Cudahy and Fairbanks Show Their Faces Once More.

CONDITIONS ON WHICH THEY WILL PAY

The Board of Trade Depleted Two Million Dollars.

Gevernor Tillman's Orders to Shoot-Carnegie Sued by the Homestead Poisoners' Victims-Cholera Sharply Watched at New York-Senator Hill's Panacea for Silver Evils.

Chicago, Aug. 5.-John Cudaby was down town yesterday for the first time since his collapse. He was much dejected in appearance. He said that it would be at least a week before he could tell how much he owed, or what he could pay. Fairbanks was also around for the first time since his failure. It is said that the amount which creditors will get depends much on the ability of Fairbanks to pay what he owes Cudahy. It is estimated here that the two men have about two millions of unsecured debts. It is supposed their nominal assets amount to four millions, largely in real estate, but this just now is unsal-It is thought that Wright owes about \$700,000, and that he has practically nothing left. Of the seven concerns which failed only one as yet has done anything towards settling with its creditors. Wright and Haughey this afternoon offered to their creditors secured notes at one year, and promised to pay sooner if they could collect from the principals in the lard transaction. The claim of this concern against Cudahy and Fairbanks is about \$100,000. It is now said that there are losses by firms which lid not suspend, of over \$100,000, in at least half a dozen cases. It is calculated that the board of trade has suffered by this affair to the extent of about two million dollars. The greatest uncertainty prevails as to what sort of dividend he larger debtors will be able to pay. Some think it will be 100 cents, and some les than 50 cents on the dollar.

C., Aug. 5.—The rough treatment accorded Governor Tillman's dispensary spies in Sumpter and Charlesto-day he made the announcement that he was going to arm them and give them instructions to shoot down everybody who interfered with them. Just as the allow state constables to be made does of by barkeepers and their followers."

Carnegie Heavily Sued. Pittsburg, Pa., Aug. 5.-Three suits for heavy damages have been entered against the Carnegie Steel Company by victims of the Homestead poisoning conspiracy, for which Hugh Dempsey, ex-district master workman of the Knights of Labor, and two others are now serving terms in penitentiary. The suits were entered by Mrs. Hebron, who claims \$25,000 damages for the death of her son, and Edward Ellis and Harry Colins, who claim that their health has permanently impaired. They ask \$10,000 each. Counsel for defendants say they will compromise the cases. If this is done it is likely hundreds of similar suits will be entered.

Albany, N. Y., Aug. 5 .- Although Senator Hill declines to talk about silver, his friends say his thoughts concentrate apon the subject and that he is working upon a free coinage bill to be introduced at the coming session, and of course on a speech to support it. It is understood his measure will be to establish free bimetallic coinage as it existed prior to 1873, and that instead of the present ratio of 16 to 1, the senator will advocate a ratio of 15 1-2 to 1. This would pernit anyone possessing 301 3-4 grains of silver to take them to the United States mint and receive in return one silver dollar. Speeches delivered by Senator Hill at Elmira, Dec. 14th, 1891, and at the Kenmore banquet, Dec. 21st, 1891, justify the belief that he will advocate the restoration of free bi-metallic coinage; and that he is preparing to do so, is indicated by the fact that he has kept at work all through summer, as well as

by the statements of his friends.

Disappointed Immigration Sharks. London, Aug. 5.-The report from the United States concerning the temporary financial stringency and commercial depression has knocked the "boom" for which the immigration agents have smithereens. Ever since the spring the various immigration agencies in the centre of the city have been deluging the industrial and agricultural regions of the country with pamphlets. As a result of these representations numerous immigration clubs have been ororganized on an installment principle in the west and north of England, and the agents have been looking forward to one of the biggest harvests of recent years. Cable dispatches of the past few weeks, however, have convinced the intending emigrants that it is better for the time being to endure present evils than to seek worse ones in a new country, and as a result the "boom" exploded.

McLeod, of the British cruiser Pallas, for having steamed down with a crew at quarters and guns out upon the Pallas, which was lying outside the blockade line. Capt. McLeod's prudence and coolness alone prevented an armed conflict. This and another similar instance of the Lion's conduct justified the Pallas in preparing to avoid being taken at a dis-

SILVER DISCUSSED. Various Opinions on the Subject by

Leading Americans. opinion is that Congress will not be in during this month. In that time he thought the much talked of clause in the Sherman Act could be repealed. The ways and means committee could be empowered to draft a tariff bill for submission to Congress, when it convened, which should be some time in October. As to the tariff it would be impossible for the ways and means committee to do justice to the subject. While the House was in constant session, there were too many disturbing elements, and the surroundings were not favorable for wise and safe legislation. But, if the committee was empowered to prepare a bill and was allowed to go to some quiet place on the sea shore, and pursue its labors unmolested, the result would be a satisfac-

Touching the course of the ways and means committee in dealing with the tariff, Mr. Springer said it would doubtless report on a general tariff bill instead of a series of specific bills. That policy had done good service last congress, but tem. To do this would not involve any radical change in the rules of the House. ton has aroused the governor's ire, and Mr. Springer believes that the majority

Any scheme which contemplates the abandonment of silver is against the principles set by the Chicago convention, and will not be tolerated. There can, in my opinion, be no unconditional repeal of the Sherman law. If the President has set out to repeal the Sherman law without offering anything in its place, he has set up a platform not in accordance with that upon which he went before the people." Mr. Oates looks a condition that will provide for the free

coinage of silver at an increased ratio. Senator George came in to-day from Georgia and takes a rather cheerful view of the situation in the South. He believes there will be money for his people to move their crops, and that, with the movement of cotton, easier times will ret the sea, but succeeded in gaining hold sult, so far as the silver question is con- of the rigging. Senator Squire, of Washington, is one fhe ground that the President should be allowed to deal with the silver question in his own discretion, and he believes that it would be good policy for Congress to pass a joint resolution permitting the President to suspend the operation of the silver purchase portion of the Sherman law, in his discretion.

Mr. Bland, the champion of free coinage, arrived to-day and was seen in consultation with three members of his faith who are in the city. He said the friends of silver had agreed upon no plan and three new cases and one death in of campaign, other than that they were opposed to the repeal of the Sherman law, unless they were first given the free coinage of silver. Mr. Bland, in speaking of the ratio, said he saw no reason to change that now in force, so far as the possibility of repeal was concerned. Mr. Bland was emphatic in his declaration been working for several months into that the unconditional repeal of the purchasing act could not be accomplished in either House.

> Aberdonians Banquet Aberdeen. London, Aug. 3.-Some of the leading citizens of Aberdeen gave a banquet this evening to the Earl of Aberdeen, the new governor-general of Canada. The Earl in a speech dilated upon the energy with which the Canadians had built up their institutions. This energy was all the more creditable, he said, seeing that Canada'e nearest neighbor was her powerful but friendly sister nation, United States-a nation which had great wealth and a vast population, and which enjoyed special facilities for rapid progress. Canada, he added, understood and would prove the advantage of steady and safe, if gradual, advancement.

Ottawa, Aug. 7.-A telegram was re ceived from Minister Daly, who is at Calgary, this morning asking that the sale of the Thousand Islands group on the Canadian side of the St. Lawrence be postponed. The deputy minister of Indian affairs has done so. A few days ago a telegram was received from Daly advising the sale of 350 out of 648 and reserve the remainder; among the latter were the large ones. The protest of even the Conservative press has been so great that Daly has climbed down altogether and the sale is put off indefinitely. The sale was to have taken place at Ganan-oque on Thursday.

HATRED OF CHRISTIANITY

Curious Plackard Posted in a Chinese Town by an Official. York, Aug. 4.-The Woman's Foreign Missionary Society of the Pres-byterian church has received a letter from Rev. W. J. Drumong, its missionary in Kanking, saying that in the city of Gil Yong, thirty miles east of Nanking, a native was caught recently pasting up the following placard:

"Foreigners in China spare no amount of money to buy land and erect preaching chapels, dig out men's eyeballs, collect the marrow from their bones, dry and carry off children, seduce and deceive women and practice all kinds of evil. Execution is too mild a punishment for

such crimes. "The other day persons came to Gu, saying that they were going to erect a stand almost any kind of run. There Heavenly Lord chapel. Managers of the World's Fair. World's Fair, Grounds, Aug. 5 .- The board of lady managers indulged in an-

other decidedly unpleasant wrangle today. It lasted nearly two hours, and during that time many mean things were said and many ladies gave vent to their feelings by hard words. Mrs. Ball. of Delaware, secretary of the committee on awards, made a long complaint against Mrs. Meredith, of Indiana, chairman of the committee. Among other things, she charged that when Mrs. Meredith was unable to attend the sessions of the committee she sent her sister to act as overseer, while the sister had no right to a seat in the committee. At frequent intervals during Mrs. Ball's remarks there were loud exclamations of surprise from the audience, but the sensation came when in closing she characterized Mrs. Meredith as an "arrogant, malicious, ungenerous and vindictive woman." Before she had finished, half the women in the house were on their feet, many shricking wildly, while others hissed and stamped their feet. Mrs. Palmer used her gavel vigorously and called in vain for order, but in the excitement the women paid no attention to it. "Take that back," yelled one large woman. "Put her out," screamed another, and so on, and pandemonium reigned supreme. During all the uproar Mrs. Ball stood perfeetly calm, smiling serenely. When at length order was restored, she repeated the sentence. Then the uproar was renewed and continued for some time. Mrs. Ball finally took her seat and in an instant Mrs. Meredith was on her feet. "So far as any difference that exists be tween Mrs. Ball and myself is concerned," said she, "we can settle it ourselves, but when she said I sent my sister to preside over the committee she tells what is absolutely false." Here Mrs. Meredith broke down and sobbed hysterically.

Then came another scene of wild confusion. Everybody wanted to talk at once. Motions were made by the dozen, but nothing was done until Mrs. Palmer who was pale with excitement, succeeded in restoring order. Then Mrs. Ball got the floor again, and said she would retract the word "malicious." 'There was loud applause at this, and on motion of one of the ladies the entire proceedings were expunged from the records. The meeting then adjourned.

Washington, D. C., Aug. 7.—From well formed sources it is learned that the President's message will not be more than two columns long, and that it recommends the unconditional repeal of the Sherman act. Prominent Democrats express themselves as agreeably surprised at what they understand to be the moderation of the President's recommendation. They are informed that while he recommends the unconditional repeal of the Sherman act, he recognizes that silver is one of the money metals of the and resumed business. The receiver re-country which must be maintained, but ported the affairs of the company in expoints out that with the present attitude of European countries the proper ratio between gold and silver cannot be maintained by this country alone. Therefore, he does not favor the coinage of silver under present conditions, except for subsidiary purposes. He thinks European nations, now depressing the price of silver, can, by suspension of its coinage in this country except for subsidiary purposes, be coerced into an international arrangement more favorable than the Americans heretofore had. He is in favor of silver on a parity with gold and stands by the platform of 1892, but adds that the platform cannot be carried out, for the reason that fixed parity cannot, be maintained. Prominent leaders of both wings of the Democratic party have had conveyed to them the impression that these are substantially the views the President will express.
