THE LEADER'S PATTERN SERVICE

LADIES' BOX-PLAID DRESSING-SACK

With Three-Quarter Length Sleeves PARIS PATTERN NO. 1995.

The dressing-sack that hangs with straight lines of fullness has much to commend it, and quite the most attractive model shown this season has three box-plaids, as illustrated, in the front and back.

Price of pattern, 10 cents.

GIRLS' LOW-NECKED DRESS

With Cap Sleeves. Paris Pattern No. 1428

For wear with or without a guimpe this is a charming little frock. It is here illustrated made of fine Persian brocades and sleeves and insertion for trimming.

Price of pattern, 10 cents.

LADIES' SHIRT-WAIST

With or without Back Yoke-Facing. Paris Pattern No. 1104

One of the smartest and most becoming of shirt-waists is here portrayed made of Irish linen.

GIRLS' LOW-NECKED DRESS

With Tucked Body and Plaited Skirt—With or Without Body Lining.

This little dress is one of the prettiest of the Summer frocks for pique and linen, and may be worn with or without a guimpe.

Price of pattern, 10 cents.

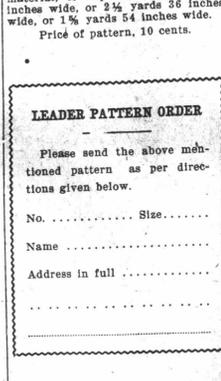

CHILD'S COAT

Gathered to a Square Yoke. Paris Pattern No. 1990.

At first thought this dainty coat gives the impression of being very elaborate, but in truth it is constructed on lines of great simplicity.

Price of pattern, 10 cents.

LADIES' SHIRT-WAIST

With or without Back Yoke-Facing. Paris Pattern No. 1104

One of the smartest and most becoming of shirt-waists is here portrayed made of Irish linen.

WILL ADD TO THE TOWER OF THE CITY HALL

COUNCIL DECIDE TO INCREASE HEIGHT BY SOME SIX FEET

Foundations Will Be Strengthened—Additional Boilers for the Power House and Life Saving Nets for Fire Brigade—Real Estate Men Must Pay License Fee.

From Friday Morning's Leader. A special meeting of the City Council was held last night, there being present the mayor, Mayor Smith, Aldermen Cowan, Kusch, McDonald, Wilkinson, Ball, Gillespie, Peverett and Thomson.

Amongst the communications read was one from H. Montague, of Toronto, Devonshire, Eng., asking whether there was an opening in Regina or district for a brewery, and whether there were any large buildings in Regina for sale or to be let.

J. H. Fortune and J. Donaldson, Winnipeg, and A. W. Pool, Regina, applied for positions on the city police force.

Will Start Clearing House The following letter was addressed to the Mayor by W. S. Gray, on behalf of the proposed Regina Clearing House Association:

"As a result of a meeting held in the office of the Regina Board of Trade on June 12th of all the managers of the local banks when we had the honor of your presence also that of P. Cooper, president of the Board of Trade, C. Lawson, public utility commissioner and P. McAra, Jr., I now beg to advise you that I have been instructed to write to the effect that we will be prepared to operate a clearing-house here as soon as the city supplies us with suitable quarters in the new city hall."

An application from the Regina Agricultural & Industrial Exhibition Association, Ltd. for a civic hall holiday on August 1 was read.

A by-law to raise a temporary loan of \$120,000 to meet current expenses for the year 1907 was introduced and passed its third reading.

Alderman McDonald suggested to the Council that the Sons of England Lodge should receive some of the money they had paid a considerable amount for their instruments though they were not strong financially.

Finance Committee The report of the finance committee passed the council as follows: (1) That the Mayor and Alderman be appointed as delegates to attend the Union of Saskatchewan Municipalities to be held in the City Hall on August 5th, 6th and 7th.

That Lots 11-25 in Block 362 be offered for sale to the Regina branch of the Royal Canadian Mounted Police for a Curling Rink for \$3,100.00 with compound interest at 7 per cent. from 19th March, 1906, on the condition that they erect thereon a Curling Rink to cost \$12,000.00.

That Lots 31-40 in Block 201 be offered for sale to the Regina branch of the Royal Canadian Mounted Police for a Curling Rink for \$3,100.00 with compound interest at 7 per cent. from 19th March, 1906, on the condition that they erect thereon a Curling Rink to cost \$12,000.00.

Real Estate License Stands A good deal of discussion cropped up when the report of the Markets Committee was considered. The recommendation of the committee was that the license of real estate agents as at present, viz., \$50 per annum, was strongly opposed by some members of the council.

The view was taken that many real estate agents were agents of financial houses and that they should therefore be assessed as such on the basis of stock. It also seemed to be the impression that the subjecting of real estate agents to a license fee was derogatory to their position.

However, the recommendation of the committee was only taken after a delegation representing the real estate men had been sent into the committee's recommendation was confirmed. A further recommendation of the Markets Committee refusing the application of A. and J. Mutch of Lumsden for a refund of the amount of the auctioneer's license paid by them on the occasion of their recent cattle sale, also gave rise to considerable discussion.

Alderman Gillespie was strongly of the opinion that the amount should be refunded. Messrs. Mutch, he stated, had paid \$200 to procure an expert auctioneer in live stock. The work could not have been done by a local man, he maintained.

HOMESTEADS ARE IMMUNE FROM DISTRAINT

JUDGE NEWLANDS HANDS DOWN IMPORTANT DECISION

Cannot Distrain on Property Until Patent is Issued and Title Has Passed From the Crown to the Homesteader.

From Friday Morning's Leader. The following case is one which will prove of interest to all school trustees, dealing, as it does, with the right of school trustees to tax a settler's homestead. It came recently before Judge Newland here.

The defendants, one Coltart and others were sued as the trustees of Prospect School District, No. 660 for \$23 in taxes and fees, which they collected from a settler named O'Flynn by distress of his goods and chattels. These taxes were assessed on O'Flynn's homestead prior to entry by him and while the same was held by previous homesteaders, whose names were cancelled.

No patent has yet been issued for this land. It was contended on behalf of the defendants that all land in rural school districts (the district above mentioned being a rural school district) is taxable, including land held by the Crown. This contention was based on the fact that the school assessment ordinance does not exempt Crown lands in every other instance.

Crown lands in every other instance, Judge Newland said he had only to point out that section 126 of the British North American Act provides that no land or property belonging to Canada or any province shall be liable to taxation.

After the parties had argued this case, and he had come to the above conclusion, the Attorney General for the province intervened, and the case was reargued.

Mr. Ford, the Deputy Attorney General argued that there could be no doubt, but that the interest of the homesteader could be assessed, though until patent was issued by the Crown the interest of the homesteader could not be assessed.

Mr. Ford, the Deputy Attorney General argued that there could be no doubt, but that the interest of the homesteader could be assessed, though until patent was issued by the Crown the interest of the homesteader could not be assessed.

Blankets

J. N. STEWART'S HARNESS SHOP BROAD STREET

For Street and Stable we are showing a fine line of Horse Blankets

In plain and fancy colors, also Brown Duck, etc. These blankets are of exceptionally fine quality and are the biggest value ever offered.

Make a choice before the lot is reduced in quantity. The earliest buyer gets the pick of the whole assortment which is large.

You will also find a large assortment of gloves and mitts at

ant, O'Flynn, for a balance of the sum of \$2,000.00 which he alleged to be due him under a contract to build a hotel at Davidson, dated February 1st, 1906.

The defendant, O'Flynn, pleaded that the contract provided that a building was to be built and finished to the satisfaction of an architect to be nominated by O'Flynn, and that the entire contract price should be payable after the completion of the building to the satisfaction of the said architect, a certificate that the said building was completed to the satisfaction of the said architect was a condition precedent to plaintiff's right under the contract. As there was no certificate the Judge held that the plaintiff was not entitled to the balance of the contract price as claimed and dismissed the plaintiff's action as to that part of the claim. The plaintiff also sued for the sum of \$941.25 for other work done outside of the main contract and this the plaintiff's action as to that part of the claim. The plaintiff also sued for the sum of \$300 paid on account thereof and also for judgment accordingly. His Lordship gave judgment for the defendant in several items of his counterclaim.

Y.M.C.A. CORNER STONE TRULY LAID

INTERESTING CEREMONIES ACCOMPANY THE EVENT—ASSOCIATION'S PROSPECTS

From Wednesday Morning's Leader. Under the most favorable auspices the corner stone of the Regina Y. M. C. A. was last night placed in position. The opening ceremony was witnessed by a large concourse of citizens, who took up Cornwall street and the space behind the growing building. On the first floor was erected a presidential table, on which was placed a head of dark-colored mortar to match the bricks of the building, and also a number of seats occupied by the members of the city, and speakers of the evening, members of the city council and prominent citizens. A space was also reserved on the platform for members of the Laubach orchestra.

The proceedings were opened by an orchestra selection, after which the president of the Y. M. C. A., Mr. C. W. Luttler, presided. The Dookery was sung, and a prayer offered by Rev. C. W. Luttler.

Mr. Balfour After this came the ceremony of laying the foundation stone, which was entrusted to James Balfour, Mr. Balfour, an architect, had had the honor when the directors asked him to lay the corner stone. In his opinion it was one of the most important of his life, and he had never undertaken in Regina. They were doing no mean thing when they were laying the stone, which would mean that the building, it was only about a year ago that active measures were taken to arrange for a Y. M. C. A. At that time they had taken advantage of Mr. Parsons' visit to the west to get his counsel on such an undertaking. The speaker then recalled the meeting held in Knox church to consider the advisability of the step. It was quite appreciated that the erection of a Y. M. C. A. would entail a great responsibility and that the money would have to come largely in the shape of public subscriptions. In the fall of last year when the crops were assured further steps were taken. A meeting held in the rink was crowded to the doors forming a great interest in the project. The speaker then explained the disposition of the various floors as printed on the official programme. The third floor would be built first, and the revenue of which would provide a revenue for the building. If possible they wanted the Y. M. C. A. to pay for itself, and for this reason they proposed to put on a fourth floor also with 28 dormitories. If these rooms were let on a basis of \$12 per month, each floor would bring in about \$3,500 per annum, and this contribution would go a long way toward financing the institution. He calculated that the cost of the institution would be about \$10,000 per annum. In three or four years' time the revenue would have paid for the fourth storey. The lots on which the building was built had cost \$15,000, and the total cost of the whole institution with a fourth storey would be in the neighborhood of \$100,000. Mr. Balfour then outlined what had been already promised and urged the action commended very warmly the action
