TROOPERS WITHOUT MEANS. Swenty Discharged Men Unable to

Ottawa, Jan. 3.-Lord Strathcons cabled the Militia Department that twenty Canadian troopers of the South African Constabulary, who had been discharged by the Imperial authorities as unsuitable, were expected soon to arrive in London. The Imperial Government, Lord Strathcona said, were not ment, Lord Strathcona said, were not prepared to return the men to Canada, and the latter were without meahs. Lord Strathcona asked: "Did the terms of enlistment of South African Constabulary men include return to Canada on completion of service or after discharge before the end of the term, and have the men who purchased discharges any claim to be returned to place of enlistment?" In reply to the High Commissioner, Col. Pinault, Deputy Minister of Militia, cabled: "Conditions of enlistment provide third-class passage after five years' service only." The men to whom Lord Strathcona refers are believed to be members of Capt. Powell's troop, who were sent to Edinburgh and placed under an English Major and Lieutenant. Some of the Canadians took the ground that they had undertaken to serve under Canadiar officers only, and showed their displeasure by raising a riot. The troop was then sent to Bloemfontein, where a number of the Canadians were discharged and others fined or imprisoned. Their position is, of course, wholly indefensible. They undertook to serve in an Imperial regiment, and it was only as a matter of courtesy that the British authorities allowed a few commissions to Canadian officers. As to the men being without means, that is their own fault, as they received good pay and free rations, and ought to have been able to save money. prepared to return the men to Canada,

SMALLPOX AT THREE POINTS. Outbreak Reported at Galt, in Kent County, Near Deseronto.

Toronto, Jan. 3.—Several cases smallpox have appeared at Dr. Bryce, the Provincial Health Officer, was notified yester day, and he instructed the local authority to adopt the usual precautionary measures. The cases and suspects will be quarantined, and compulsory vaccination will be resorted to, especially in the schools. The source of infection has not yet been made known to the Health Department.

Fears of an outbreak are entertained

at Thamesville, Kent County. A few days ago a man, with his wife and child, returned from a holiday at Detroit. Shortly afterwards the child died of what had been diagnosed as pneumonia. A public funeral was held. Now the father has developed smallpox, and the belief is that the first death was due

o the same disease.
Word has been received also that a number of new cases have appeared on the Indian reserve near Deseronto. The town authorities have been advised to enforce a quarantine against the reserve and the department at Ottawa has asked br. Bryce to send a physician to the infected district.

ARRÍVED AT CAPE TOWN. Third Steamer of the Canadian Line Reaches Port.

Torento, Jan. 3 .-- A cable eived yesterday by Western Manager of the Elder-Dempster Company, stated that the steamer Melville, the third boat of the direct line between Canada and South Africa, had arrived at Cape Town on Africa, had arrived at Cape 10wn on New Year's Day. The Melville left St. John on Nov. 25. She had a large car-go, being loaded to capacity in fact, in-cluding such classes of freight from On-tario as canned goods, apples, oatmeal, boxed meats, furniture and agricultural

implements.

The Melville took also ten first class The Melville took also ten first class passengers, most of them commercial men, who propose to introduce the lines they represent in Canada. The fourth steamer will sail from St. John on the 18th of the present month, but it is not yet known what boat it will be. While the three first steamers had a full cargo, the prospects for a full cargo for the fourth boat are said not to be so good, fourth boat are said not to be so good, the season not being a favorable one. It is anticipated that the following boats will all be well laden, however, and that the good business which may now be considered as established will be kept

BOILING THE WATER BETTER.

Lemon Juice Not Sure Death to All Typhoid Germs.

New York, Jan. 3.-Dr. W. H. Park, pacteriologist of the Department of Health, has made several experiments to determine the value of lemon juice in destroying typhoid bacilli, regarding which much had been published recent-

Dr. Park, when questioned regarding Dr. Park, when questioned regarding the experiments, said:—"My suspicions were confirmed by the tests. It is far safer to boil the water or filter it properly than to trust to femon juice to destroy any typhoid badilli that may be in it. Of course, the statement that the acid would destroy any typhoid germs that might be contained in oysters by sprinkling it on the outside is ridiculous."

"The square peg in the round hole" figuratively expresses the use of means unsuited to the desired end. A great many people who have been cured of dyspepsis and other diseases of the stomach and its allied organs of digestion and matrition by the use of Dr. Pierce's Golden Medical Discovery say: "We tried many medicines with only temporary benefit. It was not until we began the use of Golden Medical Discovery' that we found a complete and lasting cure."

It is undoubtedly true that Dr. Pierce's Golden Medical Discovery holds the record for the perfect and permanent cure of indigestion and other diseases of the stomach and associated organs of digestion and nutrition. It is not a palliative. It cures the cause of disease and builds up the body with solid healthy flesh, not flabby fat.

A BAD BANK FAILURE.

Depositors of C. W. Anderson & Son May Not Receive Anything.

Toronto, Jan. 3.-Later developthe failure of C Anderson & Son, private bankers, of Oakville, point to a very disastrous crash, and it now seems doubtful if the lepositors and unsecured creditors will receive anything on their claims. The Bank of Hamilton has a blanket mortgage, covering all assets and real estate The claim of the bank is said to be in the neighborhood of one hundred thou-

The claim of the bank is said to be in the neighborhood of one hundred thousand dollars, and practically the only thing remaining for the creditors is any equity there may be after the claim of the bank is satisfied. While there is a very large amount of real estate, the bank holds it all, and this, of course, is an asset that will take considerable time to realize.

The knowledge that the bank held everything in sight came in the nature of a surprise to the depositors. The mortgage held by the bank was, it appears, registered a very short time before the failure, so that the depositors were not in a position to become aware of the real state of things, and, in fact, his knowledge came to them only after the bank had closed its doors. There are over five hundred depositors, and they will no doubt all be there at the meeting which opens at 1 o'clock in the Town Hall at Oakville on Tuesday next. It is expected that at the meeting an effort will be made to take the estate out of the hands of Mr. E. R. C. Clarkson, the assignee, and have it wound up by some local men.

and value to Thousands.

Common sense would suggest that if one wishes to become fleshly and plump it clan only result from the food we eat and digest and that food should be albuminous or flesh forming food, like eggs, beefsteak and cereals; in other words the kinds of food that make flesh are the foods which form the greater part of our daily bills of fare.

But the trouble is that while we eat enough and generally too much, the stomach, from abuse and overwork, does not properly digest and assimilate it, which is the reason so many people remain thin and, under

assimilate it, which is the reason so many people remain thin and, under weight; the digestive organs do not completely digest the flesh forming beefsteak and eggs and similar wholesome food.

There are thousands of such who are really confirmed dyspeptics, although they may have no particular pain of inconvenience from their stomachs.

pain or inconvenience from their stomachs.

If such persons would lay their prejudices aside and make a regular practice of taking, after each meal, one or two of Stuart's Dyspepsia Tablets the food would be quickly and thoroughly digested, because these tablets contain the natural peptones and diastase which every weak stomach lacks, and by supplying this want the stomach is soon enabled to regain its natural tone and vigor.

Stuart's Dyspepsia Tablets digest every form of flesh-forming food, meat, eggs, bread and polatoes, and this is the reason they so quickly build up, strengthen and invigorate thim, dyspeptic men, women and children.
