Mining Market is Dull, But Shows No Tendency to Weaken

Temiskaming Lower on Offer-LaRose and Nip Steady-Rest of 25 Per Cent. of Dividends Will Go the List Slightly Lower.

PRICE OF SILVER.

World Office,

Wednesday Evening, May 26.

Local mining markets were lifeless to-day, brokers agreeing with the opinion, expressed in these columns yesterday, that until the races were over the market would be somewhat neglected. Such was certainly the case to-day, many brokers leaving the floor early to go to the track.

What change there was in the price list was downward, but this was only natural, in view of the smallness of dealings and lack of outside orders.

Beaver was the most active stock and slightly easier from yesterday's close.

Temiskaming came on offer, selling down to \$1.25 at one time, but later rallying to \$1.28, at which price it clos-

ed.

In Rose and Nipissing were steady, and the market practically featureless, closing on the dull side, but with no apparent tendency to break.

ANOTHER SHAREHOLDER KICKS.

Editor World: I read with considerable interest a letter which appeared in your morning paper of 25th inst. regarding the Peterson Lake property. For several months back I have been carefully watching the mines with which certain persons are connected. The shares of the Kerr Lake property were at a very low figure, and did not appear to fluctuate much in value until a change in management was made, when the stock took several sensational rises of about 100 points each time. To-day the mine is recognized to be one of the finest in the Cobalt Camp. Peterson Lake is exactly in the same position to-day that Kerr Lake was Peterson Lake is exactly in the same position to-day that Kerr Lake was several months ago. The property is an excellent one, and has a first-class situation. That it carries high-grade ore has been proved, but until a new management is secured the shares of the property will likely remain inac-

Shareholders, wake up! Spur your selves into action. Have your shares transferred into your own names, and thus be entitled to a vote at the annual meeting, which takes place on the 31st inst. The shareholders have a say at this meeting, and remember your vote counts. Another Shareholder.

STOCK SELLING FAST.

Messrs. A. J. Barr and Co. stated yesterday that the stock of the Prospectors' Exploration and Development Company is being very quickly subscribed for, the total purchases since the first offering being well beyond 50,000 shares. The company is formed for the purpose of exploring in the mineral districts of Northern Ontario, and through its own prospecting parand through its own prospecting par-ties give shareholders of the company an interest in mines at first cost. Three an interest in mines at arst cost. Three properties have already been secured and paid for by the company, and arrangements are now being made to equip and send out the prospecting parties. The company intends selling a small amount more of this stock at ten cents a share before advancing the price. The stock, it is understood, will be listed on the exchanges after the first issue has been subscribed for.

LAKE TEMISKAMING RISES.

HAILEYBURY, May 24.—The water in Lake Teniskaming continues to rise and many of the houses situated along the shore are afloat. The steamers of the two navigation companies which ply the lake are landing about 25 or 30 feet from Farr-avenue Never in the memory of the oldes inhabitant has the water been so high and if it continues to rise; as it is likely to, owing to the fact that it rains nearly every day, it will be hard to gather up the many boat houses and dwelling houses that are beginning to ride the gentle waters of the Lake Temiskaming, as the poet so beautifully puts it:

Like a yellow leaf in summer, Like a pretty water lily.

Skin Diseases.

A diseased or disfigured skin will always leave its stamp on the mind of the individual. Many people suffering from disfiguring skin diseases avoid society and lose all pride in their personal appearance. When the skin breaks out in cruptions and sores it is due entirely to an impure condition of the blood.

In all such cases Burdock Blood Bitters will quickly purify the blood and drive all the impurities out of the system.
