### Fishing, General Industries and Other Affairs

A hundred qtls. cod were landed at the Gorton-Pew Co's premises at Woods Island on Saturday by boats on their way up the Humber Arm for the week end.

A shipment of petroleum, from the new well at Parson's Pond, was made by the Meigle, and it is said to be of a superior quality from any found there before.

In one day last week 50,000 pounds of cod were taken from the boats at Codroy, being that day's catch. The fish was purchased by the Gorton-Pew Co.

A number of students from Yale and Harvard Universities went north by the last Meigle. They have gone for the summer months to assist Dr. Grenfell in his medical work along Labrador.

On Saturday last there was quite a snow fall from Cook's Brook siding to Bay St. George. In places it was two inches deep; and the fishermen along Harry's River longed for a little of the heat experienced in New York.

#### Make Motor Trip

Three American tourists who went north by the Meigle, returned again by her yesterday. It is their intention to hire D. Joseph's motor launch and again cruise the coast as far as Port Saunders, visiting all the principal fishing streams.

John F. Buckle, with a crew of six men, made an excellent run from Corner Brook to Bonne Esperance in his new motor launch. He reached Cow Head the same day he left 'ome, and reached his destination the following day, being about 24 hours ahead of the Meigle, which had to make a number of regular ports of call.

Readers of the Great Harry Thaw case should further satisfy their curiosity by at once getting a Evelyn Thaw's "Story of My Life." The extraordinary advance orders has induced the publisher to offer at at only 30 cents. GARLAND'S BOOKSTORES—Jy4,8,11

This picture has been very favorably commented on wherever seen and the Selig artists have been highly praised for it.

## NEWS OF FISHERY NORTH AND WEST

### Little Improvement To The West—Nothing Done in Straits

June 30. From A. H. Ingraham (Ramea). The total catch is about 1800 quintals and for last week 100. No traps are in the water, but 30 dories and skiffs with 8 boats are fishing. No bankers or schooners from the grounds have arrived. The prospects are the worst for years, there being no fish and bad weather. There is plenty of caplin for bait.

The four fishermen engaged in the lobster fishery are doing nothing, having lost all their traps in the storms of three weeks ago. The weather has been very foggy with strong S. W. and W. winds. There is plenty of caplin to be hauled for bait, but the weather is so bad it is impossible to tell if there is any cod on the grounds. Very little was done on the herring this year.

#### Better Catch

June 30th. From A. T. Keats (Placentia to Long Hr.). Twelve traps are in the water and their total catch is 209 quintals with 84 for last week. Twenty-two dories and skiffs account for 185 quintals and 40 for last week, while 30 boats have 960 and 150.

Fifteen schooners have arrived from the grounds. Prospects are poor, though there is a plentiful supply of bait. There is nothing doing with lobsters. Codfish is very scarce on the nearby grounds, but some good trips are coming from the bays where fish is reported plentiful.

June 27th. From W. Paul (Great Burin to Port aux Basques). The twenty-five traps out have 509 quintals. The total catch is 15333 quintals with 1400 for last week. Fifty dories and skiffs have 200 quintals and the twenty boats have 100 quintals.

#### Bait, But No Fish

One banker has arrived with 609 quintals, but no schooners from the grounds. Prospects are very poor along the shore, but there is plenty of caplin for bait. There is nothing doing in the lobster fishery. The shore fishery is the worst on record. The bankers which have arrived have an average catch.

June 27th. (From T. McCarthy, Renew to Seal Cove). The total catch is 38 quintals and for last week 30. Four traps are in the water, 22 dories and skiffs and 10 boats fishing.

#### No Improvement

There is no improvement in the prospects since last report. There is plenty of caplin which struck in yesterday. The weather has been stormy and has hindered operations.

June 27th.—From S. Butt (Blanc Sablon to Forteau). No traps are in the water and no dories or skiffs are fishing. There is just a sign of codfish with a few caplin about this morning. The lobster fishery is a blank. The Straits are clear of ice.

Everybody will want to read Evelyn Thaw's "Story of My Life," just published. Our price, 30 cents. Outport friends will remit 32c. in stamps. GARLAND'S BOOKSTORES—Jy3,7,9

The Rev. gentleman's many friends will be delighted to see him. He is the guest of his brother-in-law, Mr. Herbert Knight.

## Local Fishery Is Encouraging

The local fishermen and those of Quidi Vidi and other nearby places did well with fish this morning.

The fish are of very large quality and they were glutted with caplin. Encouraging reports also come from the Southern Shore and Placentia Bay.

At Twillingate and other Northern ports there is also a sign. Wednesday's storm did considerable damage to traps but on the whole the reports to-day are encouraging.

## GALES OF WIND PROVE SETBACK TO FISHERMEN

### Meigle Reports Damage To Gear In The Straits

#### GOOD SIGN OF COD

### At Some Places—Lots Of Ice Still About

Curling, July 1.—Gales of West and North-westerly winds causing damage and destruction to fishing gear along the Straits of Belle Isle, is the report brought here by the Meigle, Capt. J. Goobie, which arrived at Curling early yesterday morning from her regular weekly trip up north. Since the ship's previous trip ice has been closely packed on the shore from Battle Harbor south as far as Henley, and there is yet considerable of the foe in strings along the coast. A great many of the cod traps had to be taken up owing to the presence of ice; though there was a good sign of cod.

#### Good Sign of Cod

At Bonne Esperance, Greenly Island, and Blanc Sablon there is a good sign of cod. Whitley, on Friday had two large loads of cod from one trap, but was unable to haul other traps owing to storm there on. At all the above mentioned places fishermen have been hindered in their operations owing to stormy weather.

Along the Newfoundland side of the Straits a number of cod traps have been lost and many others badly damaged, while thousands of lobster traps have been cast upon the shore by the sea. For three days no boats could get on the fishing grounds, and all the banking vessels had to make harbor for shelter.

#### Many Bankers

Port Saunders was practically full. They all report cod fairly plentiful on the Banks. At New Ferrole Pat Rumbolt lost a codtrap, but it was afterwards picked up. At Flower's Cove Michael Lawless and Henry Way each lost a cod trap. The Meigle sighted a codtrap adrift off Anchor Point. Caplin have struck in along the Labrador side of the Straits.

## ORTHOPEDIST IN THE CITY

### Dr. Adams, Noted Children's Physician Is Here

Dr. J. D. Adams, who has kindly placed his services at the disposal of the Newfoundland Grenfell Association for a few weeks, is a very busy man these days. This morning when a Mail and Advocate representative visited the King George V. Institute he found the visiting surgeon very busy indeed in his temporary consulting room, which has been fitted up at one end of the Grenfell Hall.

"I examined ten patients the day I landed," said Dr. Adams, "and there are now about seventy others in the waiting room."

#### Long List

On the doctor's table was a long list of cases with the diagnoses arrived at and ten of those examined are to be taken to the General Hospital for operation. Most of the cases are those of infantile paralysis and so far only one case has been discovered to be tubercular.

This morning Dr. Adams visited the Hospital and examined certain of the patients to whom his attention was directed by Superintendent Dr. Keegan. He decided, after consultation with the superintendent, that several of these were fit subjects for operation.

#### Kindly Spent

A pleasing feature of Dr. Adams' visit to this city is the spirit in which he is being received by the medical and surgical profession. Already several of our most prominent doctors have called on him and bid him welcome and will avail themselves of his advice on consultations. Superintendent Keegan, of the St. John's General Hospital, has made all the necessary arrangements for placing the well-equipped operating room of the institution at his disposal, so that cases needing surgical treatment can be attended to with the minimum of delay.

Servant of the Fraternity  
"I am here," said Dr. Adams, "at the invitation of the Grenfell Mission, but I am entirely the servant of the medical fraternity of this city while I am here."  
The doctor is one of the best known orthopedists in America. He is asso-
