Louden Barn Equipment

Louden equipment makes possible a clean, sanitary barn with a minimum of expense. When cows are transferred from dark, dirty barns to Louden barns the milk flow often increases from 15 to 25 per cent, and the labor of caring for the herd is reduced from one third to one half. Louden equipment is just as great an economy for the man with a half dozen head of stock as for the man with hundreds of ani-mals. The percentage of labor saved is the same.

The Louden Line of Sanitary Steel Equipment Includes:
