FRANK OLIVER SUGGESTS CLOS URE AS A METHOD OF BRING-ING OPPOSITION TO TIME-PUBLICITY AS TO THE DOUK-HOBORS.

(Special to The Daily News.)

OTTAWA, June 5-The interior department estimates were on the order list of the day, but questions and wrangling as to who was responsible for the holdup of the estimates occupied the morning and afternoon sessions F. D. Monk stated that \$8000 worth whiskey was smuggled into the Bed-

ford mines, Jacques Cartier, for election purposes under the name, though withut the consent of F. X. Labranch promised to give the source of his information to the minister privately. Hon. W. S. Fielding could not believe the customs authorities would connive at such a proceeding but he would in-

C. L. Owen, Northumberland, took exception to the statement of Hon. W Paterson, that the salaries of the civil vants were held up by the opposition Mr. Paterson's supply was through the committee and the house was waiting for the government to introduce a sup-Hon. Mr. Fielding replied, amid cross-

fire, the opposition claiming that the government was not bringing down urgent estimates, such as salaries, which the opposition would not object to, and that the departments should be heard Hon. Mr. Fielding stated that the mi-

nority had too many rights. Hon. Frank Oliver said that parliament might be compelled to adopt the ure for the same tactics as the opposition were adopting.

George Taylor, Leeds, claimed that the opposition had a real grievance which justified their policy on the Aylesworth election bill. Taylor then shifted to Pringle's charges against Yukon officials F. B. Carvell, liberal member for Carleton, N.B., claimed there was a comparison between '96 and the present occasion. Haughton, Lennox, claimed the house would have been early in supply but for the excited remarks of the minister of

J. B. Kennedy, New Westminster, lib-eral, and Dr. Chisholm, Huron, conservative, followed with humorous speeches, summing up that the back benchers would settle affairs in a fortnight if the aders retired.

The house then got into supply supply headway was at first slow. W.D. Staples, Macdonald, criticized the ancellation of Doukhobor homestead

The minister said the only objection these proceedings was publicity. W. Fowler was informed that the North Atlantic Trading company had not sued the government as threatened. M. S. McCarthy thought Edmonton was

boosted at the expense of Calgary and the rest of the province in immigration Hon. Frank Oliver thought the literature was supplied by Edmonton. G. A. Alcorn was informed that ac-cording to the latest information W. T.

Preston was touring Korea and China and doing good work in the interests of Canadian trade. Referring to the government aid given settlers, Hon. Frank Oliver read a wire

from Bruce Wlaker, immigration commissioner at Winnipeg denying responsibility but stating that he knew neither he political complexion of the people nor their representative.

Roche and Staples urged increased aid o the Winnipeg and St. Boniface hospitals. Hon. Frank Oliver sympathized, but added that all the vote had not been in-

creased at the expense of other institutions. The house rose at midnight after passing \$1,135,000 for immigration and land

surveys. In the public accounts committee inquiry as to the sales of supplies to the militia department through L. S. Macoun, son-in-law of the minister of milita, was resumed. E. F. Jarvis, secretary of the department, was re-examined by A. K. McLean and he corrected the statement made by him on the previous day as to saloon scales for use in the dominion arsenal at Quebec. His corrected statement was to the effect that this contract did not go to Macoun but to Messrs. Courtney & Brown, Ottawa. It

was developed in his testimony, however, that on copper sold by Macoun to the department, advances were made before e testing of the copper. When Macoun was examined, he was asked if he were sir Frederick Borden's

n-in-law, and he said: "I am at pres-t." He said he owned no store, shop or factory, but had a number of offices throughout Canada, one, for instance, in Ottawa; another in Hull.

Examined by Mr. Crockett, Macoun declined flatly to reveal the relations between himself and his principals, Potter. Johnson and company of Pawtucket. R.I.. He said that this was none of the committee's business. The firm had been engaged in negotiations with the departr saving machinery for the

dominion arsenal. Mr. Finlayson, chairman, sustained the dent Federal Act.

UNBOUNDED FRENCH PRESS CONTAINS MANY STRONG APPEALS

PARIS. June 5 .- Paris today is swe ering in unprecedented heat. Yesterday the thermometer registered 91 in the shade and this record was equalled

by noon today. Whether yesterday's attempt upon the life of major Dreyfus, at the time of the canonization of Emile Zola in the Pantheon, was only the individual act of a man believing himself to be an out-raged patriot, or had behind it an in-c pient nationalist plot, the republican p.ess is unanimous in deploring the in-c dent and believes it injured rather than aided that cause. Even those papers which doubted the wisdom of bury ing Zola in the Pantheon think that the shooting of major Dreyfus consolidated the republican sentiments, and they evidently desire to see the incident die out as qu ckly as possible. Any attempt to reopen the old Dreyfus issue at the trial of Louis Gregori, the man who shot the major yesterday, they point out, can easily be frustrated. On the other hand the fury of the na-

ionalist party is unbounded. L'Action Fiancaise fires a broadside which recalis the most exciting days of Dreyfus and Boulonger. At the head of its colmn this newspaper prints a statement by Charles Maurass which it is likely the authorities will investigate. In this article the writer says that on Wedne day night "a resolute patriot" visited M. Dauden and Lieut. Boesfleur and himself offered to kill Dreyfus, but his proposal was rejected. A leading editorial in this paper ap-

A reasing current in this paper ap-peals to the country to turn to the duke of Orleans for redress, and con-cludes with these words: "Do you desire that Zola's body be ejected from the Pantheon? Do you desire to march Dreyfus to the execution block? If so, invoke your king." The name also reinvoke your king." The paper also re-publishes a number of London reviews of the Dreyfus case, insisting that he is a traitor. The session of the court of cassation to cut off the time for an ppeal, the paper says, it illegal, and t concludes its articles as follows: What we ask for Dreyfus is not six balls from a revolver, but 12 bullets from the executioners. Every newspaper desires that.'

Gregori, much grieved at the recent death of his mother, has lately mani-fested signs of mental derangement. Gregori's sister is unable to account for his act except that he was carried away by indignation at the idea that the army to which he has devoted his life and which he so passionately loved should salute with its flags the author of "Le Debacle." She said her brother had displayed symptoms of melancholia. The authorities are pursuing their in-vestigations with a view to determine whether there is a plot behind the at-tempt of yesterday. This morning Greori was tak en to his apartn was present when the police made a

LITIGATION OVER STRIKE OF LAST WINTER ENDS IN VICTORY FOR THE MASTERS - RESIGNATION OF PRINCIPAL MACLAREN, OF KNOX COLLEGE, TORONTO.

WINNIPEG, June 5-The most re-markable trial that has been up in the Winnipeg court for years commenced this morning when Wolff Cohen and Solomon Solomonavitch were arraigned for being "green goods" men. The spe-cific charge is that these men attempted to get a sum of \$3200 from Nathan Segal by fraud and false representations, claim-ing to be expert counterfeiters and that they could duplicate any bank bills in circulation. Five copies could be made from bills and so accurately that no banker or expert could detect the fraud. Segal, who is a Winnipeg baker, in-stead of falling into their trap, notified the chief of police and the men were ar-rested. Segal in his evidence today stat-ed that Cohen and Solomonavitch had told him that they had been sent from Montreal to see him and how he could get rich quick by circulating the counter-feit money. The men elected to be tried

by a jury. Very little business was transacted at the general assembly this morning but what was done was important. Considerable time was spent at the ope ening of the fifth sederunt in accepting the re-signation of Dr. McLaren as principal of Knox college, Toronto. Dr. McLaren is the oldest member of the assembly, having been in the work of the Presbyterian church in various capacities for 59 years. The assembly placed on record a deep sense of the value of the services he rendered to his church and country during a long and honorable life. An encouraging report was presented from the infant college at Vancouver. In fu-ture this college will be called Westminture this conege win be carted westmin-ster Hall. The assembly showed their appreciation of the services of Dr. John McKay, the first principal. A satisfac-tory report was also printed from the board of the Ottawa Ladies' college.
