

(133a) **Red-legged Black Duck.**

(Anas obscura rubripes.)

Frequently met with in late autumn. Its breeding range is not positively known, but probably includes the Hudson Bay region.

## GENUS CHAULELASMUS.

(135) **Gadwall.**

(Chaulelasmus streperus.)

A very rare summer resident. Breeds commonly in Manitoba and adjoining Provinces westward.

## GENUS MARECA.

(137) **Baldpate.**

(Mareca americana.)

A fairly common migrant, probably breeds regularly in the interior. I have occasionally found it as a summer resident in the marshes of Lakes Erie and Ontario. It breeds commonly in the Western Provinces. Arrives in April and leaves with the first sharp frost.

## GENUS NETTION.

(139) **Green-winged Teal.**

(Nettion carolinensis.)

Common in the spring and autumn migrations, breeding in the north from Labrador to the Pacific coast. Arrives as soon as the marshes are open and leaves about the end of October.

## GENUS QUERQUEDULA.

(140) **Blue-winged Teal.**

(Querquedula discors.)

Common summer resident, breeding in all suitable places throughout the Province. Arrives in April and leaves about the end of September.

## GENUS SPATULA.

(142) **Shoveller.**

(Spatula clypeata.)

A regular but uncommon summer resident, breeds throughout its range. Very abundant on the prairie sloughs of Manitoba.

## GENUS DAFILA.

(143) **Pintail.**

(Dafila acuta.)

A common spring and autumn visitor to southern Ontario, occasionally breeding in the marshes about Lake Erie and probably regu-
