made major. About five years ago he was retired, and afterward was appointed to the command of No. 2 militia district corps of guides. This post he held at the time of his death.

Col. Galloway, who for years has been a close comrade of Major Sankey, when told of his sad end last night, could not say too much in commendation of the man who had achieved so much in the circle of the militia.

DETAINED MILITARY SECRETS.
Was an Ideal Officer.

"Always painstaking and an ideal officer, Major Sankey was a friend of all who knew him. During the years that he was on the retired list it was always the aim of Col. Otter to have him connected with the staff at the annual camp, and at the staff at the annual parade, Major Sankey always had a great facility of taking the initiative, and in this way everything that he handled was always assured of success.

Dargan was talking to his brother-in-law, who before and seemed in good spirits, although the failure of the mills and the closing of the trust company's doors were naturally weighing upon his mind.

WANTED TO SLEEP.
Curious That a Tired Preacher Should Have Such a Desire.

A minister speaks of the curious effect of Grape-Nuts food on him and how it has relieved him.

"You will doubtless understand how the suffering with indigestion with which I used to be troubled made my work an almost unendurable burden, and why it was that after my Sabbath duties had been performed, sleep was a stranger to my pillow till nearly daylight.

ALL HAVE PERISHED.
Dortmund, Prussia, July 11.—Efforts to rescue the thirty-nine men who were cut off by the fire in the Borussia mine yesterday have been without success, and it is feared that they have perished.

Prefect of Police of Moscow Shot Three Times While Receiving Petitions.

Moscow, July 11.—Major-General Count Shuvaloff, prefect of police here and formerly attached to the ministry of the interior, was assassinated this morning while receiving petitions. One of the petitioners drew a revolver and fired three shots at the prefect, who fell dead.

The assassin, who was dressed as a peasant, has not been identified. He was recently arrested as a political suspect, but escaped from the police station before his examination.

The assassin waited in the ante-room of the prefecture till the other petitioners had been received and then entering the audience room he advanced towards Count Shuvaloff, firing three shots close range. The prefect was not yet 40 years old, and was regarded as being the best type of a Russian official. He came from one of the most famous families in Russia. The count was a son of Count Shuvaloff, the statesman who represented Russia at the Berlin conference.

STEAMER SINKS A YACHT.

Several Lives Reported Lost in Hudson River Accident.

New York, July 11.—Police headquarters received information yesterday that an unknown yacht had been struck off Dobbs Ferry by a steamer flying the Swedish flag.

It was learned that about 3 o'clock p.m. a small yacht, brilliantly illuminated, anchored off a dock at Dobbs Ferry and had hardly stopped when the steamer ran into it. The lights on the steamer went out and the yacht sank at once. The steamer was carrying three men in command of the yacht's guides.

Upon learning that none had come ashore, the three men pulled their boat up to the beach and took a train for New York.

They declined to say who they were or the name of the steamer, but after they had taken the train their boat continued on up the river.

The Dobbs Ferry police reported that several persons were drowned.

HER STRINGS FOR OFFENCE FROM THE SEA

Mr. Foster Criticizes the Government's Military and Naval Policy—Need of an Army.

Ottawa, July 11.—(Special.)—The second reading stage of the bill empowering the department of militia to increase the permanent force to a maximum of 6000 men was taken up in the house this afternoon. Mr. Foster opened the debate with a criticism of Sir Frederick Borden's policy. He held that the militia was for defence and that the lesson of recent years was that a nation of five or six millions, whose population was trained in the use of arms, could withstand the attack of a nation many times more populous, as long as Britain's naval supremacy was maintained, and attack by land was only possible from the United States, and war with our neighbors was practically out of the question. For the sake of our own peace and our own land defence we should have at least 100,000 trained men and upon that basis we should have a large permanent staff, and a large permanent staff, and a large permanent staff.

RUSSIAN MONARCHY RESTS ON SUBMERGED REPUBLIC

Starting Admissions From Imperial Councillor—Revolt Spreading in all Directions.

St. Petersburg, July 11.—Efforts in official circles to conceal the state of affairs have been unavailing, for early this morning an admission by a member of the imperial council showed that in his opinion the Russian revolution could not be kept under control. He said that the Emperor Nicholas would have to withdraw all his troops from Manchuria and hurl them into the interior of the empire. He admitted the disaffection among the soldiers in the interior, and that the Emperor could not be relied upon for riot duty. Only men whose patriotism had not been crushed under the daily grind of the country from the White Sea to the Black, from the Baltic to the Caspian, and from the Caucasus to the Caspian, would be left to support the monarchy.
