lington to King street, King to Clarence to Dundas, and then in detached portions about the central part of the city. At the corner of King and Wellington streets the main force was joined by another Liberal procession, which had been organized in front of the central committee rooms after the first line got under way. This second company was headed by the Mus-ical Society Band, and had a large following. Other bands of enthusiastic Liberals, who were not on hand when either of the two big processions were formed, paraded the streets in different parts of the city, and every-where was flaunted the victorious

deafening. The platform was crowded and Mr. Leys, his opponent, was not with leading Conservative lights, who did not beam as brightly as before.

A member, but only a figurehead.

Mr. T. D. Hodgens felt sore at heart Mr. William Gray, the president of the Conservative Club, presided, and announced the results from the different ridings in the province as they were ticked over the wire. Each announcement was greeted with a vigorous outburst of cheers or groans.

At 10 o'clock Mr. Adam Beck, the defeated candidate, was called for, and when he appeared he was accorded a rousing reception. He said he wished to express hearty thanks for the treatment he had received. "We are defeated," he said, "but we are not disgraced. They have not won the election by the largest number of votes in London—they have won it by getting Conservatives away from the city." He continued, saying Col. Leys had everything in his favor, and it the Liberals would come out and fight a fair fight the Conservative majority would not be three or four seats, but 45. "He who laughs last laughs best," added the defeated one, "and we are going to laugh for some time to come. That wooden man from London South will be powless when he claims the seat, but I don't know that he will get it. Mr. Hobbs was down at Toronto, and he was powerless. They'll all be powerless." Mr. Beck went on to state how happy he was, and that had he been elected the same way as Col. Leys he would have been the most misarable man in the Conservative party. He was sorry to say that respectable business men of the city had stooped to dishonesty; men, he said, who went to church with their little Bibles under their arms. "They are a lot of hypocrites," Mr. Beck shouted at the top they will be bigger hypocrites still before we get through with them." felt glad that he could go home and sleep with a clear conscience, which was more than the Grits could do. Mr. Whitney had been elected, with a good government, and before long there would be a change in the city of London. (Cheers.)
MR. GRAY.

Mr. Gray, in speaking, said he admired the candidate for the honest way in which he had conducted affairs during this campaign. The Conservatives had carried on an honest contest, but the same could not be said for the Liberal party. It was a wonder any Conservatives had been elected, because the government had 7,000 officials going round the country stumping for them, but with Mr. Whitney at the head of a good government these 7,000 hangers-on would have to seek a job somewhere else. "I am glad to say," he concluded, "that if the reports concerning the government are true, we will soon have Adam Beck as our mem-MR. BEATTIE.

Mr. Beattie, M.P., was the next speaker. He was sure the citizens of London felt proud. "We have won a great moral victory without money on the good name and popularity of the Conservative candidate, Adam Beck, but the time is not far distant when this fight will have to be fought over again. Mr. Hardy has gerrymandered every constituency in this province so that it is almost impossible to elect a Conservative except in a few places, but when we get into power, which we will shortly, we'll have a rearrangement of these constituencies." would have been very sorry to see Mr. Beck elected by the same means as Col. Leys. He would sooner see Mr. Beck a defeated man than have to empty \$20,000 out of his pockets, and that he claimed was the way in which Col. Leys had been elected. He referred to his own election, and the trial which resulted, and claimed the Liberal party, after 21 days' trial, with one of the best counsels in Canada defending their cause, had been shown up as frauds. He criticised severely e action of the government in making Haldimand, J. W. Holmes..... 147 a short campaign. Col. Leys has been guilty of that personal bribery mentioned in the statutes, which disqualifies him." He concluded by saying that if the government, as per reports, was defeated, it would only be a few short weeks before Mr. Beck would have the honor of representing

London in the Legislature.

MR. T. D. HODGENS. Mr. Thomas D. Hodgens entered the hall at this juncture, followed by hundreds, who wedged their way into the hall. Many of those inside feared a stampede and made towards the street. Mr. Hodgens, in his speech, paid Mr. Beck a glowing tribute, and proclaimed himself elected by 137.

After the speaking ceased, and the usual cheers had been given, a funeral procession was formed, headed by a bugle band. The cortege was followed closely by a hack containing Mr. Adam Beck, Mr. Thomas Smallman, Thomas D. Hodgens, Wm. Gray, and Mr. Thos. Beattie. The pall-bearers carried burning brooms. They paraded around for awhile, and pulled up in front of the Conservative headquarters, where more

The police highly praise the conduct of the victorious party. Not one disturbance arose, and there were no collisions between the opposing camps. The Liberals did not attempt to annoy the Conservatives by parading through their ranks, but obeyed the injunction of the police, and avoided Richmond street between Queen's avenue and Dundas street. The prohibition of street car and other traffic in "Newspaper Row" was a good move, and the crowds appreciated it.

A voter named Daly cast his ballot at subdivision 1 of ward 1, and was arrested on the complaint of Mr. R. M. C. Toothe and other Conservative scrutineers, who charged that he was a personator. The closeness of the figures will add great interest to the recounts and election trials, and a considerable crop of bye-elections may be expected. It is reasonable to suppose that the government will gain and will increase its majority to a substantial figure. The very close majorities are, we think, without exception, Conservative. The elections are likely, wherever the opportunity is offered, to strengthen the hands of the government rather than endeavor to bring about a condition of uncertainty which must cause general inconvenience, especially to the business community. We think the government deserves a more cordial expression of the approval of the people, but we trust that what has happened will serve not to discourage its members, but to spur them on to new efforts for the public welfare."
