

MEDICAL REPORT, 1st OCT., 1896, TO 30th SEPT., 1897.

ANALYSIS OF DISEASES AND RESULTS.

|                                                                        |       |
|------------------------------------------------------------------------|-------|
| No. of Patients treated from Oct. 1st, 1896, to Sept. 30th, 1897 ..... | 562   |
| “ “ still in Hospital .....                                            | 86    |
| “ “ died .....                                                         | 25    |
| “ “ discharged .....                                                   | 476   |
| Average days' stay in Hospital .....                                   | 56.67 |

| TECHNICAL NAME OF DISEASE.            | HOUSEHOLD NAME.                     | C. | I. | U. | D. | R. | T'l. |
|---------------------------------------|-------------------------------------|----|----|----|----|----|------|
| Alimentary Tract—                     |                                     |    |    |    |    |    |      |
| Appendicitis .....                    |                                     | 1  |    |    | 1  |    | 2    |
| Ascariades .....                      | Intestinal worms .....              |    | 1  |    |    |    | 1    |
| Dyspepsia .....                       |                                     | 3  | 1  |    |    |    | 4    |
| Enteritis .....                       | Diarrhoea .....                     | 1  |    |    |    |    | 1    |
| Gastro-Enteritis .....                | Inflam. of stomach and bowels ..... | 1  |    |    |    |    | 1    |
| Intestinal Sepsis .....               |                                     | 4  |    |    |    |    | 4    |
| Ischio-Rectal Abscess .....           |                                     | 2  | 1  |    |    |    | 3    |
| Imperforate Anus .....                |                                     |    |    |    | 1  |    | 1    |
| Œsophageal Obstruction .....          |                                     | 1  |    |    |    |    | 1    |
| Prolapsus Recti .....                 |                                     | 2  | 1  | 1  |    |    | 5    |
| Stomatitis .....                      | Inflammation of mouth .....         | 3  |    |    |    |    | 4    |
| Typhoid Fever .....                   |                                     | 23 |    |    |    | 6  | 29   |
| Tubercular Peritonitis .....          | Consumption of bowels .....         |    | 1  |    | 2  |    | 3    |
| Taenia Saginata .....                 | Tape Worm .....                     | 1  |    |    |    |    | 1    |
| Volvulus .....                        |                                     | 1  |    |    |    |    | 1    |
| Brain and Nervous System—             |                                     |    |    |    |    |    |      |
| Coma .....                            |                                     |    |    |    | 1  |    | 1    |
| Chorea .....                          | St. Vitus' Dance .....              | 9  | 3  |    |    | 1  | 13   |
| Epilepsy .....                        | Fits .....                          | 1  | 1  | 1  |    |    | 4    |
| Facial Paralysis .....                | Bell's palsy .....                  | 1  |    | 1  |    |    | 1    |
| Hydrocephalus .....                   | Water on the brain .....            |    |    | 1  |    |    | 1    |
| Idiocy .....                          |                                     |    |    | 2  |    |    | 2    |
| Neuronia .....                        | Nerve Tumor .....                   | 1  |    |    |    |    | 1    |
| Paralysis .....                       |                                     |    | 2  |    |    |    | 2    |
| Polio-Myelitis Anterior .....         | Infantile paralysis .....           |    | 3  | 1  |    | 2  | 6    |
| Spina Bifida .....                    |                                     | 1  |    |    | 1  |    | 2    |
| Spinal Paralysis .....                |                                     |    | 1  |    |    |    | 1    |
| Tubercular Meningitis .....           | Water on Brain .....                |    |    |    | 4  |    | 4    |
| Tumor of Brain .....                  |                                     |    |    | 1  |    |    | 1    |
| Bones and Joints—                     |                                     |    |    |    |    |    |      |
| Arthritis .....                       | Inflammation of joint .....         |    | 1  |    |    |    | 1    |
| Ankylosis .....                       | Stiff joint .....                   | 2  |    |    |    |    | 2    |
| Congenital Absence of Radius .....    |                                     |    | 1  |    |    |    | 1    |
| Dislocation of Knee .....             |                                     | 1  | 1  |    |    |    | 1    |
| Dislocation of Hip (congenital) ..... |                                     | 1  |    |    |    | 1  | 2    |
| Fracture of Nose .....                |                                     | 1  |    |    |    |    | 1    |
| “ Femur .....                         | Thigh .....                         | 6  |    |    |    | 2  | 8    |
| “ Fibula .....                        | Leg .....                           |    |    |    |    | 1  | 1    |
| “ Humerus .....                       | Arm .....                           | 3  |    | 1  |    | 1  | 5    |
| “ Radius .....                        | Forearm .....                       | 8  |    |    |    | 1  | 9    |
| “ Tibia .....                         | Leg .....                           | 6  |    |    |    | 2  | 8    |
| “ Clavicle .....                      | Collar bone .....                   | 6  |    |    |    | 1  | 7    |
| “ Ulna .....                          | Forearm .....                       | 2  |    |    |    | 2  | 4    |
| “ Skull .....                         |                                     |    |    |    | 1  | 1  | 2    |
| Morbus Coxæ .....                     | Hip joint disease .....             | 6  | 14 | 2  | 1  | 9  | 32   |
| Malunited Fracture .....              |                                     |    | 1  |    |    |    | 1    |
| Necrosis .....                        | Death of bone .....                 | 3  | 7  | 1  |    | 1  | 12   |
| Osteo Myelitis .....                  | Inflammation of bone .....          | 3  | 1  |    |    | 3  | 7    |
| Osteoma .....                         | Tumor of bone .....                 |    | 1  |    |    |    | 1    |
| Periostitis .....                     | Inflammation of bone .....          | 1  |    |    |    |    | 1    |
| Pott's Disease .....                  | Spinal disease .....                | 2  | 4  | 4  |    |    | 11   |
| Rickets .....                         |                                     | 2  |    |    |    | 1  | 3    |
| Curvature of Spine .....              |                                     |    | 4  | 1  |    | 3  | 8    |
| Synovitis .....                       | Inflammation of joint .....         | 2  |    |    |    |    | 2    |
| Sarcoma of Femur .....                | Bone cancer .....                   |    |    |    |    | 1  | 1    |
| Sprains .....                         |                                     | 1  |    |    |    |    | 1    |
| Separation of Epiphysis .....         | Fracture .....                      | 1  |    |    |    |    | 1    |
| Tubercular Ankle .....                |                                     | 3  | 2  |    |    | 1  | 6    |
| Tubercular Knee .....                 | White swelling .....                | 2  | 3  |    |    | 5  | 10   |
| Tubercular Carpus .....               |                                     | 2  |    |    |    |    | 2    |
| Tubercular Elbow .....                |                                     | 1  | 1  |    |    |    | 2    |
| Circulation—                          |                                     |    |    |    |    |    |      |
| Disease of Aortic Valves .....        | Heart disease .....                 | 2  |    |    |    |    | 2    |
| Disease of Mitral Valves .....        |                                     |    | 5  |    |    |    | 5    |
| Nævus .....                           | Birth mark .....                    | 2  |    |    |    | 1  | 3    |
