

USED AXE ON HIS FELLOW.

Trouble In Hydro-Electric Camp Near Waterdown.

Steve Nusuleu Assaulted and Dragged to a Ditch.

Alex. Power, Another Austrian, Is Under Arrest.

Steve Nusuleu, 408 Hughson street north, an Austrian, was badly cut in the side with an axe in a foreigners' camp at Waterdown last night, and Alex Power, a fellow countryman, is in the toils charged with the offence.

About 8.30, as Budimir Protich was going out of his house, he was surprised to find Nusuleu sitting on his doorstep emitting groans and surrounded by a great crowd. He soon learned that the man had been wounded, for he was shown a deep gash in his left side and the story of how it happened was unfolded.

One story was that the man was working on the Hydro power line; that a farmer objected to the gang going on his property; that a fight ensued and that a hired man struck him with an axe. This was found to be a juicy fabrication.

There are a number of foreigners working near Waterdown for the Hydro Electric Commission. There has been considerable dissension in the camp, it is said, over some private matter, and last night the wounded man voiced his discontent loudly to the effect that he was not getting value for his money in the camp, in the matter of board. Power is alleged, picked up an axe and succeeded in putting the man out of action for a time. Nusuleu lay there bleeding, it is said, until the camp boarding boss dragged him across the field to a ditch, 50 yards away.

A farmer's boy driving a heard of groans, and discovered the man in the ditch and took him to Dr. McClenahan's surgery, where the cut was sewn up and the doctor sent him to Hamilton.

When Mr. Protich learned the story the police were notified, and Chief Twiss, County Constable Sinclair and Protich started from the City Hall at 10 o'clock last night for Waterdown, in a rig, each carrying a loaded revolver, for they feared trouble before they had arrested the alleged assailant.

When they got to the camp Mr. Protich led the way, and all three had their barrels ready. They had great difficulty crossing the fields in the darkness.

The first tent they made out they entered, and in it they found Metassa, a camp foreman, and his wife curled up in bed.

It was learned that Power was in the next tent, with a dozen other foreigners. The armed trio entered there, but Power was not sleeping like the other occupants of the tent, and he was getting his hands together and said he was going away, for he was expecting trouble.

He was brought to the city early this morning, but did not appear in court. He will be arraigned to-morrow.

Dr. McClenahan told the Times that Nausuleu was taken to his surgery about 3 o'clock yesterday afternoon, and from what he could learn of the affair, which had been on all day. The injured man is not seriously hurt.

OBITUARY.

Late W. H. Irwin and W. H. Mosby Buried To-day.

The remains of the late William H. Irwin were laid at rest in Hamilton Cemetery at 3.30 o'clock this afternoon. The funeral was private and was held from 97 Herkimer street. The Rev. W. J. Smith conducted the services. The pall bearers were Messrs. Fred Leishman, Robert Moore, E. B. and G. F. Jelfs, John Moodie, William Findlay, Judge Monk and Walter Stewart.

The funeral of the late Miss Annie McKean took place from 26 Bruce street to Hamilton Cemetery at 2.30 o'clock this afternoon. Rev. W. H. Sedgewick and Rev. A. E. Mitchell conducted the services at the house and grave. The pall bearers were Messrs. J. I. McLaren, Fred Syme, James Chisholm, J. L. Patterson, James Randall and W. J. Cunningham.

METHODIST GIVINGS.

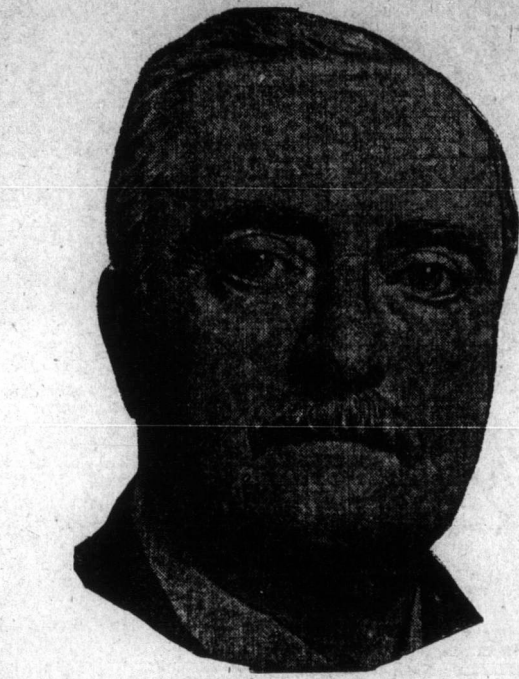

(Special Despatch to the Times.) Ottawa, Oct. 7.—The General Board of Methodist Missions for Canada met this morning under the presidency of Dr. Carman, General Superintendent of the Methodist Church. The reports showed that the givings to missions during the year totalled \$15,808; the givings of the Epworth League increased 12 per cent., and the Sunday school givings increased 41 per cent.

BRANTFORD RECEPTION.

The Alexandra will welcome one of the largest Brantford parties ever held in this rink to-morrow evening. The Hamilton skaters will no doubt attend in large numbers to welcome the visitors. Fifteen skating numbers and a couples' competition will be on the programme. Visit the balcony and see the magnificent decorations.

HOME RULE FIGHT.

T. P. O'Connor Coming to America—Battle With the House of Lords.

JOHN E. REDMOND.

London, Oct. 7.—T. P. O'Connor, M. P., will sail shortly for America at the request of John E. Redmond, the Irish leader, to explain the political situation here to the supporters of the Irish cause in the United States and Canada, and to appeal for funds to carry on the struggle for Home Rule.

The Nationalists regard the approaching general elections as one of the critical periods in their history, and the full power of their organization will be utilised in helping the Liberals deprive the House of Lords of the power of veto, which they claim, is the sole remaining obstacle to Home Rule.

The Nationalist point of view is set forth in an appeal by Mr. Redmond,

which is as follows: "A great crisis in the Irish struggle has arisen. The House of Lords is engaged at this moment in destroying the Irish Land Bill, with its promise of closing the land war of centuries and completing the restoration of all the land in Ireland to her people and the banishing forever of misery and famine from the west of Ireland. General elections are certain within the next two weeks. In these elections the veto of the House of Lords will be at stake and with the veto of the House of Lords will disappear the last obstacle to Home Rule.

"In this fight Ireland will have array against her all the forces of landlordism, wealth and privilege. Once more we appeal to our race to help us fight against these powerful enemies of our race."

PUTS CITY IN A HOLE.

Rather Surprising Discovery About Electric Motors.

Must Spend \$12,000 For Transformers to Handle Power.

Money Voted by Ratepayers Won't Cover Cost.

Hamilton will have to pay \$12,000 more than it figured on for the electric meters at the Beach pumping station and the \$30,000 voted by the ratepayers will not cover the cost.

News of this surprising discovery just leaked out to-day and it will present another problem for the council before it closes up with the Hydro Commission.

When the commission first talked of delivering power to Hamilton it proposed to carry it to the Beach pumping station and step it down to 2,200 volts. It was about this time that Engineer Sothman, of the Hydro-Electric Commission, drew up the specifications for the city. They call for motors to handle power at 2,200 volts. The power as it is delivered to Hamilton over the Dundas line, will be 15,200 volts.

When the Westinghouse Company discovered this they notified the city that the increased cost of the motors to handle the power at this high voltage would be from 50 to 60 per cent. The only way to avoid it is to install transformers. They cost \$4,000 each, and three of them would have to be installed, two at the Beach and one at the east end sewage disposal works. The feeling in the City Hall is that the transformers are preferable. Taking the power direct on the motors would be like handling lightning.

The city had figured on having nearly \$11,000 left for the foundation work and connections, after paying \$9,570 for motors; \$7,220 for pumps and \$2,365 for the power house. The discovery made by the Westinghouse people rather upsets the city's calculations.

SENT TO REFORMATORY.

Frank Rockmaker, a boy aged 13, was sent to Mimico Reformatory this morning by Magistrate Jelfs, for an indefinite term for forging a cheque for \$17.38, on the Bank of British North America, on September 28th last.

He forged the name of a boy friend, Frank Appleford. Truant Officer Hunter took the boy to Mimico this morning.

The North Pole Controversy Settled.

And it is immaterial who discovered the pole. The mere fact that it has been discovered is enough. You should protect your health against the winter with its changes. Take Parke's Tasteless Cod Liver Oil Tonic; it's nice to take, and will keep you in perfect health.—Parke & Parke, druggists.

Our Suit Sale a Great Success.

No such suits outside this store for the money. They have such style and quality that the closer you examine them the greater will be your confidence in us. Fralick & Co., 13 and 15 James street south.

Apprentice allowance claimed.

KILLED.

Italian Laborer Lost Life on Railway at Dundas.

A foreigner of Italian birth received injuries of such a serious nature by being run over by a Grand Trunk train near Dundas this morning that he died at the City Hospital shortly after his admittance there at noon.

He was employed as a laborer at the Dundas quarry, and was on his way to get a drink at a well near the G. T. R. tracks when the accident occurred. One leg and arm were badly mangled and he suffered internal injuries. The hospital authorities did not know the man's name.

THE DOCTORS

Heard Talk on Physical Training By Mr. Barton.

The Hamilton Medical Society held their annual meeting last evening at the Hotel Royal, and it was largely attended. Addresses were given by Dr. Barton, of Toronto, and D. M. Barton, Physical Director of the Y. M. C. A., on physical training, preventive and curative methods. Mr. E. Linkert, an ex-pupil of D. M. Barton, gave an exhibition, showing the muscular development and some of the doctors present commented upon the remarkable build of Linkert, stating that a man of such development would not be as liable to be affected with disease as a man not physically trained.

TO SAVE HER.

Petitions In Interest of Mrs. Robinson Being Signed.

To the Editor of the Times: Sir,—A petition for clemency in the case of the unfortunate woman, Mrs. Robinson, convicted at the Sudbury Assizes for the murder of the new-born children of her husband and minor daughters, to be hanged on Nov. 24 next, is being circulated throughout Canada. Petition papers have been placed at the stores of J. P. Hennessy, King and James streets, and R. J. Wells, King street east.

UNFORTUNATE MAN DEAD.

The death occurred of William Gibbins at the House of Refuge yesterday at the age of 62 years. Deceased had been confined in the city jail for a time, on a charge of insanity. He did not appear to have any appetite and would not eat, so he was taken to the City Hospital, thence to the House of Refuge, where he died. The interment will be in Hamilton cemetery to-morrow afternoon.

Y. W. C. A.

At the Board meeting held on Tuesday committees were appointed to attend to the furnishing of the new building. The shirt-waist class opened yesterday with a large attendance. The class for girls of 17 was opened this afternoon. The senior gymnasium class opens to-night. The social evening will be on Friday night. The Sunday afternoon class will be held at 4.15. The speaker, Mr. J. W. Shaw, will take for his subject "The House on the Sands," at the close of which tea will be served. All girls will be made welcome.

SAFETY DEPOSIT BOXES

To rent at \$2 a year and upwards for the storing of deeds, bonds, stocks, wills, silver and other valuables. TRADERS BANK OF CANADA.

MAY EXTEND AIR PRESSURE SYSTEM.

Success of Mountain Water Plant Likely to Revolutionize Fire Service.

So well pleased is Engineer Macallum with the success of the air pressure system used to pump water to the east end mountain top, which was tested yesterday, that he will likely recommend the Fire and Water Committee, when it is ready to take up the question of a high pressure fire system, to consider the advisability of installing the air pressure system in the districts where heavy pressure is required. The air pressure system, the invention of John Montgomery, one of the Canadian Northern engineers, has been used successfully on the company's road, replacing wind mills and pumps, which proved costly to maintain. The system installed here was on a larger scale than anything attempted yet, and Mr. Montgomery endeavored to make it exceed expectations, as on its success much depended. The satisfactory tests yesterday will result in the formation of a company, backed by Mackenzie & Mann, to put the invention on the market. It promises to revolutionize things in high pressure fire systems. Instead of the costly systems now in use it is claimed that by installing these air tanks around the city it is possible without laying any new pipes to get the desired pressure at a fraction of the cost of the systems now in use.

City Engineer Macallum was so well pleased with the test that he did not hesitate to advise the city to take the system over. The contract was for \$6,500. There are still some little details to be adjusted. With the engines shut off and the tanks working alone, they were operated for an hour and a half, throwing a stream 100 feet horizontally through an inch nozzle. Two streams, a one-inch and a 1 1/2-inch, threw water 77 feet. With the streams operated from the tanks alone it took the pres-

sure seven minutes to drop from 75 to 65 pounds, when the inch stream threw water 66 feet and the 1 1/2-inch 37 feet. Using the engines, the pressure was run up to 80 pounds, and streams were thrown one hundred feet and ninety feet high.

The City Engineer has approved of the contracts let to Frid Bros. and the Hamilton Bridge Company, for the erection of the Beach power house. The whole work in connection with the installation of pumps and meters is sure to be done well within the estimate of \$30,000. The pumps will cost \$7,220, the motors \$9,570, and the building \$2,365, which leaves nearly \$11,000 for the foundations and connections.

When the matter was being discussed last night Ald. Lees stated that the motors had already been built by the Westinghouse Company, which was only waiting to receive orders as to which power to wind them for. The information was rather surprising to some of the aldermen. Secretary James said this morning it was a mistake. Although the committee recommended that the contracts be let, the Council on two occasions referred the matter back and it has yet to pass the Council before the work can be begun.

Ald. Morris, Milne and Lees are in Toronto to-day gathering information in connection with the revision of the waterworks by-law.

The deputation from the power committee, which will discuss with the Hydro Commission the terms in connection with Hamilton's application for a thousand horse-power, has made an appointment for noon to-morrow.

The annexation committee will meet at 7.30 to-morrow evening, when all those who desire to speak in connection with the annexation question will have the opportunity.

BROKE ARM.

Wm. Whiteside Tried to Dodge a Boy and Suffered.

William Whiteside, residing at 86 Inebury street, met with a severe accident at noon to-day, near the corner of Catherine and Rebecca streets. He was wheeling, when he suddenly came upon a small boy. He turned out to avoid the lad, and at that minute the boy saw him and jumped the same way. The result was a collision, in which Whiteside was thrown. His right arm sustained a clean fracture between the wrist and the elbow. He was taken to Dr. Hopkins' surgery and the bone was set.

MUST PART FROM WIFE.

The Order Departs Greathead's Family, Leaves Him Free.

Strange Mix-Up Results From Controversy Over Case.

Government Official Coming to Adjust the Matter.

An immigration officer is on the way here to straighten out the mix-up over the case of Albert Greathead, junior, the deaf mute, for whose deportation the city demanded an order, after his mother on his behalf appealed for assistance, explaining he couldn't get work, being unable to make himself understood. The city officials say the department has got the matter hopelessly tangled as the result probably of the correspondence that passed with those who interested themselves on his behalf.

Yesterday a letter was received from Superintendent W. D. Scott saying that the part of the order referring to Greathead was rescinded, but the balance of the order for the deportation of his father, mother and a small child, remained in force and that an officer would be here shortly to take them away.

This was a surprise to the city officials. Greathead's father had been dead two years and his mother had been in the country too long to be deported. The order should have read for Greathead himself, his wife and two small children. The only explanation the city officials can offer is that the department got mixed up over the correspondence with St. George's Society.

The city was quite surprised to hear that the order had been rescinded without the relief department having an opportunity to present its side of the case. Mayor McLaren wired yesterday demanding that copies of all the correspondence in connection with the case be forwarded so that the city may know on what representations the order was cancelled.

Mayor McLaren said to-day that if any members of the family replied to the city for relief they would be turned over to St. George's Society. In the meantime with the order as it stands the man's wife and children are in danger of being deported, while Greathead is free to remain in the country.

THE NEPTUNE BRAND OF OYSTERS

Sold by us, are the purest, plumpest, most generously proportioned and carefully selected oysters. They are raised on beds located at Narragansett Bay, where the pure, deep water abbe and flows from the ocean; received from the beds daily, shucked, cleaned and shipped to us daily by express in packages that are in no instance used more than once.—Bain & Adams.

DECORATED BY HIS MAJESTY.

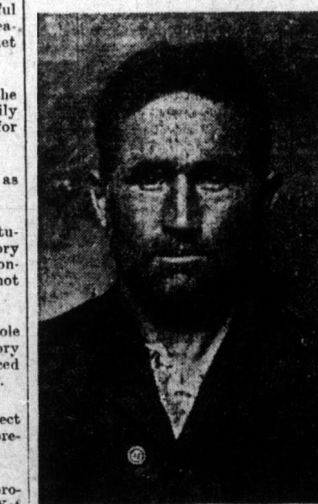

Mr. Duncan Fitzgerald, 10 Homewood avenue, has just received word of the decoration of his brother, Harvey Fitzgerald, by His Majesty King Edward. Harvey is a son of the late Major W. H. Fitzgerald, late 71st M. C. S. Regiment, and is a Canadian by birth. His Majesty has conferred a decoration on him for forty years' long and meritorious service in the Queensland Native Mounted Police. His rank is Chief Inspector.

FINE ON THE WATER.

Water trips to Toronto these fine autumn days are delightful and the hundreds of passengers who daily enjoy the sail on the steamer Moosassa express themselves with pleasure at the comfort of the trip. So warm have been the days recently that but few avail themselves of the cabins, but in cool weather they find those comfortable furnished shelters steam heated and as cosy as their parlors at home. Fifty cents is the single fare, and seventy-five cents the return. It is the intention of the management to continue this service until well on in December. The time table is arranged so as to allow about 5 hours in Toronto.

Do You Need a Pipe?

If you are thinking of buying a pipe there is a hundred reasons why you should go round to peace's pipe store. His assortment of good pipes is absolutely perfect, at the headquarters, 107 King street east.

JOHN TAGLERINO.

Sherman avenue Italian who is alleged to have been the author of the Black Hand letters.

CROWD FROM DUNDAS.

A crowd of over 500 people arrived in the city to-day from Dundas in connection with the Managers' Sale at Stanley Mills & Co., which number, the directors think, was a credit considering the proximity of Dundas to Hamilton. Early this morning the special cars brought in about 300 people and the afternoon cars about 200. The excellent arrangements made by Stanley Mills & Co. for the entertainment of their visitors were much appreciated by all.

To-morrow will be Oakville day, which will also end the popular excursions for the season. The sale continues until Saturday which will be expressly for city people.
