Can You Save 60c. per Week?

For a man between the ages of twenty-three and thirty, about 60c. a week will maintain an Imperial 20 Payment Life Policy for \$1,000.

If, after you have paid but one premium on such a policy you should die, this Company would pay \$1,000 to your wife or other beneficiary. That \$1,000 invested at 5% would yield your heirs an income of \$1.15 a week as long as they live, and still leave the principal intact.

Have you considered what a wonderfully safe investment this is? Think of the men who were worth thousands before the war who do not possess five hundred dollars in real money today. The bottom has fallen out of their real estate and stock holdings and if they were to die their affairs would be in a bad muddle.

One policyholder said recently, "the only thing I possess that is worth one hundred cents on the dollar is my life insurance policy and I regret today that I am not carrying five times as much."

Write for our booklet entitled "Penniless Old Men" You'll find it interesting.
