A Mysterious Ghostly Light.

AMSTERDAM, N. Y., Aug. 14.-A mysterious light appears nightly about three feet above the railroad track at Palatine Bridge, and some declare that a human hand is seen above it. Night Watchmen Barrett and above it. Night Watchmen Barrett and Lynneman are among the reliable persons who have seen it. Last night 50 citizens hid behind a fence in hopes of ferreting out the mystery, but the light did not appear. Sometimes it goes bounding down the track, at others it is 30 feet in the air, and again it seems to be lying on the track. Several trains have been stopped by it, the engineer mistaking it for a signal light and railroadmen are full of apprehension and superstition. Much excitement prevails.

There is a cloud gathering in India and un easiness denotes growing dissatisfaction and unrest. The attitude of the resident English toward Ripon's measures and their arrogant hostility against refined and highly educated imprisonment of a native editor for a harmless libel, and the abrupt and unexpected refusal of redress by higher tribunal at home, all tend to prevoke a dangerous feeling. The Indian pension list alone amounts to over \$30,000,000 yearly and the drain of taxation is already so burdensome as to be of itself almost unbearable. The population ation is already so burdensome as to be of itself almost unbearable. The population on the other hand are intelligent and Eng-lish principles are growing enormously and lish principles are growing enormout it is beginning to think for itself.
