CHARMING ROSELLE. BY MAJOR CALDER CAMPBELL

Charming Roselle! lovely Roselle!
Come to the fountain you love so well!
Oh, no! she hath gone
To the shelvy shore,
Where her gay lover rests
On his idle oar;—
There's a blush on her cheek
Which a tale doth tell—
To-morrow he weds
Our young Roselle!

Charming Roselle! lovely Roselle!
She hath left the fountain she loved so well!
In the giddy world,
Ah, she smiles no more,
For her gay lord is changed,
And his love, it is der!
There's a shede on her brow
Which a tale doth tell—
Descried she mines

Charming Roselle! lovely Roselle!
She sits by the fountain she loves so well—
For the roses that decked
Her raven hair,
Why are rushes and straws
Twisted wildly there?
There's a glare in her eye
Which a tale doth tell—
Oh, a maniac roves
Our poor Roselle!

Deserted she pines, Our poor Roselle!

MOFFAT'S

Wofffat's
Vegetable Life Medicines.

THESE Medicines are indebted for their name to their manifest and sensible action in purifying the springs and channels of life, and enduing them with renewed rone and vigor. In many hundred extified cases which have been made public, and in almost every species of disease to which the human frame is liable, the happy effects of MOFFAT'S LIFE PILLS AND PHENIX BITTERS have been gratefully and publicly acknowledged by the persons benefitted, and who were previously unacquainted with the beautifully philosophical principles in upon which they are compounded, and upon which other consequently act.

quainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act.

The LIFE MEDICINES recommend themselves in diseases of every form and description. Their first operation is too loosen from the coats of the stomach and bowels, the various impurities and crudities constantly setting around them, and to remove the hardened faces which collect in the convolutions of the small intestines. Other medicines only partially cleanse these and leave such collected masses behind as to produce habitual continenses, with all its train of evils, or suiden diarrhæs, with its imminent dangers. This fact is well known to all regular anatomists, who examine the human bowels after death; and hence the prejudice of these well-informed men against quack medicines—or medicines prepared and heralded to the public by ignorant persons. The second effect of the Life Medicines is to cleanse the kidneys and the bladder, and by this means the liver and the lungs, the healthful action of which entirely depends upon the regularity of the urinary organs.—

The blood, which takes its red color from the agency of the liver and the lungs before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly mounts the banner of health in the blooming cheek.

Moffat's Vegetable Life Medicines have been tho-

cherk.

Moffat's Vegetable Life Medicines have been tho roughly tested, and pronounced a sovereign remedy for Dyspepsia, Flatulency, Palpitation of the Heart, Loss of Appetite, Heartburn and Headache, Restlessness, Ill-temper, Anxiety, Langour and Melancholy, Costiveness, Diarrhea, Cholera, Fevers of all kinds, Rheumatism, Gout, Dropsies of all kinds, Gravel,

ness, Ill-temper, Anxiety, Langour and Melancholy, Costiveness, Diarrhoa, Cholera, Fevers of all kinds, Gravel, Worms, Asthma and Consumption, Seurcy, Ulcers, Inveterate Sores, Scorbutic Eruptions and Bad Complexions, Eruptive complaints, Sallow, Cloudy, and other disagreeable Complexions, Salt Rheum, Erysipelas, common Colds and Induenza, and various other complaints which afflict the human frame. In FRYER and AGUE, particularly, the Life Medicines have been most eminently successful; so much so that in the Fever and Ague districts, Physicians almost universally prescribe them.

All that Mr. Moffat requires of his patients is to be particular in taking the Life Medicines strictly according to the directions. It is not by a newspaper notice, or by any thing that he himself may say in their favor, that he hopes to gain credit. It is alone by the results of a fair trial.

Moffat's Medical Manual, designed as a domestic guide to health.—This little pamphlet, edited by W. B. Moffat, 375 Broadway, New-York, has been published for the purpose of explaining more fully Mr. Moffat's theory of diseases, and will be found highly interesting to persons seeking health. It treats upon prevalent diseases, and the causes thereof. Price, 25 cents.—for sale by Mr. Moffat's squents generally.

These valuable Medicines are for asle at the Circulating Library, in this city, and also at Messrs. Peters & Tilley's, No. 4, King street.
