New Xmas Neckwear at The 2 T's this week.

Chathamites were given 15 degrees of frost Sunday night. Men employed at the Chaplin wheel works are having difficulty finding

boarding houses. The Blonde Lumber & Mfg. Co. expect to occupy their new mills on Dover street on January 15.

Mrs. Hector McGregor, Church street, slipped and fell on Tecumseh Park Sunday, fracturing her arm. The remains of the late Mr. Forbes, who died in this city, were yesterday removed to Ridgetown for interment.

Plumbing, steam heating and gas fixtures are being put in William Drader's new office on Queen street. A number of men from St. Catharines are installing the electric light plant at the Chaplin wheel works. The most complete line of Toys, Fancy Goods and Books in Chatham can be found at Sulman's Beehive. tf. Mrs. Cummings, 9th concession, Chatham Township, died Sunday. The funeral will take place on Wed-

nesday. W. E. Park had articles published in recent issues of "Facts and Fiction," Chicago, and "How to Write,"

#### BRAIN FOOD.

Not long since there was a great run on the fish markets because it was an-nounced that fish was food for the brain. Of course the fallacy of the fad was soon exploded. Normally the food we eat nourishes brain, nerves, muscle,

bones, etc., each part of the body assimilating phosphorous salts, lime, ac-O cording to its of need. When the brain begins to show weakness or the nerves become sensitive it is a sign that there is a loss of the nutrition contained in the food eaten, and this loss is in general due to disease of the stomach, and its allied organs.
Dr. Pierce's

Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It enables the perfect digestion and assimilation of food, which is the source of the strength of both brain and body.

of both brain and body.

"I was troubled with very frequent headaches," writes Miss Belle Summerton, of San Diego, Duval Co., Texas, "often accompanied by severe vomiting; bowels were irregular and my stomach and liver seemed continually out of order. Often I could eat almost nothing, and sometimes absolutely nothing, for twenty-four hours at time. I was entirely unif for work, and my whole system seemed so run-down that I feared a severe sick spell and was very much discouraged. I was advised to try Dr. Pierce's Golden Medical Discovery and did so with such satisfactory results that before finishing the third bottle I felt perfectly able to undertake duties attending public school life."

#### **WEDDING BELLS**

A very pretty home wedding was

celebrated at 4 p. m. on Wednesday, the 3rd inst., at the residence of Mr and Mrs. Abraham Huff, when their daughter, Miss Lilly Ann, was unit-ed in marriage with Mr. Archibald Angus McAlpine, of Chicago, in the presence of some fifty guests. The ceremony was performed by Rev. G. H. Cobbiedick, M. A., B. To Know What You Are Taking When Using Catarrh Medicines.

Catarrh is the short route to con sumption, and the importance of early and judicious treatment of catarrh whether located in the head, throat or bronichal tubes, cannot be too

strongly emphasized. The list of catarrh cures is as long as the moral law and the forms in which they are administered, numerous and confusing, from sprays, inhalers, washes, ointments, and salves

powders, liquids and tablets. The tablet form is undoubtedly the most convenient and most effective but with nearly all advertised catarrh remedies it is almost entirely a matter of guess work as to what you are taking into your system, as the proprietors, while making all sorts of claims as to what their remedies will do, always keep it a close secret as to what they

The success and popularity of the new catarrh cure, Stuart's Catarrh Tablets, is largely because it not only cures cataerh but because catarrh sufferers who used these tablets know what they are taking into their system. Stuart's Catarrh Tablets being composed of Red Gum, Blood Root and similar valuable and antiseptic ingredients, and are pleasant to the taste and being dissolved in the mouth they take immediate effect upon the mucous lining of the throat, nasal passages and whole re-

spiratory tract. The cures that Stuart's Catarrh Tablets have accomplished in old chronic cases of eatarrh are little short of remarkable, and the advantage of knowing what you are putting into your stomach is of paramount importance when it is remembered the cocaine or morphine habit has been frequently contracted as the

### JOHN'S JOKE

John Watt, the humorist, was feeling funny when he called up the central telephone office vesterday and the following conversation ensued, "Hello! Is that Central ?" "Number !" "Say, Central, give me 247."

"Line's busy."
"Well, if the 'Lion's' busy give me the tiger," and the telephone rang off abruptly. Mr. Watt was noticed to rub his ear vigorously as he hung

Want any stronger evidence than the unsolicited testimony of the people who've used it? The . . . . . .

Can you do it? If a needle is drawn a few times over the ends of a horseshoe magnet, it becomes magnetized. Push such a magnetized needle through a small cork. Place the cork in a bowl of water, taking pains to see that the cork when it floats on the water will carry the needle in a horizontal position or "on an even keel." Another way is to cut about three inches from a hollow straw (such as is used to suck lemonade) and to push the needle inside the straw. The straw will float and carry the needle. Now observe what happens. The floating needle will slowly swing round till it points north and south. The straw will behave in the same way. Push it in any other direction, and the

moment it is free it swings back again. We do not know who first observed the fact that a floating magnetized needle will point to the north. Nor do we know precisely when or where some unknown inventor used this idea to make a compass. All we know is that the Chinese made and used compasses

more than 2,000 years ago. When men began, perhaps 10,000 years ago, to sail upon the water, they used marks upon the shore to guide them on their way. Long years after they observed that a certain star kept at all times the same place in the sky, and they used this pole star as a guide in steering their ships. Today a steamship starting down the Hudson river for Europe is guided by the pilot, and he uses the buoys, beacons and other guide marks to steer the ship down the bay. Off Sandy Hook he gives up the ship to the captain, who instructs the helmsman to steer northeast by east, east by north or whatever course he selects, and the helmsman, watching

### COOKING HINTS.

Chocolate is greatly improved by adding a teaspoonful of strong coffee just before serving. In adding flour to gravies, always use a flour dredger and there will be

no lumps in the gravy. Some housekeepers vary the flavor of potato salad by boiling the potatoes for

it in stock, or, if it is more convenient, in the soup kettle. In using sour milk the proportion for gingerbread, biscuits, cake or almost

any dough or batter is one teaspoon of baking soda to two cups of sour milk. If making a gelatin dessert on a hot or a wet day, add a little more gelatin than the recipe requires, half as much again if you wish to mold fruit into

the jelly. Eggs a la ranigote is made by boiling eggs three and a half minutes, roll in beaten egg and fine bread crumbs, fry in deep fat; when brown, drain on paper, garnish with parsley and serve

with ranigote sauce. To make a small shortcake take a pint of pastry flour, rub in lard the size of an egg, teaspoonful cream of tartat, half teaspoonful soda, salt, and mix with sweet milk. Bake in quick oven, split and butter and add fruit.

Moral Suasion and a Strap. "She seems to have abandoned her moral suasion ideas relative to the training of children."

The buttons on coats, etc., are placed on the right side and the shed of the hair in boys to the left evidently to suit manipulation by the right hand.
