

OBJECT TO THE CANADIANS LANDING FISH IN N. E.

BOSTON FISH MEN FEAR COMPETITION OF THE MARITIME PROVINCES

Tell International Conference Prices Would Drop and That Industry Would Be Seriously Injured—High Cost of Fishing Tackle and High Wages Two of Elements Under High Prices.

President of New England Fish Company Favors Canadians Landing Their Fish—Canada Represented at Hearing by Chief Justice Hazen and Supt. Found of Fisheries Department.

Boston, Jan. 31.—Massachusetts fishermen, registering their objections to any proposal which would allow Canadian fishing vessels to bring their fish to the United States declared today at a hearing given by the Canadian-American international conference that the very existence of the industry in this state will be endangered. Speakers admitted that such an agreement would result in a larger supply of fresh fish for the people of the United States, but insisted that it would be a hardship on the producers' point of view.

Chief Justice J. Douglas Hazen, of New Brunswick, headed the Canadian mission, with William M. Pound, Dominion superintendent of fisheries, and Arnold Robertson, chief secretary of the British embassy at Washington, as his assistants, while the United States was represented by Secretary of Commerce William C. Redfield, Assistant Secretary Edwin F. Sweet and Dr. Hugh B. Smith, chief of the bureau of fisheries.

Open Diplomacy. In opening the hearing Secretary Redfield characterized the work of the conference as "open diplomacy," and said that the purpose was to give opportunity for all interested to express their views. "It is hoped," Secretary Redfield added, "that it will be possible to make an arrangement to remove the causes of irritation wherever they exist."

The main objective of the conference, it was explained by Secretary Redfield and Chief Justice Hazen, was to devise mutually equitable regulations for the joint use of American and Canadian ports by fishermen, both in the matter of obtaining supplies and, if it were found desirable, in disposing of their catches.

Prices Would Drop.

One of the first speakers, William H. Brown, of this city, asserted that it was a rare thing for an American vessel to land its fish at a Canadian port and that if Canadian fishermen had the privilege of landing here, prices would drop and the industry would be seriously injured. Others mentioned the high cost of fishing tackle and wages as reasons why business could not be carried on profitably if prices were reduced.

D. M. Arnold, president of the New England Fish Company, which operates a fleet of halibut fishing boats on the Pacific coast, favored the proposal to open the ports to Canadians. He explained that fishermen on the Pacific were operating under an agreement practically the same as was being sought here and that it had been found very beneficial.

Spectacular Attack on Paris by German Airmen Who Introduce Bombs of Three Kinds—Winged Torpedoes, Explosive Bombs and Asphyxiating Gas Bombs Found—French Airmen Seriously Hurt.

DONAR LAW.

Paris, Jan. 31.—Fragments of projectiles dropped by the Germans and examined at the Municipal Laboratory show that bombs of three kinds were used by the airmen last night, according to L'Intransigeant. They were winged torpedoes, weighing from 160 to 200 pounds, explosive bombs and incendiary bombs, the two latter bursting a minute after falling. No traces of asphyxiating gas bombs were found. The total number of bombs dropped is estimated at seventy.

Cross ambulances workers assisted in removing air raid victims to hospitals. The entire ambulance personnel was mobilized and had their machines waiting for calls within forty minutes after the commencement of the raid. So far as is known no Americans are among the victims of the raid.

The French machine which was forced to land on account of motor trouble, descended in the Palace De La Concorde, just to the right of the pillar surrounded by the stone horse from the Marly Palace, which marks the entrance to the Champs d'Elysees.

Aviator Seriously Hurt. The aviator, Lejunde, was seriously injured, but his companion, Schemm, was scarcely hurt. As soon as the machine landed American nurses were on the spot offering their services.

As the gasoline of the aircraft was escaping from the reservoir, a taxicab filled with several empty cans with the valuable liquid, which is very scarce in Paris. President Poincare, Premier Clemenceau and General Dubail, military governor of Paris, joined the great crowds of other Parisians in visiting the localities where the bombs had fallen.

President visited injured. The president visited personally a large number of the injured. In the street crowds, the conversation turned chiefly upon the amazing midnight battles in the air, of which not much was known.

THE KING OF BAVARIA IS FOR PEACE

KING OF SAXONY.

(Continued from page 1) The Deutsche Tages Zeitung, which is a pan-German organ, recently was quoted as saying that King Ludwig of Bavaria had made representations to Emperor William regarding the political situation which had arisen in connection with the negotiations with Russian Bolsheviks and following Chancellor Von Hertling's recent speech to the Reichstag.

Kaiser Needs Help. Amsterdam, Jan. 31.—Replying to birthday congratulations from King Ludwig of Bavaria, Emperor William expressed confidence that the German empire would emerge strong and secure from the present trial. But to that end, he said, we need the help of all who love our several tried people, especially the help of political leaders.

STRIKE EXTENDS IN DISTRICTS NEAR BERLIN

Almost All Shipyard Laborers of Hamburg Out—Meeting Demands Immediate Peace.

Amsterdam, Jan. 31.—(British Admiralty, per Wireless Press) The strike has been extended in districts near Berlin, especially in Regel, Alster, Spandau and Mariendorf, where 500,000 men have quit work. A similar number of workmen are on strike in the remainder of the empire.

In Hamburg. Amsterdam, Jan. 31.—Evidence of the extent of the strike in Hamburg is given in the Cologne Gazette, which says that almost all the shipyard laborers of that city have quit work. After the men in the Vulcan yards walked out the others struck yesterday, declaring their solidarity with the Vulcan workers.

Clergymen vainly exhorted the strikers in Hamburg yesterday to continue their work, the Cologne Gazette says. The workers proceeded to the trades union headquarters and adopted a resolution opposing the Pan-German fatherland party and demanding indemnities, better labor conditions and improvement of the food supply.

A deputation waited on general in command of the district and said the strikers would not resort to violence.

Orders Work Resumed. Amsterdam, Jan. 31.—The military commander at Hamburg has ordered a cessation of the strike there, says the Cologne Gazette. The despatch adds that the commander also ordered that future strikes be avoided.

THE ITALIAN ARMY BETTERS POSITION IN MOUNTAINS

Hostile Artillery Active South of Cambrai—Arras Road—British Successful in East.

London, Jan. 31.—The report from Field Marshal Haig's headquarters in France tonight says: "During the day our patrols again secured a few prisoners on different portions of our front. There was some hostile artillery activity south of the Cambrai-Arras road."

Italian Statement. Rome, Jan. 31.—The Italians new position west of the Frenzella Valley on the mountain front was improved yesterday, the war office announced today. The line was advanced slightly northeast of Col Del Rosso.

French Statement. Paris, Jan. 31.—The war office announcement tonight says: "There is nothing to report about the action, which was quite violent in the region of Flirey."

On January 30 a German airplane was brought down by our pilots; three others fell inside their own lines. "Eastern theatre, Jan. 30.—Near Lake Dolan the British troops carried out a successful raid which enabled them to bring back prisoners in the neighborhood of Monastir there were reciprocal artillery actions. An enemy aeroplane was brought down near Doiran."

FUEL SHORTAGE MORE SERIOUS

New England Industries May Have to Close Again—A Heavy Storm.

Washington, Jan. 30.—Large sections of the east face a coal famine within the next few days as a result of further hampering of railroad transportation by today's snow and ice storms. Reports reaching the railroad and fuel administration tonight showed New England, parts of Pennsylvania and districts along the Atlantic seaboard in worst condition and there were indications that many industries would be forced to stop operations for a few days for lack of fuel.

Already the railroad administration has done all possible to meet the emergency, it was stated, and developments must depend almost entirely on weather conditions. Forecasts of these gave no basis of hope, for snow was promised for most of the country east of the Mississippi tomorrow.

BATTLE GALLANT ITALIANS GAINS SWEEPING VICTORIES IN ITS

Enemy Driven far Back from with Very Heavy Losses—Italians Exceed 2,500—First Italian Character—First Italian Success and Enemy Forces A by Surprise.

Italian Army Headquarters in Northern Italy, Jan. 30.—(By the Associated Press)—The battle in the mountains west of the Brenta river during the past two days has been one of the most decisive since the new battle lines were formed. There have been sweeping successes for the Italians, who, after taking three strategic heights, captured yesterday the important position of Monte Di Val Bella.

The enemy was driven far back from his former front with very heavy losses. The prisoners taken by the Italians exceed 2,500 men and more than one hundred officers, six cannon, one hundred machine guns and several thousand rifles were captured.

The fighting was of the bloodiest character with hand grenades, bayonets and knives.

An enemy attempt to bring forward large reinforcements caused a debacle, in which the retreating forces got into extreme confusion with those being brought to the front.
