Politeness sometimes merely paves the way for a touch.

period of complete rest.

wagon and was killed.

south, having been ordered a

"For years a mar-

tyr," is how Chas. H Powell of 105 Rag'an Street, Kingston, be-gins his story. "A marty to chronic cor-

stipation, but now I am free from it and all through the use of Dr Leonhardt's Anti-l'ill, pitality or generosity, says the author "In the Desert," you have a hold

It used to be the boast of Arab poetry in its best days that it "never praised a man except for what was in him," and the habit of judging directly and without regard to surroundings has always been an instinct of the race. All those evidences of worldly prosperity and success which turn the heart of the Anglo-Saxon to water

leave the Arab unmoved.

The Arab is an artist in manners. remember a certain sheik, who was once my traveling companion on the Upper Nile, a tall, lean, keen faced man, of a complexion almost black, with a glitter on it like the sun polish on desert stones, who walked among the fellahs on the crowded deck like a chief among his slaves.

Farewell to Mr. Leitch.

Cornwall, Oct. 26.—The citizens of Cornwall tendered a complimentary banquet at the Hotel Duquette last night to James Leitch, K. C., chairman of the Ontario Railway and Municipal Board, who has removed to Toronto. Over 150 prominent citizens of Cornwall and neighboring towns were present. Judge O'Reilly of Cornwall was chairman. Among the speakers were Hon. J. P. Whitney and Hon. Dr. Pyne. With him I shared the same narrow corner of the deck. He was strict in his religious observances and at the appointed hours would spread his mat on the deck, turn in the supposed di-rection of Mecca and then kneel and rise and kneel again, bowing with his forehead to the ground in the im-posing attitudes of Moslem prayer. Quick at detecting the least sign of

Vacancy In Saskatchewan.

Walsh, Conservative, will probably be the nominees. consideration or respect, if we stop-ped talking or moved to make room, he would treasure up the courtesy and when his prayers were over turn and acknowledge it with a grave gesture and a smile that seemed no conventional grimace, but expressed the in-tention of a deliberate friendliness.

PALISADES FORMATION.

Allied In Time and Type to Mount Holyoke and Cape Blomidon.

The complete height of the cliff was much higher, originally, for the glacier that buried North America down to this latitude eroded billions of tons which went to the upbuilding of Long Island, trap bowlders being common in through the use of Dr Leonhardt's Anti-l'ill.
CHAS. H. POWELL Many who are now suffering from this complaint will be glad to learn from Mr. Powell's story that there is hope for the most stubborn case. He continues: "I was induced to try Anti-l'ill by reading the testimony of some one who had been cur.d of constipation by it. I had suffered for eighteen years and had taken tons of stuff recommended as cures but which made me worse rather than better. Doctors told me there was no cure for me."

Dr. Leonhardt's Anti-Pill is for sale by all Druggists or by The Wilson Fyle Co., Limited, Niagara Falls, Ont.

Mr. Powell will verify every word of these statements.

Sold by C. H. Gunn & Co. the soil of Brooklyn, and I have found on the top of the Palisades opposite
Spuyten Duyvil glacial groovings and
polishings that have survived the presumptive 15,000 years since the glacier
melted. The orthogonal property of the presumptive 15,000 years since the glacier melted. The outpour of this mass from a volcano whose crater we cannot so much as guess in this day was tremendous, and it cut the Hudson and Hack-ensack valleys asunder and pushed the harbor several miles to the southward, while related activities thrust above the surface, either as downpours or uppours, the thousand miles of basaltic hills that chain the Carolinas to the Bay of Fundy, so that our Palisades are allied in form and time to Mount Holyoke and Cape Blomidon.

To the mineralogist our Palisades do not yield as much of interest as we not yield as much of interest as we find in the rotting trap of Paterson, a few miles away, from which have been taken the largest prehnites in the world, sea green and wonderful; royal ametirysts, balls of silky pectolite and quartz pseudomorphs that copy them; but we find in these cliffs occasional duplicates of the columns that the second of the Hamilton, Oct. 26.—A construction train collided Wednesday night with a light engine on the G. T. R. at Copetown, and Harry Clark, fireman on the light engine, was fatally injured. Both duplicates of the columns that make the Giant's causeway and Fingal's cave—geometric shapes of three, four, five, six and more sides, not a result of crystallization, as was once imagined, for trap is a rock, not a mineral, but of lateral shrinking when it has cooled.-Charles M. Skinner in Century.

A century ago they were popular. To-day people want something easy to apply, certain in results, and, above all, a clean liniment. When Nerviline is applied aches and pains disappear as the pores absorb its socthing, healing properties. Nerviline penetrates to the core of the pain, eases instantly, and leaves no oily, bad smelling memory behind. Good to take in, capital to rub on, and five times more powerful in destroying pain than any oily liniment. Don't fail to get a large 25c, bottle. No Pure Gold In Use. "Gold when refined from all impurities," said a jeweler, "and alloys of in-ferior metals is denominated pure. This means gold of twenty-four carats, and this is the standard recognized by the mint master and dealers in gold. As a matter of fact, however, there is no gold so pure. Gold of twenty-two carats is about as pure as it can be got. It has two parts of silver or one part of silver and one part of copper. copper darkens the color of gold, while is it in color. Twentythree carat gold is occasionally seen, which means a half carat of silver and of copper. Ordinarily eighteen carat gold is the best gold than can be had. Certainly it is the best for jewelry, for pure gold, as it is called, is too soft and will wear away much faster than the owners of it desire.

Stoves.

Stoves which concealed the fire were in use in Greek and Roman house The ancients also employed open tubes of metal or earthenware and, in addition, heated their rooms There is a fascination about big profits to a business man. But the conservative and cautious trader profers to have the lesser per cent. of interest and the larger per cent. of safety in his investments. There is no business man who would not consider it a sound proposition to invest in an enterprise in which absolute loss was impossible and which offered ninety-eight chances in a hundred of a rich profit. The statistics off cures effected by Dr. Pierce's Golden Medical Discovery show that ninety-eight per cent. of cases of "weak lungs" can be absolutely cured. Almost, if not all, forms of physical weakness may be traced to starvation. Starvation saps the strength. The body is just as much starved when the stomach cannot extract nutrition from the food it receives as when there is no food. "Weak lungs," bronchial affections, obstinate coughs, call for nourishment. "Golden Medical Discovery" supplies that neurishment in its most condensed and assimilable form. It makes "weak lungs" strong, by strengthening stomach and organs of digestion which digest and distribute the food, and by increasing the supply of pure blood. with charcoal braziers. Grates for the burning of coal were employed two centuries ago in Great Britain. Many thousands of patents have been taken out upon stoves and ranges since Franklin and Count Rumford pointed out the waste of fuel and of heat involved in open fireplaces.

The Two Lady Motorists. The two great motors were pulled up in front of one of the big dry goods stores. One lady was entering her machine; the other was getting out.
"Hello, Gladys! Out for a spin?"

"Yes; glad to see you."
"Just ran across your husband a block above." "You did? How can I ever thank you enough?

The Effect. "Mathilde, throw that poor beggar a

"Ah, yes, he looks very unhappy." "Not on that account, but the Meyers are watching us from their window op

A house is never perfectly furnished for enjoyment unless, there is a child in it rising three years old and a kitten rising six weeks.-Southey.

That's It!

Armour's Solid Extract of Beef

POTTED IN CANADA

is the kind that is simply the natural Essence of Prime Beef—concentrated. It is not a manufactured article like many extracts and fluid beefs, made from extract bought on the open market without any knowledge of its purity, and mixed with salt, water and other ingredients. Beef in fluid form offers opportunity for adulteration without detection. This cannot be said of solid extract.

BORDEN IN NORTH BRUCE.

Conservative Leader Scores On Ayles worth-Importance of Public Opinion in Corruption Revelations.

Wiarton, Oct. 26.—A fine meeting in the interest of Abram McLellan, the Conservative candidate in the bye-election, was held here last night and was addressed by R. L. Borden, leader of the Opposition in the Commons. Dr. Sproule, M.P. (South Grey), and William Jackson, M.P. (West Elgin), were also present and delivered short speeches. The chair was occupied by James Hunter.

James Hunter.

Mr. Borden's speech was one of the most forcible arraignments of electoral and administrative corruption ever heard in this riding. He devoted some attention to Mr. Aylesworth's speech of Wednesday night and was joudly applauded when he declared that Mr. Aylesworth would some day learn that the demands of public opinion were of more importance than the carrying into effect of the exact letter of the law.

The exposures of the last received.

The exposures of the last session at Ottawa formed the text of Mr. Borden's speech, and he characterized them as more scandalous than anything that had ever taken place in the history of Canada.

He did not blame the Government because some of its Ministers had in-dulged in work of this kind or in dulged in work of this kind or in scandalous extravagance and granting of rake-offs to middlemen, but when these matters were brought to the attention of Parliament and of the Government by an Opposition, that Government would be derelict in its duty if it did not have them probed to the bottom. The fault should be placed in the right quarter and justice meted out.

Johnny, queried the teacher of the juvenila class, what is the difference between electricity and lightning? Well, you don't have to pay nothin' for lightnin', answered Johnny.

CHINA'S MODERN ARMY.

Notable Feature of Manoeuvres War Portable Wireless Outfit.

Changtofu, Oct. 26.—A notable feature of the autumn manoeuvres of the Chinese imperial army has been the presence in the field of portable wireless telegraphy apparatus carried upon light wagons and so adjusted that it can be erected in less than 30 minutes. Experienced military observers are of the opinion that with the exception of certain minor defects and making allowances for the fact that these operations were an experiment, the manoeuvres were almost equal to those conducted in European countries. Changtofu, Oct. 26.-A notable fea-

ries.

The artillery and the principal equip-

ent of the troops were manufactured in Japan. It is estimated that the manoeuvres
