Consider Your Roofing

It should be weather-proof, durable, and moderate in price. These features are very prominent in our "Safe Lock" Roofing, and, in addition, they are ornamental and fire-proof, but of still greater importance, they protect a building from lightning. There is no other metal shingle on the market as good as the "Safe Lock." They are made of a single sheet of galvanized steel; have no parts to get out of repair, and are so constructed that they interlock each other on all four sides, and are absolutely weather-proof, and should easily last fifty years.

Do not be misled with any of the cheap roofing advertised, but investigate our claims and you will use the "Safe Lock," and have lasting satisfaction. Send size of roof for special estimate and free catalogue, and if you desire samples, will send them by express.
