Ti re: People Instantly Killed While Returning From Wedding-Fishing Industry in the Northwest.

Montreal, Jan. 9.-A dispatch from Roxton, Que., says that yesterday morning Aime Pinsonneault, tinsmith of that place, was married in the village church to Miss Lavalle, of the same place. It had been decided that the wedding party take supper at the residence of the groom's father at Upton. In the afternoon the procession of sleighs started for that place. About 5 o'clock the party reached the Grand Trunk railway crossing. The first five sleighs crossed the track in safety, but as the sixth, containing Mr. Lavalle, sr., his wife and young won Ernest, reached the crossing, it was struck by the westbound Portland and Montreal express. The three occupants were instantly killed. Winding Up Order.

SUPREME COURT TO DECIDE. .

Whether Rogers Can Be Compelled to Answer Questions Put By Attorney-General Hadley.

New York, Jan. 9,-The question whether Henry Rogers can be compelled to tell Attorney-General Herbert S. Hadley, of Missouri, whether the Standard Oil Company of New Jersey owns or controls three oil companies which are selling oil in Misouri as separate companies will be placed before the Supreme court of New York state to-morrow. All the has declined to answer by advice counsel in the last three days of the Supreme court, and the court was askad to order Mr. Rogers to show cause why he should not answer them. Lawson's Reply.

Boston, Jan. 9.—In reply to a request from Attorney-General Hadley, of Missouri, asking him to give any information in his possession regarding the relations between the Standard Oil Company of Indiana and two other oil producing corporations, Thomas W. Lawson to-night sent a lengthy telegram to Mr. Hadley. Mr. Lawson informed the attorney-general that he knew nothing of the relations in question, and that while he was aware of certain acts of the Standard Oil "Monopoly," he could not "fairly come with- ed himself at the Hollenden hotel toin the wise restrictions of Mr. Hadley's day. ELECTIONS THIS WEEK.

Polling Will Take Place in Several Constituencies of and Saturday.

London, Jan. 9 .- Some changes are involved in the latest arrangements for the beginning of the elections. The first elections will take place at Ipswich January 12th. There appears to THE SUDDEN DEATH be some difference of opinion regarding the legality of such an early date, but all four candidates for Ipswich have agreed not to raise the question of legality. Some 25 elections in varia-ous districts will take place January 13th, including at the districts of Man-chester, in which city former Premier Balfour and Winston-Spencer Churchill are running. Captain Cecil Williams Norton, junior lord of the treasury, and George Wyndham, former chief secretary for Ireland, also are among the candidates for election January

Speeches by Leaders. Prominent leaders on both sides addressed large meetings to-night. Among these were Sir Henry Campbell-Bannerman, the premier, who spoke at assurance that all would come out in the Liverpool, where he was heckled by the women suffrage advocates. The provincial health officer, was almost as premier said that personally he was in favor of suffrage for women, but that he declined to pledge his party in ant business trip in order to be present the matter. Several of the women were ejected.

The Conservatives are making capital out of Premier Campbell-Bannerman's admission in his speech at Liverpool to-night that the government is unable to stop the entrance into South Africa of 16,000 Chinese coolies for before the resignation of the Balfour cabinet. It transpires from a white book just issued that the Rand mine owners must have anticipated that the change of government would lead to a reversal of the policy regarding the

ortation of coolies, since the monthly average of licenses granted prior to Mr. Balfour's resignation suddenly jumped from 2,400 to 13,000, the number for November last notwithstanding the fact that Colonial Secretary Lyttleton has suggested that it would be good policy to stop the immigration of coolies for six months. The Liberal organs characterize this as a smart trick on the part of the Balfour gov-

Death came suddenly, and, from what can be gathered, without any previous indications of serious illness. Dr. J. S. Helmcken was the first medical attendant called, but he did not arrive until life was extinct. A cursory examination, combined with the statement of the parents to the effect that a teething powder had been administered shortly before, impressed him with the necessity of an case is, however, a particularly investigation, and, accordingly, Coroner ordered and the suspicions were confirmed to such an extent that an inquest was decided upon. The jury was empannelled There appears to be a likelihood that | yesterday, and, after the body of the dethe Nationalist candidate, Joseph Dev- ceased had been viewed, an adjournment was taken until Friday, as the ovidence was not all available.

Just what caused death, or rather what the doctors believed to have brought about such a fatal outcome, it would be difficult to say. None of the practitioners most directly concerned will talk for publication. Dr. Helmcken, when seen this morning, stated that the matter was in the hands of the coroner; the lat- tural iron workers, and indirectly ter evaded the reporter's queries with the evidence at the inquest, while Dr. Fagan, reticent. The latter, however, acknowledged that he had postponed an import. on Friday. It is gathered from this that points resembles that of the death of the according to the verdict returned, died as a result of accidental poisoning from an overdose of Chamberlain's Colic, Cholera hour, and Diarrhoea Remedy. The powder whom contracts had been concluded given the child to ease its fretting, somegrowth of the teeth, was of the patent

medicine variety. Although their story has been told to no one with the exception of the doctors up to the present, it is said to confirm the latter's suspicions in every respect. Previous to the administration of the dose mentioned, the infant is reported to have been enjoying ordinary health, while afterwards it gradually sank, respiration oming weaker until death's grim hand could be denied no longer. Owing to the fact that those in charge did not realize the danger, thinking their young patient had simply sunk into a peaceful slumber, Dr. Helmcken's summons came too late serve any useful purpose.

If it should be proven at the inquest that the powders were the direct cause of death, it is likely that the provincial board of health will be forced to take some action towards restricting the sale of patent medicines. This might be done by act of parliament at the forthcoming session of the legislature. If it is con sidered impossible to adopt such a policy it is possible that an act will be introduced prohibiting its sale entirely. This, authorities, which might induce much more effective action than could be taken by the provincial government.

Young Man Drowned While on His Way to Visit a Brother.

New Westminster, Jan. 8.—The body of Frank Owen was found yesterday in the Freser river at the point where he was last seen alive.

The deceased, who was a young Eng.

lishman, was living in Vancouver, and came over here on New Year's day to ee his brother, who was working at Ewen's cannery. When no news was received of his arrival at the cannery and he did not return home the mat ter was reported to the police, who traced his steps upon his arrival here to the bank of the river opposite the cannery. On Saturday they received word that Frank Trapps had seen him the river bank on New Year's day and had taken him across to the cannery landing in his launch. He had landed him on the scow, which formed the cannery landing, about 5 p.m., it being almost dark at that hour. On Sunday the provincial police and the young man's brother examined the scow and found that it was moored a few feet from the bank, leaving ample space for anyone to fall in the river if the alarm in all the rooms. Many they did not know the landing; they accordingly moved the scow and dragged at the spot, with the result that the body was brought to the surface.
