

## Fund Is Started For Memorial To Hon. A. Bonar Law At Rexton

Dr. J. C. Webster and Premier Veniot Among Those Who Head List.

Bonar Law was a Scot, born of Scottish parents, a son of a Presbyterian minister, represented a Scottish constituency, made his business success in Scotland and delighted the people of that country by his stern, unflinching character and the manner in which he represented the Scottish race.

This week the Scots all over the world are celebrating the anniversary of their patron saint, Saint Andrew, and it seems as if there would be a fitting opportunity for the men of the heather of New Brunswick at least to lend some assistance to the memorial to one of the greatest of them all, Bonar Law. This is simply a suggestion from a subscriber and is passed along for the consideration of the thousands of Scots in New Brunswick. One of them has sent in a dollar without a name, simply from a "Bitter Scot." The sentiment and feeling behind that dollar subscription was probably just as cordial and kindly as that behind larger sums which have been acknowledged.

L. P. D. Tilley, K. C., in subscribing to the fund yesterday, expressed the hope that there would be generous response, which would soon bring the fund to the required amount.

The list at present is as follows:

Dr. Clarence Webster	.....\$10.00
Premier Veniot	.....10.00
The Telegraph-Journal	.....10.00
Dr. Murray MacLaren	.....10.00
H. P. Robinson	.....10.00
W. E. Foster	.....10.00
Dr. J. B. M. Baxter	.....10.00
Dr. E. A. Smith	.....10.00
J. R. Armstrong	.....10.00
M. R. A. Ltd.	.....10.00
J. G. Harrison	.....10.00
J. A. Likely	.....10.00
John Russell	.....10.00
J. J. Stothard	.....10.00
F. M. Mansell	.....10.00
A. B. Carson	.....2.00
R. B. Hanson	.....10.00
Major Gen'l Hugh H. McLean	.....10.00
Hon. Sir Douglas Haig	.....10.00
Sir Douglas Haig	.....10.00
Senator Irving R. Todd	.....10.00
Kings County	.....1.00
Neither Scot	.....1.00
L. P. D. Tilley	.....10.00

## U. N. B. FINANCES SHOW A DEFICIT

Amount will be Absorbed by Province—Valley Railway Curtailment.

Fredericton, N. B., Nov. 27.—The annual meeting of the senate of the University of New Brunswick for approval of recommendations for honorary degrees and other business will be held hereafter on the day preceding the opening of the session on the morning of Convocation day.

That was decided when a resolution, moved by Sir J. Douglas Haig, was adopted at the annual meeting of the Senate held at the education offices here this morning. Reports of the finance committee showing a deficit on the year's operations, the amount of which was not announced but which will be absorbed by the Provincial Government, were presented. It was decided to increase the amount of insurance carried upon the university building.

To Discuss Railway Service.

Premier Veniot is to meet the executive of the Fredericton Board of Trade in a conference while here regarding the suggested curtailment of train service on the St. John Valley Railway by the Canadian National Railway.

Premier Veniot said that the adverse decision of the appeal division of the New Brunswick Supreme Court in which they failed to uphold the principle under which assessments had been made by the Workmen's Compensation Board, would not interfere with the proposed conference regarding the Workmen's Compensation Act at which he expects to meet representatives of employers and employees here this afternoon. The act will be considered. This conference, the Premier said, would not be held before some time in December.

## THRILLS, MOVIES? NOVELS CAN'T BEAT SURVEYORS

This is the intrepid surveying party that charted the Grand Canyon. Top picture shows, from left to right, Liat, Blake, Word, Colonel Birdseye (chief of the party), Moore, Burchard, La Rue, Freeman and Kolb. Lower left, beaching the boat, Marble, for repairs, and lower right skidding a boat over the rocks at the head of Soap Creek rapids.

Washington, Nov. 16.—Shooting stern-first, small boats through boiling, swirling rapids between sheer walls—

Plunging into seething reaches of river where the waters, dashing madly against rocks, were lashed into waves 40 to 50 feet high—

Hiding boats that lunged like frenzied bronchos, sometimes being hurled overboard, sometimes being held up by facing danger and often death but going steadily ahead—

Such is the story brought to Washington by the government party which surveyed the last uncharted stretch of the Canyon of the Colorado.

Rains Increase Danger.

The party, headed by Col. C. H. Birdseye of the Geological Survey; E. C. La Rue, hydraulic engineer, and R. W. Burchard, topographic engineer, started from Lee's Ferry, in the extreme north central Arizona, Aug. 1. Last chance rapids, 202 miles below, was reached Oct. 13.

Meanwhile, torrential rains in the mountains raised the Colorado to flood stage. Grave fears were felt for the safety of the explorers and a searching party was sent from Needles, Calif. But despite hardships and dangers, not one life was lost, and the like of such a feat was never before.

At first, portages were made where- ever possible past the worst portions of rapids. At Soap Creek Rapids, for instance, they got the boats over the rocks for about 100 yards and into an eddy below the main rapid.

"However," says Colonel Birdseye, "we might have got through safely without portage. It was man-killing work to portage the heavy wooden boats here."

Recoveries Boat.

On Aug. 4, we reached a rapid that lay between vertical cliffs which rose directly from the water, so that there was no chance even to look the rapids over and form a plan to run them.

"We called these the 'Sheen-wall Rapids' and we made them safely, though every boat got wet. We ran such rapids with the boat stern first, in order to steer better. We put on life jackets and lay face down in the boats. It was man-killing work to portage the heavy wooden boats here."

Edward L. Rumley as the initial payment on a loan to acquire control of the Evening Mail for German interests, with the assistance of Dr. Bernard Dernburg, the German Government's agent in America. Dr. Albert was raised a fund for the American Truth Society, whose president was Jeremiah A. O'Leary.

Dr. Albert was described by Count von Bernstorff, German Ambassador to the United States as the only man he could trust with compromising documents. In this connection he mentioned directions given to Wolf von Helldorf and George von Skai for the destruction of the Weald Canal, and Capt. von Paper's part in the scheme in addition to other intrigues involving munitions orders and stores of phenol and toluid.

Dr. Albert subsequently was rewarded with the post of Imperial Counselor for Germany, a position of "strategic enemy property," a new office. After the war he was Under Secretary of the State and Secretary of State to the Chancellor. He is regarded as a liberal in politics, and has advised moderation consistently. In 1918 documents and memoranda belonging to Dr. Albert were found in New York and given wide publicity by the press, besides being brought to the attention of the State Department.

Dr. Albert, then Privy Councillor, declared that these papers revealed a "vast extrajudicial activity on the part of German officials and agents in this country, though there was evidence of money paid to purchase quantities of munitions, in addition to hints that strikes were to be fomented in Detroit, Cleveland and Cincinnati." Dr. Albert, in defense, said the purchases of munition plants was justifiable, argued for an embargo on munitions, and charged Great Britain with piracy on the high seas. He established offices in New York of the "Central Purchasing Company" with Von Papen and Boy-Ed, under orders from Berlin.

## Stomach Comfort For Good Eaters

No Sour Risings, Gasiness, Heartburn and Distress of Indigestion If You Follow Meals With Stuart's Dyspepsia Tablets.

They may talk about balanced rations, calories and all that, but most people enjoy eating the good things they come.

they see before them. What they want is the simple means of stopping gasiness, sour risings and such distresses as they come.

A host of people use Stuart's Dyspepsia Tablets because they give the stomach the alkaline effect, they stop the gas, they sweeten the stomach, they aid digestion in the stomach, they are balanced to do just these things, and you can rely upon this relief every time. Get a 60-cent box of Stuart's Dyspepsia Tablets at any drug store and you will eat your pie and cheese, steak and onions, sausage and hot wheat, cream in coffee and dairy old man dyspepsia.

## PERFECT!

Sept. 8, in running a catamaran no preceding party had ever made, Kolb grazed a rock and lost an ear, but managed to pull through. Freeman, the next man to run, struck a rock on which his boat seemed to hang for a moment, the stern of the boat being badly smashed.

It was Sept. 18, after camp had been set in the canyon below Lava Falls, that the record rise in the river, which occasioned national alarm for the safety of the party, set in.

No one expected a rise of more than five or six feet. But time after time during the night the boats had to be dragged higher and higher up a shivering shore of limestone. At one time block and tackle had to be used to drag one of the boats to safety.

Fillies Arise Early.

Felix, the cook, who went to bed 10 feet above the water, was flooded out at midnight. His pals had to rescue him and his camp.

During the night the beds and the cook's outfit had to be moved three times. Before the recession set in the river had risen no less than 21 feet.

At Separation Rapids, where the Kolb, Blake and Lint ran their boats safely, but the decision to make the boats topkay and they danced like corks, even after the cockpits were filled with water.

Freeman ran last, with La Rue and Moore clinging to the hatches.

Exciting Moments.

"They had the thrill of their lives," Birdseye says, "for the huge waves forced the boat into the air and when it came down, bottom side up, they were thrown out between the boat and the rocks on the banks. La Rue narrowly escaping being crushed."

Freeman dived clear of the boat and came up a few yards from the shore where he caught a rope. Blake and Dodge pushed out in their boat and hauled the men aboard. Freeman and Moore, holding hard to the upturned boat, towed it to quieter waters and righted it. All loose articles, such as hats, pipes and glasses were such as hats, pipes and glasses were

Such were the daily experiences almost for more than two months, of this little band of nine men who blazed the path of science through the heretofore unexplored course of one of our great rivers.

last evening. It had considerable of its assets tied up in the brick yard enterprise. Another meeting has been arranged for Dec. 5.

Safe With Him.

Poetess—That poem I sent you contained the deepest secrets of my soul. Editor—Have no fear, madam; no one shall ever find them out again.

CREDITORS' MEETING.

An informal meeting of the creditors of the Stephen Construction Co., a large St. John concern, was held yesterday afternoon at the offices of Charles S. Hanington. The company was not insolvent, Mr. Hanington said.

We have prepared a Feast of Values for our Anniversary Sale. Genuine D'Alaird dresses, blouses and lingerie at really surprising prices.

## Ham and Eggs Loses Out In America

Old Favorite Dish Gives Way To More Aristocratic Foods.

New York, Nov. 22.—European hotel men, here as the guests of the National Hotel Exposition, paid a tribute to American culinary art in admitting that the American table offers a variety unequalled in any foreign land. There was another surprise at the exposition in admissions by American hotel men that ham and eggs has ceased to be the typical national dish, although no one of the more aristocratic offerings seems to have been found to replace ham and eggs.

"It is the same as in our cantons of Switzerland," said Charles Mayer of Geneva, head of the Swiss delegation, "where every one there, is not recognized in the next canton. One canton goes as far as to boast largely on sausages and sauerkraut, which we do not eat at all. If you travel about Switzerland you must constantly change your tastes. Ah, the variety you Americans have on your table!"

"You Americans have no reason to speak as you do of the variety of the European menu," said Albert Leon Adair, director of the Isle of Ghent Hotels, Ltd. "In England we could not think of offering what you do here, your fruits, your nuts, every variety of meats and vegetables, regardless of season, are unbelievable."

Roast Beef Still Favorite.

"Yes, the roast beef of old England is still our favorite. But a mixed grill—sausage, kidney, cutlet, bacon, tomatoes and mushrooms—is vying with it in popularity. With the beef Yorkshire pudding is inevitable."

Others who announced their national dishes are—

Ludovico Silenzi, president of the United Hotels of Italy—in Rome the minestrone, a soup containing almost everything in Naples, spaghetti and gnocchi, comparable to dumplings.

Charles Mayer, Hotel Beau Rivage, Geneva—Fondue, a dish impossible in prohibition America, because its base is white wine.

A. Raboul, Grill Room Carreasse, Nice—Ravioli, prepared as Americans cook.

C. Cavasse of the Hotel Regina in Marseilles and Andre Polverin, administrator of the Xaambre Nationale Hotelierie Francaise, Bordeaux, said bouillabaisse; S. D. McDonald of Edinburgh, Scotland, said bagels; A. Stanley, secretary of the Reunion des Gastronomes, an association of the most famous of English and Continental experts, said roast beef.

## A. F. OF L. TO ASSIST GERMAN UNIONISTS

Call Will be Issued Soon to Its 3,000,000 Members to Subscribe to Fund.

New York, Nov. 27.—The American Federation of Labor is calling to its 3,000,000 members in the United States to subscribe funds to help the poverty-stricken trade unionists in Germany, who are regarded by American trade unionists as the only barrier that Germany against Bolshevism on the one hand and monarchism on the other.

The decision to aid the German trade union movement was taken at a meeting called at the Hotel Aberdeen by President Gompers, said last night named in the discussion, but it was reported that the sum would be large. Not has the method of raising the money been established. It was pointed out that 10 per cent. of a day's pay in the 3,000,000 persons affiliated with the federation would, when translated into German marks, mean a good deal in the way of relief for the starving and stricken trade unionists of Germany.

Private information from Germany and developments known to the public have convinced the leaders of the American labor movement that if the German trade unions are to survive they must be helped at once. Mr. Gompers spent considerable time in planning the preliminary steps toward the succor of the starving German trade unions before he called today's meeting.

Even the boys who are traditionally supposed to be a wee bit naughtier, are better than the girls now. Mrs. Minnie C. VanWinkle, chief of the women's division of the Washington, D. C., police department, told Chicago police women in an address while visiting here.

The boys are getting better all the time, while the girls, between the ages of 13 and 20 years, are becoming more and more wayward," she declared.

"A boy is born to a man, but a girl must be taught how to be a woman. The more innocent girls are, the easier they fall prey to the so-called 'ladies way.'"

Savannah, Ga., is said to be the largest distributing point on the Atlantic coast for fish and oysters.

## LEAVE TO HUNT FOR LARGEST ELEPHANT

U. S. Explorers to Invade African Wilds Where Livingstone Went.

Chicago, Nov. 28.—Edmund Heller, explorer and field scientist for the Field Museum of Natural History has left for Philadelphia to join Graham Collins, another explorer, in a search for the world's highest elephant.

The heaviest elephant-made rifle is too small with which to shoot elephants, Mr. Heller said.

"We use double-barreled weapons made in England," he added.

The party will go to what in the days of Stanley was known as the "White Nile," where they will hunt for the largest elephant, and will penetrate the interior of Africa, where such rare beasts as the okapi and the white rhino. The okapi is like a small giraffe, according to Mr. Heller.

Two small pieces of iron that have been interesting historians attached to them are among the latest gifts received at the Natural History Society's museum in Union street. Both have been presented by Veniot.

One of the pieces is a hinge from a door in Louisville, N.S. It is a very beautiful piece of French craftsmanship. The sides, which were fastened down with tin nails, are gracefully shaped and are like a cup and bowl.

The second curio is a nail from the oldest Baptist church of Providence, since it was founded in that year by Roger Williams the church has maintained a continuous existence, and its list of pastors is complete. The first settlers came from Salem with Mr. Williams as their minister, having been banished from that place two years previously. Others from Boston joined them and they founded a colony on land purchased from the Indians.

ALBERT WELL KNOWN IN AMERICA.

Dr. Heinrich Friedrich Albert, who fell in his effort to form a new German ministry, was Minister of the Interior, and later Minister of the Treasury and later Minister of Reconstruction in Dr. Wilhelm Stresemann's Ministry. It is well known in the United States for his propaganda activities here before the United States entered the war, when he was Commercial Attaché to the German Embassy in Washington.

In 1920 Dr. Albert, in an affidavit, said he had advanced \$750,000 to Dr.

Estimating the value of her appendix at \$25.00, a young woman in the Middle West brought suit against a doctor for removing her appendix without her consent. She states that she was to be operated for another purpose and while under anesthetic her appendix was removed.

A Treacherous Disease.

Appendicitis attacks at any moment even persons seemingly in good health. Usually, however, it is preceded by so-called stomach trouble, constipation or similar disturbances. Often when there is a warning feeling of uneasiness in the abdomen, appendicitis can be guarded against in the same manner in which the guards against infection in the intestines are guarded against in the throat.

Intestinal Antiseptic.

There is no offer to the public a preparation having the DOUBLE action of an intestinal antiseptic and a COM- PLETE system cleanser. This preparation, known as Adierka, acts as follows:

It tends to eliminate or destroy harmful germs and colon bacilli in the intestinal canal, thus guarding against appendicitis and other diseases having their start here.

It is the most complete system cleanser ever offered to the public, act-

ing on BOTH upper and lower bowel and removing foul matter which poisons the system for months and which nothing else can dislodge. It brings out all gases, thus immediately relieving pressure on the heart. It is astonishing the great amount of poisonous matter Adierka draws from the alimentary canal—matter you never thought was in your system. Try it right after a natural movement and notice how much more foul matter it brings out, which was poisoning you. In slight disorders, such as occasional constipation, sour stomach, gas on the stomach and sick headache, one spoonful Adierka A.T.W.'s brings relief.

Reports From Physicians.

"I found Adierka the best thing I ever used for my entire system." (Signed) Dr. G. Kager.

"I use Adierka in all bowel cases. Some require only one dose." (Signed) Dr. P. M. P. (Name given on request.)

"I have found nothing in my 35 years' practice to equal Adierka." (Signed) Dr. James Weaver.

"After taking Adierka I feel better than for 20 years. Haven't language to express the A.T.W.'s IMPURITIES eliminated from my system." (Signed) J. E. Fickett.

Adierka is a constant surprise to people who have used only ordinary bowel and stomach medicine, on account of its rapid, pleasant and COMPLETE action. It is sold by leading druggists everywhere.

Sold in St. John by J. Benson Mahony, druggist, 7 and 4 Dock street, and other leading druggists.
