VELOX

Velox is made especially for use with negatives that have been exposed under the harsh conditions of light that the amateur almost invariably encounters—no other paper, therefore, so well fits his particular requirements. (We make other papers for the professional that are suited to his needs.) Velox is simple to handle, prints in any light, requires no dark-room for development and permits the amateur to utilize the evening hours for print making.

There are grades and surfaces to suit all negatives and all tastes—either black and white or the sepia tone is at the command of any amateur. If you do your own printing, use the paper that is made to meet your specific needs—Velox. If you have your printing done by another, insist on the use of the paper that is made to suit your negatives, the paper that is right—Velox.

OUR COVER DESIGN is from life. Many of "Jimmie's" friends will readily recognize Miss Ridout's model.

THIS MONTH closes our Pure Milk work in Toronto but does not by any means end our campaign. In our next issue we will show how any ordinary farm may produce pure milk and market it without elaborate plant.

WOMEN'S WORK AT THE FAIR is the subject for description and illustration this month. It will afford some not able to get to the Canadian National a glimpse of the good things there.

THE WOMEN'S CHRISTIAN TEMPERANCE UNION is a powerful force for good in the community. It is the largest women's organization with individual membership in the world. We give a sketch of its development.

OUR MUSIC is selected not because of newness or brilliancy, but on account of its adaptability to the home. In this issue, however, we give an original evensong by Canadian writer and composer of particular merit both from a standpoint of poetry and music.

LET US KNOW what you think of the HOME JOURNAL. Tell us where you think we fall short or where we might improve. We will appreciate it.
