REMARKABLE
INVENTION
FOR THE
Culture
of Hair.

THE EVANS VACUUM CAP is a practical invention constructed on scientific and hygienic principles by the simple means of which a free normal and circulation is restored throughout the scalp. The minute blood vessels are gently stimulated to activity, thus allowing the food supply which can only be derived from the blood, to be carried to the hair roots, the effects of which are quickly seen in a healthy, vigorous growth of hair. There is no rubbing, and as no drugs or chemicals of whatsoever kind are employed there is nothing to cause irritation. It is only necessary to wear the cap three or four minutes.

60 DAYS' FREE TRIAL.

The Company's Guarantee.

AN EVANS VACUUM CAP will be sent you for sixty days' free trial. If you do not see a gradual development of a new growth of hair, and you are not convinced that the Cap will completely restore your hair, you are at liberty to return the Cap with no expense whatever to yourself. It is requested as an evidence of good faith that the price of the Cap be deposited with the Chancery Lane Safe Deposit Company of London, the largest financial and business institution of the kind in the world, who will issue a receipt guaranteeing that the money will be returned in full, on demand without questions or comment, at any time during trial period.

The eminent Dr. L. N. Love, in his address to the Medical Board on the subject of Alopecia (loss of hair) stated that if a means could be devised to bring nutrition to the hair follicles (hair roots), without resorting to any irritating process, the problem of hair growth would be solved. Later on, when the EVANS VACUUM CAP was submitted to him for inspection, he remarked that the Cap would fulfil and confirm in practice the observations he had previously made before the Medical Board.

Dr. W. Moore, referring to the invention, says that the principle upon which the Evans Vacuum Cap is founded, is absolutely correct and indisputable.

An illustrated and descriptive book of the Evans Vacuum Cap will be sent, post free, on application.

OFFICE:—Up-stairs Lounsbury Block.

TOWN COUNCIL MEETING.

Decide not to Accept New Pump Until the Air Chamber Is Replaced.

C. T. A. CONVICTIONS.

Meter For Furniture Factory.—Inspection to Enforce Law Against Wasters of Water.

Town council held its regular session Thursday night, the full board being present.

Minutes of previous special and regular sessions read and approved.

A communication was read from R. Murray, M. P., stating that the road machine used and claimed by the town of Newcastle belonged to the local government and was for use in the parishes of Newcastle and Nelson. It had been asked for by the Nelson road superintendent, and the town is requested to let that official have it without delay, else the attention of the Chief Commissioner of Public Works will be called to the matter.

As the road machine was already promised to Nelson before Mr. Murray's letter was received, the latter was merely received and filed.

A communication was read from D. H. Waterbury, asking what progress was being made on the new sidewalk around post office. Received and filed.

Communications were read concerning coal quotations. The Glace Bay Dominion Coal Co. and the New Glasgow Nova Scotia Steel & Coal Co. said that slack coal was scarce. The former could not supply any at all to new customers; the latter might supply a cargo or two at \$2.00 a ton of 2240 lbs. f. o. b. at North Sydney. The Intercolonial Coal Mining Co. of Westville, N. S., said that they would deliver 800 tons slack coal by water, delivered on Newcastle wharf, at \$2.50 per ton; and by rail at \$2.85. If delivered by rail, they could send it in small quantities. The communications were received and referred to the Light and Water Committee.

The Light and Water Committee were then instructed to advertise once in the local papers and once or twice in one or two of the Nova Scotia papers, calling for further tenders.

On motion, it was decided to authorize an increase of interest on current account overdraft at Bank from 4 1/2 to 5 per cent.

On motion it was decided to authorize the hypothecation of \$35,000 of debentures to the Royal Bank as security for shrinkage in bonds already held by bank and to cover the full amount of current account overdraft.

The public works committee recommended payment of following bill, which was received and passed:—Frank Masson, \$23.75.

On recommendation of the Light and Water committee, the following bills were ordered paid:—

John Forman, \$80.15; Frank Masson, \$21.25; Canada General Electric Company, \$12.85; E. P. Williston, (legal advice), \$10.00; digging water trench \$3.00 \$13.00; Lewis Bros., \$8.00; T. McAvoy & Sons, \$102.88—total, \$238.13.

On recommendation of the Finance committee the following accounts were ordered paid:—North Shore Lender, \$5.25; H. P. Cassidy \$35.00 for distributing tax

notices 1906 and 1907.—total, \$44.25.

A long discussion then followed concerning the acceptance or rejection of the Canadian Fairbanks Company's pump, which appears to have a flaw in the airchamber, and the connection of which is a ten-inch pipe, instead of the twelve inch which is considered necessary. The general opinion was that last year's Light and Water Committee, by authorizing the company to make a ten-inch connection, had put it beyond the power of the present council to now demand a twelve inch connection.

Ald. Morrissey and Allison moved that the Town Clerk be instructed to write the Company refusing to accept the pump until the defective air chamber be replaced by a new one.

Ald. Belyea and Falconer moved in amendment, That the Council accept the pump as it is, providing the company give a written guarantee to replace the air-chamber should the latter fail to do its work properly.

Mayor Miller and others strongly opposed the amendment. Ald. Russell spoke in favor of it.

The amendment was lost by following vote: For—Ald. Belyea, Falconer, and Russell; Against—Ald. John Clark, T. A. Clarke, Allison, Morrison and McMurdo.

The original motion was put and carried, 7 to 1, Ald. John Clark not favoring either motion or amendment.

The Police and Appointment to office committee recommended

(1) The appointment of the following as special policemen for circus day:—John Jardine, Thos. Fallon, William Condron, George Johnson, John Gallah, and Arthur Petrie, and (2) The payment of the following bills—T. W. Butler, on account Canada Temperance Act, \$27.00; T. W. Butler for advice to Policeman Ashford, \$5.00; S. McLeod, for Policeman's uniform and cap, \$26.50—total \$58.50. Section 3 stated that during May three convictions had been secured against Scott Act violators, and the usual amount of \$50 and costs collected from each. The report of the committee was received and adopted.

It was decided to ask for tenders for coal for the police office, town clerk's office and town hall.

The Committee on petitions and By-Laws reported (1) That they could not see their way clear to grant the petition of P. J. McEvoy (2) That they recommended that the 1903, 1904 and 1905 taxes be struck off Albert Hickie's account as he had made affidavit that during those years he did not live in town; and (3) That, with reference to the collection of the by-laws, they wished authority to employ a clerk to assist them. Sections 1 and 3 were adopted, and section 2 rejected.

The Mayor was instructed to write W. S. Loggie, M. P., and the M. S. N. Co. re the latter running a boat between Chatham and Redbank.

Ald. Belyea brought up the water matter again, advocating the appointment of an inspector.

Ald. Morrissey wanted a number of water meters put in to see where the leakage was.

On motion of Ald. Morrissey and Allison, the Light and Water Committee were authorized to install a meter in the Anderson Furniture factory in order to ascertain how much water was used there.

On motion of Ald. Belyea and McMurdo, the Light and Water Committee were empowered to at once appoint an inspector to enforce the law against the indiscriminate use of the town water.

Adjourned.

ANNIVERSARY.

A very pleasant and genuine surprise was given Mr. and Mrs. Geo. Stables on Wednesday evening, when their family invited a number of Mr. and Mrs. Stables' friends to assist in celebrating the 29th anniversary of their marriage.

After most felicitous greetings a delicious supper was served, Mr. and Mrs. James Stables doing the honors of the tables, the Misses Stables, Miss McAllister, Mrs. J. Russell, Mr. S. Stable and Mr. Allan Ferguson serving. Mrs. Stables received a very handsome gold watch-chain from the family.

The guests were Mrs. McAllister, Mrs. Fleming, Mrs. Crocker, Mrs. Hamilton Mr. and Mrs. D. Morrison and Mr. and Mrs. Osborne Nicholson.

Supper was followed by an hour of social intercourse, interspersed with Scotch music and songs and speeches suitable to the occasion by the guests, responded to by the "bride and groom." The singing of "Auld Lang Syne" brought a most happy event to a close.

THE MEDICINAL VALUE OF FRESH FRUIT JUICES

One of the Greatest Wonders of the Age.

Hundreds Have Been Made Well by Taking Advantage of an Ottawa Physician's Discovery.

Everyone knows how beneficial fruit is, when eaten regularly. Fruit is nature's laxative—the finest kidney regulator—and the ideal skin tonic. Unfortunately, the medicinal principle of fruit occurs only in minute quantities. In order to consume enough fruit to relieve biliousness, one would also consume a large amount of woody fibre or pulp, which would upset the stomach and impair digestion.

An Ottawa physician discovered a way to get around these difficulties. He pressed the juice from apples, oranges, figs and prunes—and then forced one more atom of the bitter principle from the discarded orange peels into the concentrated juices. This formed a new compound, having all the curative effects of fresh fruit—and

in a highly intensified degree. Then valuable tonics and internal antiseptics were added and the whole pressed into tablets.

These are "Fruit-a-tives" the wonderful Liver Tablets you hear so much about. "Fruit-a-tives" cure the most obstinate cases of non-action of the bowels, biliousness, headaches, sleeplessness, nervousness, kidney trouble, rheumatism, sciatica and neuralgia. They are the greatest blood purifying medicine in the world, while their action on the skin, in clearing and beautifying the complexion, is nothing short of marvelous. Ask your druggist for "Fruit-a-tives" and see that you get them. See a box, 6 for \$2.50. By mail, postpaid, from Fruit-a-tives Limited, Ottawa.
