### DELAY IN ISSUING **BY-ELECTION WRITS** INEXCUSABLE---KING

Liberal Leader Says It Indicates Complete Indifference To Rights of People To Cont rol Parliament-Infringement of Funda mental Liberty.

OTTAWA, Aug. 26 .- "The delay in issuing the by-election writs is inexusable and can only be explained by the Government's complete indifference the right of the people to control Parliament,"

The foregoing statement was made today by Hon. Wm. L. Mackenzie King, eader of the Liberal party, regarding the by-elections. "Representation in Parliament is the first right of a free people," declared "Every denial or postponement of that right is in the nature of

an infringement of a fundamental liberty. 'In arranging for the by-elections on October 27 the Government has conrived to maintain eight vacancies in Parliament for the period of the ensuing session which the public has been given to understand will be concluded before The delay in issuing the writs is inexcusable and can only be explained by the Government's complete indifference to the rights of the people

"The Government will urge that two months must elapse between the time suing the writs and the day of polling because of certain provisions in the egislation with respect to by-elections enacted at the last session. Such a legislation with respect to by-elections enacted at the last session. Such a reason is not likely to increase the country's confidence in the desire of the administration so to fashion electoral laws that the will of the people will be given free and adequate expression. There was nothing save the Government's own wish in the matter to prevent the writs being issued in some cases over a year ago, in others months, and in all cases, weeks ago."

W. G. Clark, S. A. Beck and R. E. King were also nominated, but declined. Previous to the nomination the convention was addressed by M. W. Doherty, U. F. O. candidate for Peel County. Mr. Doherty spoke for nearly two hours and held the attention of his audience by his splendid address. He urged upon the U. F. O. electors to drop politics, as the farmers were the only class which was a slave of the party and which took politics seri-

the party and which took politics seriously.

All other parties used politics to a commercial end. He claimed that politics set the farmer against farming and that to win their end they must organize. His chief contention was that the farmers must keep clear of party politics and form a party of their own in the interests of all classes. The enormous debt of Canada must be paid from the serious dunder present were becoming denopulated.

The meeting was not as largely attended as it might have been owing to the number of farmers at present busy with the harvest, but the gathering was by no means a small one especially when the fact that it is the initial convention of this organization is taken into consideration. There were several candidates named for the provincial house, but the fight simmered down until M. McVicar and W. Smith were left. Mr. Smith afterwards moved that the choice be made unanimous.

Three Minutes Each.

Each speaker was given three minutes in which to address the meeting.

Mr. McDermand declared that he felt it an honor to be named as candidate for such an enormous movement as the U.F.O. represents. He realized the position he occupied, but felt that he was qualified for it because of his lifelong independence. He did not want to hurt anyone's feelings, but he said the Liberal party had refused him the nomination as candidate because he Three Minutes Each. nomination as candidate because he was too independent in party matters. was too independent in party matters. The party in power today, he said, was a union of both the old political clans and, as it contained the shrewdest of each, the people were given class legislation. Because the other party had not wanted him it had made him feel even more independent and now he had decided he would never cater to party politicians.

PROVISIONS

Chicago, Aug. 27.—Provisions opened dull and weak, influenced by declines in live hog prices. At the start prices were from 25c to 40c lower. The decline in provisions after the early trading became more pronounced, and pork dropped off more than \$1, short ribs declining 75c. Lack of support among traders. added to the weakness of live hogs, were the contributing causes.

"One of the Great Neponset Family"

The Greatest Roofing Development of the 20th Century

Next to the foundation the roof of your home is the most important factor in its building. This progressive age in Canada calls for improvements in every product of general consumption, and the well-known firm of Bird & Son, manufacturers of the Neponset Roofs, stand back of the Neponset Twin Shingle with the assurance that it is giving entire satisfaction and superseding roofings that are inferior on the following points:

## NEPONSET TWIN SHINGLES

A NEPONSET ROOF.

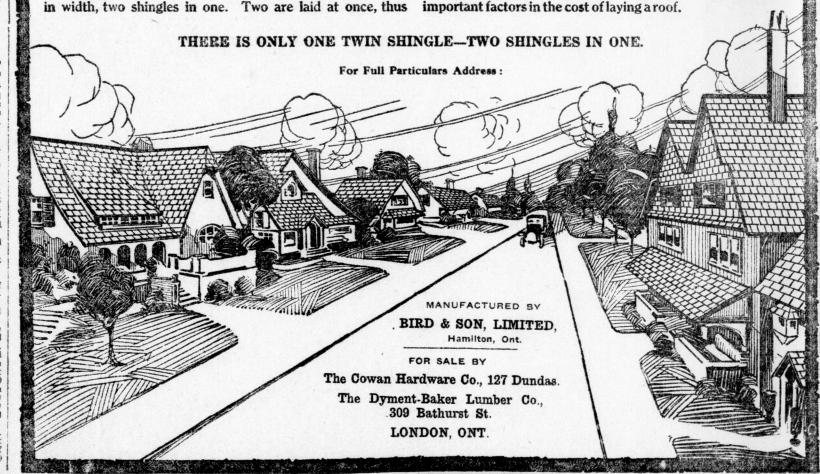

APPEARANCE: Soft red or green in tone, Neponset Twin Shingles harmonize with the most varied styles of arch-

itecture and form a roof that is both attractive and dignified. DURABILITY:—The base of Neponset Twin Shingles is a very heavy, roofing felt, of the same quality as the famous Paroid Roofing; thoroughly impregnated with asphalt, and surfaced with crushed slate. They are absolutely waterproof and resist fire and weather, an enormous advantage over shingles that soon warp and crack when subjected to

weather conditions. PROTECTION: Neponset Twin Shingles are double

reducing by one half the number of cracks or joints between shingles, also the number of nail holes, producing a roof that is snug, warm, and absolutely watertight. Sparks and embers, the usual cause of many fires, die out on Neponset Twin Shingles.

COST :- The first cost of a Neponset Twin Shingle Roof is the only cost. Once laid a Neponset Roof does not require patching or repairing—uniform wear is maintained throughout. Besides, Twin Shingles take far less time in laying and use 25% less nails than the single shingle. Their uniform size and shape does away with trimming and butting-all
