

THE STRIKE IN CHICAGO IS UNSUPPORTED

Building Trades Indicate Their Refusal to Join in Opposition to Landis Award.

Chicago, Jan. 14.—Six unions have voted against joining the strike in the building trades, or indicated that they will vote against such action. The strike has been called by the Building Trades Council to support the carpenters who are fighting the Landis award. The bricklayers and structural iron workers have voted to continue to work. Similar action is expected of the hod carriers and unskilled laborers, and the lathers and the architectural iron workers.

With the exception of the plumbers, all jobs vacated by strikers last week on four building projects in support of the carpenters have been filled, according to a report by the citizens' committee appointed to enforce the Landis award. It declared work on these enterprises was progressing normally. In a speech before the Chicago Association of Commerce, which promoted the citizens' committee, Edward Gore, the new president of the association, said:

"The most effective remedy for the ailments of business in Chicago is to be found in the resumption of constructive work, both public and private. Every ounce of energy that this community possesses should be immediately devoted to clearing away the obstacles that interfere with the progress of the construction, and to that end every effort should be made to throw the weight of this association behind the citizens' committee for the enforcement of the Landis award."

"If we are to have pride in our city," said Joseph B. Neal, the retiring president, in his farewell speech, "if we are to have honor and honesty in our business dealings; if we are to free the tenant and the home owner from paying two prices for what he gets—the cost of construction, plus the cost of extortion, inefficiency and greed; if we are to make it possible for industry to exist in Chicago; in fact, if we are to retain our self-respect, the citizens' committee fight must be won."

Y.M.C.A. Seniors And Lincoln, Me.

All Arrangements Complete for Fast Game of Basketball at Armories Wednesday Night.

All necessary arrangements have been made for the coming basketball game, Y. M. C. A. Seniors versus Lincoln, Maine. A letter has been received from the manager of the Lincoln team, Joe Gordon, stating that his team is in good shape any they expect to get away with the game here. Also the personnel of the Lincoln team, as follows: Carey, forward, played with Fort Titan in 1919, and has a record of being a great scorer; McKinnon, their other forward, both of whom are excellent players and has been playing great combination with Carey. Their centre, Bryant, played on Mattanook Academy team, which team gave the Maine State Champions their hardest battle. For guards they have Weatherbee, who was at one time Captain of Lee Academy and Sandy has been with Lincoln for four years and not only is a single game. Joe Gordon will have to play to keep up their reputation for winning games.

The Seniors have played the Y. M. C. A. and also the Trojans last week. The Seniors are practicing with the Y. M. C. A. Intercollegiate High School at the Armories tonight, so that all three teams will have the floor down. Evans who had put considerable practice in at shooting fouls, will be relied upon to get any points he has the opportunity of, as he made a possible Saturday night in the game with the Trojans. Major C. Merseaux will referee.

The preliminary game between the High School and Y. M. C. A. I. intercollegiate, which game is worth watching as it is the first appearance of these two teams, playing against each other. It is hoped that the public will support the game as the management will be under a great expense in bringing this Maine team here and it is the biggest event ever attempted in basketball in the history of the game in St. John, and if supported will be the fore-runner of games with other fast teams. Possibly McGill, Montreal and Grand Mere, Quebec, will be brought here.

Old Country Football News

London, Jan. 14.—The fight for league honors promises to be hotter than ever this season. Saturday results leave the situation very open in all three divisions, the goal average being the deciding factor in the leadership of the southern section of the Third Division, while it is also settling temporarily the second place in the second division.

Hard weather spoiled the play generally. In the first division Liverpool strengthened their lead by defeating Bradford and were further assisted by the defeat of Burnley, Bolton, Everton, who are showing poor form lately. Sunderland suffered a bad set back when playing in thick fog and a brilliant goal was scored by Sunderland's goal keeper putting the ball through his own goal. Arsenal continued their superiority over Chelsea, who are outplayed everywhere, yet Chelsea almost equalled in the second half from a penalty kick, had not Arsenal's goal keeper made a wonderful save. Tottenham pulled off a great performance against Preston inflicting on that team their first home defeat of the season.

The most remarkable game despite the snowy conditions, Newcastle also scored a well deserved victory over Manchester City.

In the Second Division North Forest disappointed their supporters by their defeat by Bury, but still retain first place in the league.

Montreal, Jan. 15.—President Mitchell, Vice-President Philip and four of the old council were re-elected as officers of the Province of Quebec Football Association at the annual meeting here Saturday. Josh Wilson was also re-elected as secretary-treasurer. In his annual report, President Mitchell dealt at length with the tour of the Scottish International players and the subsequent controversy regarding the financial returns from the tour. He stated that he personally did not believe that the "half of what had taken place was known, and added that it was high time that full information was given. A letter from Secretary Roy, of the D.P.A., was read which conveyed the impression that the Dominion Executive was far from satisfied with the action taken by the local body in endeavoring to secure the co-operation of the other provincial associations in a demand that all books and accounts of the Dominion Association be placed in the hands of a chartered accountant to be analyzed. Mr. Roy referred to this action as an "insurgent movement."

Telegrams were read from Nova Scotia, Ontario and Manitoba associations. The Nova Scotia association was entirely in accord with the action detailed above, of the Quebec association. Ontario and Manitoba have not held their annual meetings and will reply when they have done so. In the meantime the local delegates met at Grand Point Friday, were reported resting comfortably this morning. It has not yet been decided whether his skull was fractured or not.

Over Eighty of Fastest Skaters to Start on Lily—Several Visiting Sp... terday—Others Includi...

The wire assuring Jewitraw's arrival was received yesterday by the Y. M. C. I. committee who are attending all the details which concern the Canadian classic which is being held under their auspices. Although the entry of the youthful champion has been received, a wire came later stating that, owing to the fact that he was writing High School examinations he would be unable to attend, as had first intended. Naturally a wire had the effect of a bombshell as the contest was widespread, but the aid of urgent wires and stress on the importance of his coming, a wire from the aid of Mayor Schofield, who the contest is being held in St. John's, got him here, sufficient power of argument was brought to bear, as evidently the High School authorities of Lake Placid thought that when the Mayor and Corporation were before the urging, some consideration would have to be given their request, they eventually agreed to let Jewitraw pass up the seal of exams.

The whole battalion of little "M. Grooms" who were forming fours at marching in columns with banners flying whenever the Y. M. C. I. committee in charge of the meet, assembled to talk things over, but hasty retreat and gave way to a who army division of "sunny boy" joy when the following wire was received yesterday from Henry H. Hildon, president of the Lake Placid Skating Association:

"Jewitraw will sacrifice his personal interest for the good of skating, and arrive with me Monday." (Signed) "THIELER."

Skaters Work-Out

Did you see the world's champion half mile runner, try out with the 440 yard champion of the world, or Lilk Lake yesterday? If you did you were one of some two thousand or more who were present at the meet. All the visiting skaters who arrived Saturday were trying out on the lake yesterday with the local skaters. The ice was good, they said, although there was a little water on it.

It was a rare sight to see them all skating out in line in their protective uniforms, each man wearing the colors of the club he represents whirling over the mirror like surface, like whirling circles and flashing in and out and ever speeding on in intoxicating bursts of speed.

Moore an Attraction.

Though none of the skaters over-acted themselves, Joe Moore and Charlie Gorman attracted the onlookers no little excitement when they let themselves out occasionally and playfully showed each other their heels for a few laps, and then slowed up to let the other in on the game.

Moore was, of course, the battery for all eyes, alert and confident in the blue and white uniform of the Ontario Ice Palace, he more than stood the test.

Moore has come to St. John to defend his laurels against Charlie Gorman, "St. John's pride," and Moore was to be crowned with the laurel and handed a palm for each of his achievements he would be crowned for a few laps, and then slowed up to let the other in on the game.

Both the indoor and outdoor skating championships were won by him last year, and this year he has started out by winning the middle Atlantic championships, and coming second in the New York State championships by Jewitraw, and by winning the City after Moore who was leading was disqualified in one race.

Is Moore a Speedster.

Last year Moore chalked 110 points in the international meet at Lake Placid, and then boosted the pot for ten when he took part in the indoor meet at Pittsburgh. He participated in the Canadian, American and international meets, hanging up the world's record for the half mile in 1:17.25 at Lake Placid, and the mile record in 3:42.

Like most of the other visiting skaters, Moore is a mere lad, just entering the twenties, while Jewitraw is only twenty-one.

Many St. Johners will no doubt think that Moore with all these records was a born skater. As a matter of fact he has only been skating for the past six years, having been induced to do so by the gift of a pair of skates from Norval Baptie, the famous knight of the blades, when Moore was working as an office boy in the St. Nicholas Rink in New York.

His First Win.

When Moore got the skates things began to happen. He clinched the city championship of New York at the age of fifteen, the Eastern Indoor Skating Championship in the Brooklyn Ice Palace in 1919, and in the same year won the two mile North Eastern Championship at St. Paul.
