### Spavins, Ringbones, Splints Curbs, and All Forms of Lameness Yield to

Works thousands of cures annually. Endorsed by the best breeders and horsemen everywhere. Price, \$1: six for \$5. As a liniment for family use it has no equal.

West Lome, Ontario, Can., Dec. 14, 1898.

DR. B. J. KENDALL CO.

Dear Sirs:—A year ago I had a valuable horse which got lame. I took him to the Veterinary Surveon who pronounced it Occult Spavin and gave me little hope, although he applied a sharp blister. This made matters only worse and the horse became so lame that it could not stand up. After trying everything in my power I went to a neighbor and told him about the case, Hegave me one of your books and I sudded it carefully and being resolved to do the utmost in favor of my beast, went to the nearest drug store and got a bottle of your Spavin Cure and applied it strictly according to directions. Before the first bottle was used I noticed an improvement, and when the seventh bottle was about half used, my horse was completely cured and without leaving a blemish on him. After ceasing treatment I gave the horse good care and did some light work with him, wishing to see if it had effected a cure! I then started to work the horse hard and to my entire satisfaction he never showed any more lameness through the whore summer.

I can recommend Kendall's Spavin Cure not only as an excellent, but as a sure remedy, to any one that it may concern.

Yours truly, SAMUEL TRITTEX.

GOSSIP.

The 8th volume of the American Southdown Record, containing the pedigrees of 2,000 sheep, consisting of 1,377 ewes, 607 rams and 16 wethers, has just been issued from the office of the Association by the secretary, Mr. John G. Springer, Springfield, Ill. It is an exceedingly springer, Springfield, Ill. It is an exceedingly creditable volume of over 400 pages, well printed on good paper, substantially and elegantly bound, and equtaining a number of excellent illustrations of representative Southdowns, besides the list of officers and members, and the Constitution of the Association. The volume is sent free to members on application, with enclosure of 16c, for postage, and the price to non-members is \$2.50 per volume.

PAN-AMERICAN EXPOSITION

The Directorate of the Pan-American Exposition, to be held in Buffalo, N. Y., May Ito Nov. I, 1901, announces that they have resources for the purposes of the Exposition to the amount of \$5,800,000, a site of 350 acres, including 133 acres of beautiful park lands and lakelets, an exhibition arena with seating capacity for 25,000 people, and a grand esplanade capable of accommodating 250,000 people. The live-stock buildings will cover 10 acres, and a liberal list of prizes is provided for all classes of stock. Hon, W. I. Buchanan, who was Chief Superintendent of Live Stock at the Columbian in 1893, is Director-General of the Pan-American.

OFFICIAL RECORDS OF HOLSTEIN-FRIESIAN COWS FOR JUNE, 1900.

In the month of June 31 official records have been reported to me. The phenomenal record of the month is that of a three-year-old heifer at 590.7 pounds of milk testing 20.822 pounds butter-fat, equivalent to slightly more than 26 pounds of butter at 80 per cent. fat to the pound. A re-test was not ordered, for the very good reason that during her test, a portion of the time, she was under the eyes of Professor H. H. Wing, of Cornell University station, who assures me that the test is beyond any possible suspicion of incorrectness. Summarized, these tests show the following results: Nine cows averaging 7 years 27 days old; 40 days after calving: Milk, 46.7 pounds; butter-fat, 15.222 pounds; equivalent in butter, 80 per cent, fat, 191bs, 0.4 ozs., or 17 lbs, 12.1 ozs, 85.7 per cent, fat, 17 wo cows averaging 4 years 1 month 44 days old; 215 days after calving: Milk, 402.2 pounds; butter-fat, 13.300 pounds; equivalent to 16 lbs, 10 ozs, butter 80 per cent fat, or 15 lbs, 8.3 ozs, 85.7 per cent, fat. Six cows averaging 3 years 3 months 9 days old; 63 days after calving: Milk, 404.1 pounds; butter-fat, 13.164 pounds; equivalent to 16 lbs, 10 ozs, butter 80 per cent, fat, or 15 lbs, 8.7 ozs, butter 80 per cent, fat, or 15 lbs, 5.7 ozs, 85.7 per cent, fat. Fourteen cows averaging 2 years 1 month 5 days old; 77 days from calving: Milk, 279.2 pounds; butter-fat, 9.334 pounds; equivalent to 11 lbs, 10.7 ozs, butter 80 per cent, fat, or 10 lbs, 11.2 ozs, 85.7 per cent, fat. In the month of June 31 official records have 14.2 ozs. 85.7 per cent. fat. Some of the best records of cows and heifers

### GOSSIP.

During a visit to the noted horse-breeding farm of Messrs. D. & O. Sorby, Guelph, Ont., we found the horse stock rather more reduced in numbers than for a considerable period. During the last few months the following animals have been sold: To John A. Turner, Calgary, the 2-year-old Prince Grandeur, sire imp. Grandeur, dam Lady Boydston: the 2-year-old Lady Charming, sire Lord Charming, dam Sunbeam: the yearling Charming Eva, sire Lord Charming, dam Starlight. To D. McKinnon, Coningsby, Ont., the 3-year-old Lady Patricia, sire Stanley Prince, dam Princess Patricia; to David Larter, Ponsonby, Ont., the yearling Lord Grandeur, sire imp. Grandeur, dam Lady Boydston: to Robert Harris, Gateneau Point, Que., the 2-year-old Prince Patrician, sire Grandeur, dam Princess Patricia; to Alex, McCaig, Aberfoyle, Ont., the imported 3-year-old Lady Flemington, sire Duke of Flemington.

Of Hackneys, the 3-year-old Woodlands Performer, by Barthorpe Performer, and dam Miss Baker, was sold to Andrew Little, Georgetown, Ont., and the aged mare, Lady Mabel, was sold to Mr. Thacker, Bethany, Ont. Every individual in the above list is a first-class animal, and bred in the purple. Many of them have won prizes in the keenest of competition. Their present owners are to be congratulated on securing such animals, that cannot (barring accidents) fail to place them in the front rank of horse-flesh and the high character of the animals.

flesh and the high character of the animals.

THE MAPLE LODGE SHORTHORNS AND LEICES TERS.

THE MAPLE LODGE SHORTHORNS AND LEICESTERS.

A member of the Advocate staff recently inspected the excellent herd of Scotch and Scotch-topped Shorthorns, and the equally excellent flock of Leicester sheep, maintained by Mr. A. W. Smith on his fine farm at Maple Lodge, Ont., four miles from Ailsa Craig, on G. T. R. The herd of between 40 and 50 head is composed of representatives of several highly meritorious families, among which is the Cruickshank Lovelys, of which there are a number of very good ones descended from the grand imported cow, Lovely 19th, bred at Sittyton. The 4-year-old imported cow, Lady Mary 15th, bred by Mr. Still, Nether Auguston, Aberdeenshire is a substantial cow of excellent quality and character, a daughter of Denmark, of Mr. Bruce's favorite Augusta family, and by the Cruickshank bull, Clear-the-Way, sire of several Smithfield winners. The dam of Lady Mary was by Gravesend, and traces to Jealousy by Scarlet Velvet. This young cow is giving good promise as a breeder, and is nearly, if not quite, a show cow as well. A family that has proved exceedingly satisfactory in the herd is the Constance tribe, one of the best of the Bates sorts, having good size and fine breed character, standing on short legs, and being deep milkers. The Scotch bulls used have nicked well with this tribe, and produced many very fine cattle, the cows winning first prizes at the Provincial Dairy Shows, and the bulls taking prominent places among the winners at Toronto. Another deep-milking family traces to Lavinia, and by a succession of Scotch-bred crosses has grown into an excellent feeding prominent places among the winners at Toronto. Another deep-milking family traces to Lavinia, and by a succession of Scotch-bred crosses has grown into an excellent feeding sort as well. Still another capital tribe traces to imp. Jane, of the grand old Syme family, bred in Aberdeenshire, noted for thick flesh, and which has produced many prizewinners. Among the noted bulls that have been employed in the herd may be mentioned Lavender Prince, by the Cruickshank-bred imp. Sussex: Conqueror, a Cruickshank Clipper, by the Stityton Victoria bull. Vensgarth; British Flag, a son of Barmpton Hero, whose dam, Mimulus, was by the great Champion of England, and Abbotsford, a straight Cruickshank bull of fine character, a Toronto first-prize winner on his own account and as a sire, and bred from the same family as the World's Fair champion. Young Abbotsburn.

The bull now in service is imported Knuckle Duster, owned jointly by Mr. A. W. Smith and Mr. Harry Smith, of Hay;bred by Mr. Bruce, of the Smithfield winner of 1898, and his dam by the Cruickshank Capa-Pie, a championship winner at Udney, and a prizewinner at the Royal Northern Show. Knuckle Duster is a bull of fine type and character, and won 1st prize at the Western Fair at London, in 1899, over the 1st-prize bull in the same class at Toronto the same year.

The Maple Lodge Leicester flock, of some-

Ist-prize bull in the same class at Toronto the same year.

The Maple Lodge Leicester flock, of something like a hundred, takes a prominent place in the front rank by its representatives at the leading shows in Canada, having won at Toronto in 1899 first prize for Canadian-bred flock, and in 1898 first for both open flock and Canadian-bred, besides a large share of the other first prizes in the class. Last year a choice importation of 2 rams and lo in lamb ewes was made, selected from leading flocks in Scotland, and the yearlings and older sheep in preparation for the shows this year will be even better than any be has ever shown, while a few may be spatial to make up show lots in the States or conecle. The group of Lambs is also very line, it may which flock of uniformly good quality of the grant flock of uniformly good quality.
