

Heider Tractors and Rock Island Plows Excelled at Brandon

Twenty-two different types of light tractors and most of the leading makes of plows—73 bottoms in all—were demonstrated at Western Canada's Second Annual Light Tractor Plowing Demonstration at Brandon in July. The demonstration lasted three days under very exacting conditions. The demonstration was not a contest and no awards were made, but the excellent work of the two Heider Tractors, 12-20 and 9-16 h.p. drawing Rock Island Tractor Plows was, according

Plow an Acre an Hour
with the "HEIDER" One-Man
All-Purpose Tractor. Burns
Kerosene or Gasoline. Two
Sizes 12-20, 9-16.

Seven Speeds Forward. Seven-Reverse.

"Heider" Tractors have had nine years of actual field test and we sell them with the usual "Waterloo" Guarantee.

More power, steadier power, fewer parts, easier operation, less cost of up-keep are some of the important advantages gained by the "Heider" Special Friction Transmission. Write for our handsome illustrated "Heider" Catalog, which describes in detail the many features of this tractor and gives you besides many letters from farmers, telling what the "Heider" is doing on their farms, the cost of operation, ease of handling, etc. These are the kinds of facts you want and you will get them in this catalog. **SEND FOR IT.**

to the expressed opinions of farmers, experts and agricultural editors, one of the outstanding features of the demonstration. If you did not see the demonstration yourself we invite you to ask any of your friends who did. We sell Heider Tractors and Rock Island Plows because we know there is no better value on the market; we back them with the usual "Waterloo" guarantee.

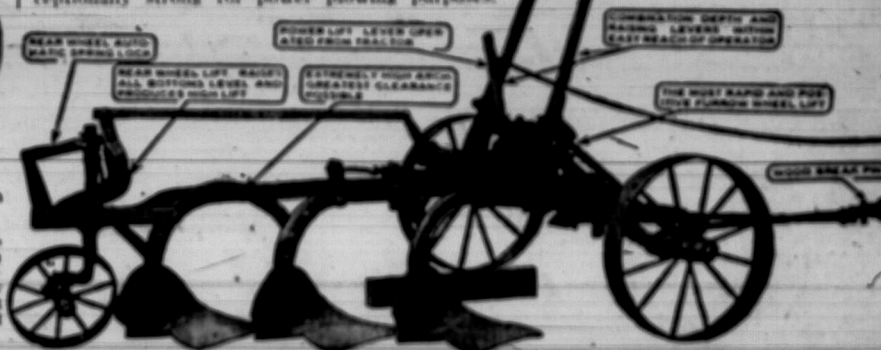

Reasons Why Rock Island Tractor Plows Excel:—

Extra High Clearance.
High and Level Lift.
Built of Heavy Strength Material and
Heavily Traced.
Simple and Positive Clutch.
Heavy High Arched Beams.
Takes Any Depth down to 9 inches and
opens up a 5 inch Land.
High Wheels—Extra Wide Tires.

Four Exclusive Features of the Rock Island:—

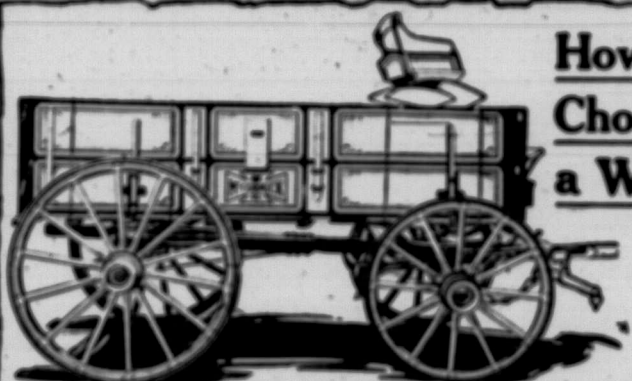

1. Front Furrow Wheel Lift gives instant, positive traction under all conditions.
2. Rear Wheels Lead Adjustment and Lifting Device permits plow being used behind any tractor.
3. Simple and Positive Clutch of the most approved design. No enclosed parts to get out of order.
4. Famous "CTX" Bottom, which turns the furrow slice clear over, pulverizing the soil and preventing air spaces.

The Tractor Plows with the Front Furrow Wheel Lift. "Rock Island" Tractor Plows are built exceptionally strong for power plowing purposes.

They come in 2, 3, or 4 bottom sizes and with stubble or breaker bottoms as desired.

How to Choose a Wagon

SEND a post card or letter to the nearest branch-house address given below and ask for a McCormick wagon folder. Take this folder with you when you go to buy a wagon and compare the construction features of the McCormick with those of any other wagon you may be asked to buy.

First, note the number of steel plates used to protect the wood of the wagon. A steel plate can be replaced easily at little expense, while worn wood parts usually mean a new wagon.

How is the wagon braced? The omission of a brace here and there reduces the cost of building, but what does it do to the strength of the wagon?

Notice the size of the bounds and reach, that take the strain of dumping at the elevator.

Compare the folding end gate, link end rods and grain-tight box with others.

What about the wheel and skein construction? See the folder and make your own comparisons. We believe you will then buy a McCormick wagon.

The McCormick dealer has a full line of farm wagons, one-horse wagons, barries, dump wagons and carts, spring wagons, trucks, and sleighs for you to choose from. See him before you buy.

SNAPS IN Clyde Stallions

We have a dozen good Clyde horses taken in exchange, from 7 to 12 years of age, and 1,500 to 1,900 lbs. in weight.

A good many are imported horses, nearly all licensed in Saskatchewan—all are sound and guaranteed sure. All are well broken and quiet to handle. These are tried and proven sires of merit and we are going to sell these horses from \$200 to \$600. Some we took in at \$1,000 but we must make room for more young horses that are coming in and are going to sacrifice these aged stallions. We have 100 stallions on hand and can please you if you want something extra good.
