

the family -

In 1913 Government expenditure were 50% of the gross value of all field crops. In 1931-210% of

In the last 18 years we have spent \$34 for every 100 of revenue. Industrial capital increased 210% & Government debt 392%. In the same years Chartered Bank assets increased 100%.

Population since 1904 increased 65%
Government expenditures increased 666%!

Other figures and comparisons are equally startling. In the field a call on the Liberal Party to organize a campaign of education.

Every man on the street

confesses we are over financed. I have read Mr Macay's article

It seems to me the argument for a Central Bank is more or less a desire. No case sufficient strong is made out and you are saddled with another opportunity

for further Government expense & for increasing the very few people ^{or case} ~~run~~ away from about. Why not have confidence in meat supervision of other trades such as manufacturing? ^{that type from former years as all, opposed, having}
