

UNCLEAN ONTARIO TOWNS

Deplorably Unsanitary Conditions Reported to the Provincial Health Department

A despatch from Toronto says: That urban Ontario, to a very general extent, is living in the proverbial fool's paradise in regard to health conditions is being made manifest to the Provincial Health Department by the reports and sanitary surveys coming in from the seven district officers of health appointed under the Provincial system. The new procedure requires each of these officers to submit to the Provincial Department a detailed sanitary survey of all the urban municipalities within his district. This sanitary survey covers all matters of interest and concern in connection with public health, water supply, sewerage system, garbage treatment, gas supply, ice fields, the handling of the milk supply, and all data which may affect the health of the community. The receipt of many of these sanitary

surveys is causing the Provincial authorities to gasp. There is considerable work cut out for them. In many cases even the most rudimentary health laws are set at defiance. Summer ice is taken from waters into which sewage is emptied, garbage is carelessly handled, the milk supply is contaminated, and other equally reckless procedure is chronicled in a most matter-of-fact manner.

The Provincial Department is not making public the names of the offending municipalities, but the conditions shown to exist in the various centres will be promptly grappled with. From present indications it looks as though a wholesale campaign of general house-cleaning will have to be waged throughout urban Ontario, and more rigid amendments made to the public health act.
