

# Conquering High Prices

The High Cost of Living is a question that comes home to every Western Farmer every hour of the day

To exist is not enough—we must live. There are too many middlemen. There is too much lost motion in selling and re-selling, shipping and re-shipping. Every time the goods are handled on goes an extra charge which does not add to the value of an article to you. That is why the farmers of the West are buying their necessities co-operatively, because this method involves no additional expense or sacrifice. Certain goods have to be bought. The money has to be spent and

collective buying cheapens the purchase. Have you the courage to make the start, grasp an opportunity and reduce the cost of living in the same way? If so, there is no better time to start than right now. Send in your renewal for three years today. The Guide will show you the possibilities of co-operative buying and give you the experience of others who have made good. Our special Co-operative Number next week, March 18, will show you how to save money.

## The Guide For Three Years \$1.50

Those who have already renewed may take advantage of this offer also. Subscriptions will be extended from the date they are due to expire
