VIEWS OF PROFESSOR OF ARCHITECTURE

Faulty Construction Were Largely Responsible.

San Francisco, June 19 .- "Dishonest mortar, a corrupt conglomeration of sea sand and lime, was responsible for nearly all of the earthquake damage in San Francisco," says Dr. T. Nakamura, professor of architecture of the Imperial University of Tokio, and one and fire. After investigation covering a period of several weeks, Dr. Naka- INDIAN MURDERER mura has completed his labors, and will sail on the Korea to report his conclusions to his government.

"I find," said Dr. Nakamura yesterday, "that much of the damage to San Francisco from the earthquake was due to poor mortar and faulty construction, and the greater portion of the damage to the class A buildings by hollow tiling and so-called bricks instead of concrete. It is an easy matter, I have found, to design a building that will be not only earthquake proof, but practically fireproof. There has developed as a result of the earthquake St. Petersburg, June 18.—The long in San Francisco great prejudice where earthquakes of greater severity Michael Stakovich, of Orel, in which than the one experienced in this city he virtually declared the government are not uncommon.
