They call upon the Socialists to form an international commission, representing all Socialist parties to visit and ascertain whether the Russians Socialists are not right in declaring that the Bolsheviki have brought widespread evils on Russia, destroyed industry, caused universal starvation, despotically oppressed the people and are now concerned only in retaining power at all costs.

dewing the murder of Von Nirback, the German ambassador to Russia, shows thes tate of feeling in the Ukraine where Germany expected to find rich ground and easy conquest.

Spain supplies an analogy for the situation of Russia. In 1808 Napoleon selzed the Spanish royal family and occupied Madrid and then the Revolutionary Junta treated Napoleon's army much the same way that the chief figures Germany has sent to Russia are being handled by the revolutionists. But Ludendorff cannot afford to divert forces from the west. He cannot afford to use those he now has in Russia, because strong action might solidify Russia. Eichhern who after helping to conquer Russia attempted to reap an economic harvest, has met the fate which the Spanish revolutionists dealt Napoleon's men. Victoria, B.
