LONDON, July 30.

The race for the Goodwood cup, to-day, was won by Doncaster; Kaiser second; Misstoto third.

Vienna journals say that Austria has received a circular note from Germany, urging the great powers to combine to prevent Carlist atrocities in Spain, and has given a favorable reply.

The *Morning Post* asserts that Germany will propose in the Brussels Congress the recognition of the present Government of Spain.

NEW YORK, July 30.

It is reported at St. Thomas that a rising in St. Domingo was threatened early in the month by some friends of Baez, but the arrest of the ringleaders suppressed it.

It is feared that pestilence may follow the flood at Alleghany city, as the ravine at Butcher's Run is choked up for two miles with the contents of the slaughter houses, more than 100 dead horses, and a large number of bullocks. The sun, which has come out, has caused a great stench, almost overpowering the working parties.

The Quebec Ministry—Lumber—The Dawson Route.

OTTAWA, July 31.

Irvine, the Attorney General of the Quebec Government, has resigned in consequence of the popular feeling against the Government consequent upon the late land transactions. Irvine was opposed to the transfer. It is supposed that other resignations will follow. Nothing but a satisfactory re-construction can save the Ministry.

The Lumbermen's Association have decided to reduce production the coming season by one half.

The last batch of Menonites would not proceed to Manitoba by the Dawsou route, being warned by preceding friends that they would be starved.

LONDON, July 30.

THE SPANISH CIVIL WAR.

Advices from Spain report that the Carlists claim a great victory over the Republicans near the frontier.

There are indications of a concerted movement of the nations bordering on Spain for the protection of the frontier from violation by the Carlists.

RIOTOUS STRIKERS IN BELFAST.

There is a serious strike of operatives of the flax mills at Belfast, Ireland. The striking work people are making threatening demonstrations to-night. Crowds of them are parading the streets and have attacked several bakeries. The magistrates have asked for 400 additional policemen.

NEW YORK, July 31.

THE LUMBER CONVENTION

in Ottawa yesterday adopted a report in favor of lessening the production by one half to remedy the present depression of the market owing to over production.

PITTSBURG, July 29.

THE PENNSYLVANIA FLOOD—THE SCENE OF THE CALAMITY.

Thousands of people are visiting the scene of the recent disaster to-day. At Butcher's Run last evening the scene was peculiarly dismal. The devastated homes now in heaps of ruins doubtless conceal a large number of bodies not yet discovered. Rumors were current last evening that a man and child were taken from the ruins. The captain of steamer McCormick reports that he passed three dead bodies in the Ohio river, 27 miles below the city, but was unable to reach them. The loss to the estate of A. Hoevler on Butcher's Run will reach $15,000, and the loss of C. Hoevler will reach $8,000. The *Chronicle* says the most remarkable circumstance connected with the disaster is the fact that no list of injured appears. The lists as published read almost invariably "dead and missing." Subscriptions to the relief fund are pouring in rapidly, and up to this time over $20,000 have been raised. Three bodies were found to-day.

The bodies of the entire Farden family have been recovered. But one person is missing at Wood's Run, a child of Mr. Gorman's. The body of a little boy about four years old was found at East Liverpool Monday evening, making two children found there. In an opening made in a sewer to drain Voightley's meadow on Butcher's Run, this afternoon, some shawls, etc., were found, indicating that bodies are there.

The returns received at the County Commissioners' office show that twenty bridges were swept away by the flood in the county, entailing a loss of about $40,000. In the Butcher's Run district alone it is said that more than twenty million cubic feet of water fell in an hour and a half.

The Handel Excursionists.

The majority of the excursionists left by train yesterday, though quite a number stayed over. A party of those remaining went by boat to Fredericton this morning.

Miss Isadore Pratt, of Massachusetts, has succeeded in gaining admittance to the Royal Art Academy of Berlin; but being only a woman, her name does not appear on the roll of students, and for the same reason no money will be accepted from her, which she says is the only advantage she ever gained by wearing skirts.

The case of Gallang vs Gallang, in the Westmorland County Court, terminated Wednesday evening. The jury returned a verdict of "No cause for action."

One of the best paying industries of the South is the manufacture of artificial ice, a branch of trade which is rapidly extending throughout all the great cities of that section of the country.

During the war of 1870, a German painter, having nothing else to do, frescoed his own dining room. A dealer coming there one day was so charmed that he gave him 60,000 thalers for the work of his leisure hours, and the panels containing the coveted paintings were carefully removed.

A letter in *Nature* from Mr. A. Cowper Ranyard gives some interesting observations on the comet with the polariscope. It is stated that the light of the comet is by no means strongly polarized. The inference from the observations is that either (1) the tail of the comet consists of fine incandescent particles, or (2) of particles whose diameter is not small compared with the wave-length, or (3) of incandescent gas, or (4) of all three of these states combined. These views are contrary to the general belief hitherto entertained.
