She says: "I am Her dyspepsia was of the most distressing character. She says: "I am 46 years of age. I have suffered for several years with indigestion of the worst kind. The pain over the pit of my stomach was so bad that I had a perfect dread of eating anything. I had cold hands and feet and hot flashes to the head and face. I grew pale, thin and weak, until I was indeed a burden to myself. Every moutful of food gave me pain, and my heart palpitated so loudly that I could almost hear it beat, and at times I was very dizzy. My sight was bad and I frequently stargered.

"Three weeks ago a friend gave me one of your circulars, and told me Capsuloids were not a patent medicine, but a natural iron medicine made out of fresh, strong blood. I was afraid to take them because iron always hurt my stomach so, but to my surprise this kind of iron did not hurt me in the least. I gained from the first, and although I have only taken two boxes, the pain and soreness have gone from my pounds; the palpitation is gone; I can go up stairs nicely, and, altogether, I can scarcely believe that three weeks' treatment could make such a change in a woman who was so far gone as I, for my chief a thought I must die I have much better color; I know
