N. B. Youth Held For Complicity in Death of P. E. I. Native LIBEL CASE AT CAPITAL HEARS END

POLICE SAY HALLIE MAWBRAY ADMITS CRIME KNOWLEDGE

Lad Gives Himself Up to Police and is Charged With Murder.

BAIL IS REFUSED

Prisoner Says He was Forced to Help Strangers Dispose of Body.

Woburn, Mass., Oct. 6.—Hallie Mawbray, 18-year-old boy, native of Benton, New Brunswick, who yesterday, according to state and local police, confessed to complicity in the murder of Frederick A. Clements, Burlington garage proprietor, September 17, was arraigned in district court here today and held without bail for the Middlesex county grand jury. Clements was a native of Prince Edward Island.

Murder is Charged. Mawbray was held on a charge of murder after he voluntarily visited Chief of Police Pollock of Burlington early Sunday and admitted that he assisted in disposing of Clements' body, who was found last Thursday in the Shawheen river at Bedford wrapped in a bed quilt and weighted down with a lifting jack and parts of automobile cylinders.

He said two strangers, who had been engaged in a drinking bout with himself and Clements at the latter's garage, where Mawbray was employed, killed Clements, with robbery as their motive. The two forced him on threat of death to aid in wrapping up the body, disposing of it in the river, and repairing and whitewashing the garage interior to wipe out evidence of the crime, he said.

Prompting of his conscience, Mawbray said, impelled him to tell Edward Graham, Clements' partner and his own brother-in-law, that he knew something about the crime. Graham took the youth at once to the Burlington chief of police, who was at the moment listening to a prediction by a spiritualist medium that an arrest would be made before morning. Mawbray's deposition was taken in writing by Mrs. Pollock, wife of the police head, whose father, Tubby Foster, was murdered and robbed in the same vicinity 30 years ago.

Victim Had Retired. Mawbray in his deposition said that Clements had been in the drinking parlor in the garage with two strangers and himself, but had retired. The supply of liquor gave out, he said, and the two men went to the loft, where Clements slept, intending to rob him. They returned soon and announced that Clements was dead.

Acting on information given by Mawbray, state police officers searched in Boston and nearby cities last night and today for the two men described by Mawbray. It was said that further arrests were pending. Mawbray was a native of Benton, N. B., and had been in this country only six months.

Another Body Found. Beverly, Mass., Oct. 6.—The body of a man found in a North Beverly mill pond Saturday weighted down with cylinder blocks and a heavy chain was buried today, unidentified. Beverly police were unable to trace a connection between this murder and that of Fred A. Clements, Burlington garage proprietor, whose body was found similarly weighted in the Shawheen river at Bedford on Thursday.

6 KILLED, 58 HURT

Political Clash Occurs at Camaguey, Cuba, Home of J. D. O'Connell.

Havana, Oct. 6.—Six men were killed and 58 wounded, 18 of them seriously, in a clash last night at Camaguey between the police and partisans of former President Moncal, who is campaigning for re-election to the presidency, according to dispatches to Mundo. Order was finally restored after intervention by soldiers.

The guard at President Zayas' Palace here was doubled today as a precaution following last night's battle, newspaper dispatches said, soldiers had occupied the city, which is the capital of Camaguey province and had restored order.

At Camaguey is located the sugar plantation of J. D. O'Connell, well known here on account of his annual "for orphans"

Is Acquitted

It took a jury at Portofino, Misau, just minutes to acquit Mrs. Murrell Pennington Conaway, 20-fane of her life and honor" after her year-old bride, the murder of Money Warren. She pleaded she had killed Warren, a neighbor, "in dead chase of her from a field, threatening her."

ANNOUNCEMENTS MADE BY BISHOP

Ven. J. Paterson Smyth Becomes Rector of English Archdiocese of Montreal.

Montreal, Oct. 6.—The Bishop of Montreal announces the appointment of Ven. J. Paterson Smyth, rector of St. George's, and Archdeacon of St. Andrew's, to be Archdeacon of Montreal, succeeding the late Ven. J. O. Noyon, rector emeritus of the Cathedral parish of St. Andrew's. The archdeaconship of St. Andrew's has been combined with that of Clarendon and the Ven. Wm. Robinson, archdeacon of Clarendon and clerical secretary to the diocesan synod, has been appointed Archdeacon of Clarendon and St. Andrew's.

The reorganization of the archdiocesan divisions of the diocese now leaves the City of Montreal, comprising the rural deaneries of Montreal East (the Rev. W. H. Davison, R.D.) and Montreal West (the Rev. William Sanders, R.D.) as comprising the archdiocese of Montreal under Dr. Paterson Smyth. The rural deaneries of St. Lambert, Bedford and Brossard, being that part of the diocese south of the St. Lawrence, constitute the archdiocese of Bedford, under the Ven. Wm. Longhurst; while the remainder of the diocese, being that part north of the St. Lawrence and Ottawa rivers, and extending as far west as Lake Temiskaming, make up the rural deaneries of Clarendon and St. Andrew's, under the Ven. Wm. Robinson. The bishop has deemed it impractical to follow the English custom of having an archdeacon for every rural deanery.

RIGHT HANDERS TO BE USED IN THIRD SERIES GAME TODAY

Changes in Team's Line-up Will Follow This Move of Managers.

MEUSEL TO BENCH

McNecley, Senators' Recruit Centre Fielder, Also Will Have Rest.

New York, Oct. 6.—With the final decision still as uncertain as before the classic began, the Giants and Senators will meet today at the Polo Grounds in the third game of the World Series after having divided two sensational struggles at the national capital. New York took the first of these, conquering Walter Johnson, but Washington came back to win yesterday and square the count.

The strategy of managers kept southpaws prominent during the first two games, but today right-handers will walk into the field that encloses the pitching box in important contest. "Bucky" Harris, dynamic young pilot of the Senators, whose heroic relief work checked the Giants in the ninth inning of yesterday's battle, will start this afternoon in Washington. John McGraw, conforming to his usual preference in making his mound selections, has not disclosed his choice, but it seems certain to be either Hugh McQuinn or "Big Boy" Adams, with the chances favoring the former.

Changes in Line-up. Orthodox pitching also will affect the lineup in the positions. For the Giants it will mean that Bill Terry, a left-hander batter, whose home run was a contributing factor to victory in the first game, will be back at first, with George Kelley shifted to centre, Wilson left, and Meusel, a right-handed swinger, benched.

For the Senators, Liebold, a left-hander, will be shifted to first, and a right-handed pitcher, who has not yet been named, will be shifted to centre. The Senators' lineup, which has been so effective in the first two games has been disrupted by the change in right-handers to the lineup, particularly for Washington, which has not yet sampled other than southpaw hurling. The Giants, after having beaten Johnson, feel able to cope with any other of the right-handed species Harris may select.

Strategy Overcome. McGraw, whose choice of Nehf in the first game proved effective in checking the left-handed Washington wrecking crew, notably "Goose" Goslin, decided to outpace the Senators to death yesterday by shooting in Bentley. Harris countered the "melter mind" move by feeding the slow curve offerings of Zachary to the team that had eaten heartily of Johnson's speed. But both pieces of strategy failed, for Zachary was knocked out of the box by a Giant rally that tied the score in the ninth, while in the same thrilling frame, Peckinpaugh drove across the winning run for the Senators and finished Bentley.

Bentley and Zachary both were wobbly in the first inning, but while a flashing double play choked off the Giants and saved Zachary after the bases had been filled with one out, the Senators battered Bentley for a two-run lead, the result of Rice's hit and Goslin's home-run into the bleachers in right centre.

Spectacular Duel. Thereafter for seven innings, however the rival portenders settled down and staged a pretty duel. Each allowed only two hits in that span and one run, the Senators increasing their margin when Manager Harris cloaked one into the left field stands in the fifth, while the Giants broke through for their first tally in the seventh on a pass to Kelly who scored on a double play single and scored on a double play single that killed off Meusel and Wilson. It was another pass, this time to Fritch, that started Zachary's downfall in the ninth. Hits by Kelly and Wilson, together with Meusel's out, which was only prevented from being a hit through a starting stop by Harris, brought over two runs and tied the score. Here Marberry came to the rescue and struck out Jackson on three pitched balls.

The Senators tallied the winning run in the ninth, a walk to Judge, a sacrifice to Blüege, and Peckinpaugh's hit to left field, which would have been a single under ordinary circumstances but went for a double under the rules governing a decisive play of that sort. The game sparked with brilliant fielding, particularly by Harris and his infield mates, who engineered three double plays that choked Giant rallies. Harris' play on Meusel in the ninth, one of the best of the game was rivaled only by Lindstrom's spectacular stop and throw out of Blüege in the fourth.

Today's Line-up

The probable line-up of today's world's series game is as follows:

Kelly, CF.
Judge, 1B.

PRINCE TIRED AS HE LEAVES VANCOUVER

Goes to Victoria—Will Visit in New England on Way Home.

Vancouver, B. C., Oct. 6.—H. R. H. the Prince of Wales concluded his short stay in Vancouver yesterday and sailed in the afternoon for Victoria on the Princess Louisa, which the C. P. R. has placed at the disposal of the royal party. Ten thousand throats sent up cheers as the vessel left.

Looking tired, but debonair, the Prince stepped from the elevator at his hotel yesterday afternoon into the midst of a crowd that had been waiting for hours.

As a matter of fact the Prince had spent Saturday night at a party in the hotel until 6 o'clock next morning. When he arrived he laughingly suggested it was too late to go to bed and proposed a turn on the golf course instead, but he retired.

He will visit in New England. The Prince of Wales will be the guest of Mr. and Mrs. Bayard Tuckerman, Jr., at their home in Hamilton for two days before leaving for Washington. The date of the visit is still to be decided.

The announcement that the invitation has been tendered and accepted was released through the British Ambassador in Washington. The acquaintance of Mr. and Mrs. Tuckerman with the Prince goes back to the winter of 1922-23, when they hunted with him in Leicestershire, England.

Official Statements. The Prince of Wales, left last night said arrangements had been made for the Prince to visit Chicago, Detroit and Massachusetts as well as Toronto, Ottawa and Montreal before sailing for England. Arriving in Winnipeg on Friday, October 10, he will leave over the C. N. R. on the morning of October 12, travelling by way of Duluth to Chicago arriving there October 18. The visit to Chicago is in response to a long standing invitation of Louis Swift. Detroit will be visited on October 14 and the Prince will arrive in Toronto on October 15 and will stay the day after. His arrival in Montreal is planned for October 19 and he will stay two days there, he will proceed to Massachusetts to be the guest of Bayard Tuckerman, Jr., and stay at the Myrtle Club.

LOOKS LIKE CLOSE VOTE ON TUESDAY IN NORTHUMBERLAND

Eye of Tomorrow's Contest Finds Both Sides Confident.

NEW ELEMENTS

Situation Different From Former Years—Record is Strongly Liberal.

(By Times-Star Staff Correspondent.) Chatham, Oct. 6.—That tomorrow's election will be close is the general opinion expressed by Chatham county. The situation is different from that of 1921, and new men and new elements figure in the contest. Both sides are undoubtedly confident of victory.

The Conservative party in 1917 supported the Union Government. While Hon. John Morley was in 1921 by more than 1,000, the majority of the vote in 1917 was less than 400, and in previous elections majorities for one party or another ranged from 200 to nearly 1,000.

The county has been Liberal for the last 20 years. In no previous contest have there been so many prominent men of both sides in the county.

Those who came from Ottawa and Quebec province had their eyes opened to the resources of this fine county, and got a better knowledge of maritime business and needs. Several of them admitted they had previously no proper conception of what was done here.

The weather is cloudy today, but if tomorrow is fine a record vote seems assured. While the Conservative women are not so well organized as the Liberals, they are doing a great deal of quiet and effective work. A local newspaper man says he has never seen the women take so keen an interest or work so hard in an election campaign.

Discovered as Genius Mind

She Plans no Change of Life

MISS MURIEL BLACK

Boston, Mass., Oct. 6.—Muriel Black, "mental Cinderella" found hidden behind a small-salaried job in a Plymouth cordage plant, is not going to let sudden fame change her self-mapped course of life.

Long before a group of scientists had crowned her with the title of "genius" she had determined to play fairy godmother to the unhealthy, undernourished and mentally defective children of mill towns.

She was thus engaged in trying to build anew the warped little minds when a survey of industrial workers, sent out by the Associated Industries of Massachusetts, happened along and discovered in this pretty 24-year-old girl a "genius mind."

She was hailed as a young woman of amazing brain capacity and personality.

Already the eye of big business concerns are upon her. Heads of great corporations are ready to bid for her service. One executive declared she would be worth \$50,000 in a few years.

JUDGE ADDRESSING JURY AS MORNING SESSION CLOSES

Chief Justice Barry Has Been Speaking for Two Hours.

MORE EVIDENCE

C. R. Hawkins is Called and Tells of Hanson Conversation.

(By Times-Star Staff Correspondent.) Fredericton, Oct. 6.—For more than two hours this morning His Honor Chief Justice Barry addressed the jury in the Hanson-Gleener libel suit and he was still speaking when the court adjourned for lunch. C. R. Hawkins appeared in court this morning, and in spite of the objection of counsel for the plaintiff, he was examined by Hon. W. P. Jones, for the defendants. The case goes to the jury this afternoon.

C. R. Hawkins Testifies. The case was resumed at 10 a. m. today. C. R. Hawkins was in court. Chief Justice Barry said that he might be called. It was unusual for a witness to be called after counsel had addressed the jury. There was no rule covering such a situation; rules must be made as the case went on.

W. P. Jones, K. C., explained that the understanding was, if subpoenaed, C. R. Hawkins, called, said he was a barrister, resident in Fredericton. He knew R. B. Hanson. He had conversed with him on several occasions about this case, prior to Miss Anderson giving evidence.

Mr. Taylor repeated this question, "did Hanson say he was going to take the same line of defense as in discovery examination?"

Mr. Baxter objected that what might have been said about line of defense was not a fact and was not subject to examination. The facts of the case (Continued on page 2, 4th col.)

HALF GRADUATE

Wastage in College Work Parly Due to Small Salaries, Says McGill Head.

Montreal, Oct. 6.—(By Canadian Press)—Sir Arthur Currie, in his annual report as Principal of McGill University this afternoon, made important references to the result of present systems of instruction, pointing out that less than one-half of the students who entered in 1920 graduated in 1924. He attributes this wastage first to deficient instruction in schools, due to the small salaries paid to teachers. These salaries were insufficient, he said, to attract the highest qualified graduates, but the wastage was perhaps due principally to the fact that too little work was done by the undergraduates themselves.
