing the general situation, the review says:

"Briefly summarized, the year has seen transacted an aggregate of general business as reflected in bank clearings far in exnessed stock speculation, rampant beyond the dreams of old-time brokers, checked and curtailed by one of the sharpest stock panics in history, and yet with a remarkable minimum of disturbance of the gen-eral financial operations; has watched general industry and production grow steadily until new and larger figures were needed to express the outputs of coal and ore and to express the outputs of coal and ore and iron and steel and leather and lumber and a multitude of other branches; has seen the freight transportation facilities of the coan try, strained to the breaking point, wrove insufficient to handle the volume of business offered, and finally has witnessed a volume of holiday business surpassing all previous bounds, both of quantity and quality, all of which are evidences of the vastly increased purchasing power of the general public of late years.

general public of late years.

Big Increase in Production.

"From the standpoint of present estimates clearings this year will exceed the highest records of preceding years by one fourth. Gross railway earnings have increased 12 per cent., and net returns have gained 16 per cent. over the best preceding year. Fig iron production will be not far from one-seventh larger than the headest ever before recorded. Shoe production and shipments, and, therefore, presumably, leather production, show almost as large gain. Iron ore production and shipments

shipments, and, increased, a gain, iron ore production and shipments were never before equalled; cerainly lake shipments were never before equalled; cerainly lake shipments were never so large; anthractic coal production will be fully 10 per cent. heavier than last, year, and 5 per cent. heavier than the record; the bituulnoos production promises as heavy a gain over past records. Woolen manufacturing has been helped by the low cost of material and good demand for clothing. All the stations are not so favorable. There has been less money in cotton for the South this year, and the margin of profit in manufacturing has occasioned complaint there, and in new and old England. The agricultural interests have been favored by heavy advances in farm products, which have done much to counterbalance reductions in yield. Export trade has shown signs of hesitation after years of steady advance, and imports have increased, but mainly in materials intended for domestic manufacture, and the margin in favor of exports is still enormously heavy."

Failures for the Year. Failures for the Year.

901,

ld an

hine

the margin in favor of exports is still enormously heavy."

Failures for the Year.

The bank clearings were estimated at \$118,000,000,000, a gain of 38 per cent. over inst year, and 26 per cent. over the record year of 1899. The Middle States showed the greatest increases in clearings. The failures for the year were placed at 10,775, with aggregate liabilities of \$130,000,000 and assets of \$60,300,000. As to this showing the reviewer said:

"This is a gain of 8.6 per cent. in number over 1900, and of nearly 12 per cent. over 1899, but back of that year comparisons favor the current one. Liabilities have not gained relatively so heavily, as shown by the fact that they are only 2.4 per cent. larger this year than last, and 8.6 per cent. larger than in 1899. In only three of the last 13 years, in fact, were liabilities smaller than they were this year. A point often lost sight of is that there is a constant accession of new individuals, firms and corporations in business each year, and this alone furnishes a basis for the recording of numerous unsuccessful ventures. There are now 172,000 more people in business than there were in trade a year ago, an increase of 16 per cent, but failures have only increased 5 per cent, in number during that period, and liabilities are only 20 per cent. larger. A continuing favorable feature is the small percentage of assets to liabilities. It is only 46.4 per cent, this year, as against 47.2 per cent, a year ago, and 52 per cent, in 1899 and 1898."

As to prices, the review said: "Wheat has reached the highest point since 1898; gorn and oats are higher than for almost a decade, and other products have sympathized. Food products as a whole are higher than in the general price boom of 1900, while manufactures are lower, notable in thirespect being leather textiles, coal and coke, naval stores, building materials, chemicals and drugs and miscellaneous products. Prices as a whole are 8 per cent, lower than February, 1900, and December, 1899, but are higher than in any year from 1892 u

reached low-water-mark prices on large production."

In summarizing the foreign trade, the review declares that there has been a falling off for the demand abroad for American iron, steel and copper; a loss in profits in cotton exports, owing to the decline in prices; a reduction in the exports of corn and oats; phenomenal wheat shipments, and larger shipments of animals and provisions. Exports were estimated at \$1.335,000,000, or 1 per cent. less than the record of last year. This calculation treated Puerto Rico and Hawafi as American territory. As to imports, the review declared: "Imports have gained slightly; they will aggregate at least \$875,000,000, a gain of 5.5 per cent. over 1900, leaving the balance of domestic exports over imports not far from \$560,000,000, or the third largest excess in the country's history."

Activity in Transportation.

The review stated that the activity in transportation was unprecedented. The couliook was treated, in conclusion, as follows:

"Many elements of strength, and some

transportation was unprecedented. The outlook was treated, in conclusion, as follows:

"Many elements of strength, and some of the opposite character, present themselves to view. The quietness of export trade, cheeked by relatively higher prices here and lack of new demand abroad, particularly in Germany, which country is reported selling iron and steel products below cost, are obstacles to increased shipments by this country. On the other hand, English trade advances are rather better, and the predicted early suspension of hostilities in South Africa and the resumption of large gold shipments from that section are favorably presenting themselves.

"Europe apparently must buy our wheat and cotton freely; but as long as domestic activity in trade, particularly iron and steel, continues, the need of a foreign outlet is not regarded as pressing. If only a portion of the high hopes indulged in as a result of the recent conferences of labor and capital materialize, industrial peace and thru this sustained commercial good feeling and prosperity will have been wonderfully furthered."

traveler, is a candidate for the position of school trustee in Ward I. Mr. Hohs' energy and aggressiveness should make him a valuable reason the board.

isolated.

The damage by wind is roughly estimated at about \$450,000, while damage to wires will aggregate another \$50,000. Wire connection with Victoria will be cut off for several days, as the steamship Aorangi, which anchored in English Bay, ran foul of the cable, and to save herself from being driven ashore cut the cable in two after milling down the cable house. The after pulling down the cable house. The sea-end has been lost.

Near Port Moody a tree was blow across the track, and a work train was dumped into the ditch. Conductor Hatch, John Russell, car curpenter, and Brake

man James McDonald received more

Those who have used Laxa-Liver Pills Those who have used Laxa-Liver Phissay they have no equal for relieving and curing Constipation, Sick Headache, Billiousness, Dyspepsia, Coated Tongue, Foul Breath, Heart Burn, Water Brash or any disease or disorder of the stomach, liver or bowels.

Mrs. George Williams, Fairfield Plains Ont., writes as follows: "As there are so many other medicines offered for sale in substitution for Laxa-Liver Pills I am par-

ticular to get the genuine, as they far sur-passanything elsefor regulating the bowels and correcting stomach disorders." Laxa-Liver Pills are purely vegetable neither gripe, weaken nor sicken, are easy to take and prompt to act.
