

## VERY FEW PEOPLE

Are Free From Some Form of Indigestion.

Very few people are free from some form of indigestion, but scarcely two will have the same symptoms.

Some suffer most directly after eating, bloating from gas in the stomach and bowels, others have heartburn or sour risings, still others have palpitation of heart, headaches, sleeplessness, pains in chest and under shoulder blades, some have extreme nervousness, as in nervous dyspepsia.

But whatever the symptoms may be, the cause in all cases of indigestion is the same, that is, the stomach for some reason fails to properly and promptly digest what is eaten.

This is the whole story of stomach troubles in a nutshell. The stomach must have rest and assistance, and Stuart's Dyspepsia Tablets give it both by supplying those natural digestives which every weak stomach lacks, owing to the failure of the peptic glands in the stomach to secrete sufficient acid and pepsin to thoroughly digest and assimilate the food eaten.

One grain of the active principle in Stuart's Dyspepsia Tablets will digest 3,000 grains of meat, eggs, or other wholesome food, and this claim has been proven by actual experiment, which anyone can perform for himself in the following manner: Cut a hard-boiled egg into very small pieces, as it would be if masticated; place the egg and two or three of the tablets in a bottle or jar containing warm water heated to 98 degrees (the temperature of the body) and keep it at this temperature for three and one-half hours, at the end of which time the egg will be as completely digested as it would have been in the healthy stomach of a hungry boy.

The point of this experiment is that what Stuart's Dyspepsia Tablets will do to the egg in the bottle it will do to the egg or meat in the stomach, and nothing else will rest and invigorate the stomach so safely and effectually. Even a little child can take Stuart's Tablets with safety and benefit if its digestion is weak, and the thousands of cures accomplished by their regular daily use are easily explained when it is understood that they are composed of vegetable essences, aseptic, pepsin, diastase and Golden Seal, which mingle with the food and digest it thoroughly, giving the overworked stomach a chance to recuperate.

Dieting never cures dyspepsia, neither do pills and cathartic medicines, which simply irritate and inflame the intestines. When enough food is eaten and promptly digested there will be no constipation, nor, in fact, will there be disease of any kind because good digestion means good health in every organ.

The merit and success of Stuart's Dyspepsia Tablets are world-wide, and they are sold at the moderate price of fifty cents for full-sized package in every drug store in the United States and Canada, as well as in Europe.

## GOSSIP.

The excellent engraving, appearing on another page, of the champion pen of wethers at the late Smithfield Fat Stock Show, in London, England, serves to illustrate the superior excellence of the breed of long-wooled Lincoln sheep, and the character of the Riby flock of Mr. Henry Dudding, whose reputation as a breeder of the best is world-wide. It was a splendid compliment to the breed and breeder, and a well-deserved acknowledgment of his skill and judgment when the Smithfield champion trophy was awarded to his pen of Lincolns in competition with all breeds, by Mr. Bowen Jones, the judge, a breeder of Shropshires. Besides the largest flock of Lincolns in Great Britain, Mr. Dudding maintains a very large herd of Shorthorn cattle of up-to-date breeding and type, as set forth in his advertisement running in this paper.

Mr. Robert Miller, Stonerville, Ont., writes: I am sending you change of advertisement to draw the attention of your readers more particularly to some young Shorthorn cows in calf or with calves by their side. I have had great success in using the Willis Spicy bull, Bapton Fancy (80388), and he promises to be one of the greatest sires of the age. His sire is Silver Plate (75633) used by Mr. Duthie and Mr. Willis and now in use in His Majesty's herd. The dam of Bapton Fancy was sired by Count Lavender (60545), winner of over 50 first prizes and championships in Great Britain. Perhaps no bull has had two such sires and prizewinners at the top of his pedigree. His granddam was also the granddam of Spicy Robin (69638) that was such a wonderful sire in the herd of W. S. Marr. I have never had a bull with such a good back, smooth and level, with such a covering of lean meat. His calves are the most promising and uniform lot I have had. Have a few good young bulls left, and will sell anything I have to spare at a moderate price.

Very prominent among the noted Ayrshire stock farms of Quebec is Elm Shade, the property of Mr. Wm. Wyllie, of Montreal. This beautiful farm lies about one mile from Howick station, on the G. T., and is the home of one of the choicest herds of imported Ayrshire cattle in the country, at the head of which is that noted prizewinning bull, Uncle Sam of Trout Creek, a son of the Chicago sweepstakes cow, Nellie Osborne (imp.). In the herd at present is to be seen such grand cows as Nellie Osborne 1st, a daughter of the above named great Nellie Osborne; White Glen (imp.), and a daughter of hers, one year old, by the stock bull, also a bull calf by the same sire. Polly (imp.), who also has a three-months-old heifer calf by the S. B. Queen (imp.) has a bull calf, three months old, by S. B. Stately (imp.), Nellie Osborne 2nd. There are also three yearling heifers, imported in dam. In this herd are a number of winners at Toronto, London, Ottawa and Sherbrooke. In younger animals, there are several heifers, and anything in the herd is for sale. The animals are in the pink of condition, as there are few men that understand the care of Ayrshires better than the manager, Mr. A. M. Watt.

## NOTICE.

From the Pacific Coast.

Grayson, Cal., Jan. 12, 1897.

W. F. Young, Esq.:

Dear Sir,—Having had occasion to use Absorbine on several of my horses this year, I have no hesitancy in stating that its effects were magical, and would not be without it hereafter. I have just ordered half a dozen bottles from J. A. McKerron, San Francisco, as several of my neighbors have expressed a wish to use some on their horses.

Yours,  
L. A. RICHARDS,  
Owner of Richards Elector.

## "RAPID-EASY" GRINDERS

For everyone—Farmer, Thresher, Millman. LARGE or SMALL; for ANY POWER. Do MORE work with SAME POWER than any other.

"Last winter I bought a No. 1 (8-inch) Rapid-Easy Grinder from Mr. Henry Lawrence. This grinder, in my opinion, cannot be surpassed for capacity and easy running. I run it with 2-horse tread power, and grind from 8 to 10 bushels mixed grain per hour, and get No. 1 results. I consider it the best investment I ever made." MARSHALL DESJARDINS, Brentwood, Ont.

"The No. 2 Grinder (10-inch plates) I got from you a month ago is most satisfactory. We use a 15-horse-power engine, and run the machine nearly 3,000 revolutions per minute. We can grind 50 bushels of grain per hour, and grind it into flour. The plates wear well, as we are using the same ones as were on the machine when we got it, and we do a lot of custom grinding." H. G. COOMBS, Cumberland, Ont.

"Please send me price of Bagger for Rapid-Easy Grinder. We have bought one of the Grinders in Woodstock and like it fine—the best we have seen." A. L. DUNN, Norwich, Ont.
