Hanlan, who expects to return from Australis via England next year, will open his campaign in the West in a regatta at San Francisco. He will not be in much shape. Part of the fight took place in the dark, only lanterns and matches ighting up the gloom. Scullion had things blood in the first round and received \$20 for the feat. Scullion kept ahead for 39 rounds. After the 40th round he showed signs of being winded. Gradually Golden began to punish Scullion severely. The latter was knocked out of the ring in the 49th round, and it was then seen he could not stand up longer. In the 54th round Scullion's second threw up the sponge. A great deal of money changed hands during the fight. In the early rounds bets of 2 to 1 were offered on Scullion, but the odds changed after the 40th

The market was quiet and steady to-day, with a somewhat easier feeling prevailing at the afternoon board, when a sale of 10 shares of Federal at 130 was the only transaction recorded in bank shares. Buyers are few, and sellers are equally scarce, so that no very great change is looked for in the near future. Those who have shares would be unwise to sacrifice them now, and intending purchasers could no doubt have their orders filled at present prices later on. The market was quite without feature to-day, and at the close bids, as compared with those of yesterday, show a decline of \$\frac{1}{2}\$ for Merchants, with an advance of \$\frac{1}{2}\$ for Federal, and other quotations unchanged. In Miscellameous bids for Western Assurance were I lower, and N.-W. Land sold at 64, which was also the closing bid. Land and Loan shares were quiet and without sales. STOCKS,

PRODUCE,

There cannot be said to have been much change in the local situation at the close from what it was a week since. All through the week the only thing that has been offered at all freely is barley, and at the close that grain was quiet, with buyers and sellers apart. Except in that grain there has been very little movement all week; but-prices have generally been fairly steady, with no inclination manifest to push sales of anything. How much grain there is in the country seems not to be understood as well as it usually is at this season; and it is very probable that the present inactivity and unsettlement in some sorts of grain may last thill people have made up their minds on the subject. Prices outside have not shown much change. Those of English markets are down a penny on both sorts of Californian white wheat and 4d, on peas. It is said that the boyole track at New Haven on which Hendes recently broke the cone-mile and five-mile record, has been found to be short. If so, the new times will not stand, and Orey's 2.51, made at Springfield, still constitutes the mile record.

The fondness of Captain Arthur Wheatley, of Memphis, Tenn., for field sports is likely to cost him dear. He is off having a good hunt in Arkansas, and in the meantime Judge Pierce is imposing fines at the rate of \$25 a day for his failure to appear as a juror.

I base my assumption on the fact that my ideas of propelling a boat, as far as the use of my strength and skill is concerned, are superior to those of any oarsman in the profession, and unless I should chance to meet with a man who either naturally or from a description of my movements while in a racing shell "catches on," as the saying is, I have no fear of the result of any off my contests. BARLEY—There was an active demand heard up to Monday inclusive, and at firm prices. No. 1 sold at 75c.; No. 2 at 70 and 60c.; etx No. 3 at 66 and 65c., and No. 3 at 55 and 56c., f.o.c., almost daily. On Tugsday, however, the demand slackened in sympathy, with an easy feeling in Oswego, and neither then nor yesterday did there seem to be any business doing; holders stood out for former prices, but bids were one or two cents lower. On street prices closed at 60 to 724c., the bulk going at 65 to 66c. *

lots, with white thrown out. There has been no movement reported in inferior qualities, which seem to have been nominal, at 12 to 13c. Box-lots of rolis have come forward slowly and have sold usually at 16 to 18c., the latter for choice only. Street receipts seem to have been rather on the increase, and prices rather easy for pound rolls at 20 to 23c.; at 17 to 19c. for large rolls, and 18 to 19c. for tubs and crocks of good to fine dairy.

CHEERE—Seems rather firmed at from 12 to 12c. for small lots of fine, though large lots could have been bought at 11c. Medium and poor qualities seem not offered.

EGGS—Have sold steadliy at 23c. all week, for round lots, at which price all offered have been taken. Street prices steady at 24 to 23c. for really fresh.

PORK—Inactive and unchanged at \$14.50 to \$15 for small lots.

BAOOM—Stocks are now run very low; and the movement through the week has been very small and at firm prices. Long clear has sold almost entirely in lots of single cases, and still smaller parcels, at 25c. for cases and up to 2c. for a few sales. Cumberland even more scarce than long clear, and worth 8c. New rolls and belitte have continued rather unsettled at 11 to 124c. for rolls, and 13 to 134c. for canvassed bellies, with sales small.

HAME—The scarcity has continued, but a few

for rolls, and 13 to 13 jc, for canvassed bellies, with sales small.

Hams—The scarcity has continued, but a few smoked have been offered and sold at 14 to 15c, but the situation is best described by saying that prices are next door to nominal.

LARD—The market has remained quiet with smail lots selling as before, at 11 to 11 jc, for tinnets and pails in small lots.

Hogs—Rail lots have come in much more freely than they did previously, and sold readily and fairly steady until the close, when they became weak and went off at \$5.75 to \$6.00, which figures were also the closing prices on the street market.

Salf—Seems to have been only greeners by

figures were also the closing prices on the street market.

SALT—Seems to have been quiet generally, though we understand that a sale was made of a lot lying on a wharf.

DRIED APPLES—Quiet; lots of new have been offered at 94c, but not taken; dealers have been selling small parcels at 94 to 10c.

HOPS—Have continued inactive; fine new seem worth 24 to 25c, for single bales, but with very little coing even in these.

HIDES, SKINS, AND WOOL.

TRADE—Has been quiet nearly all over.

HIDES—Green have been unchanged in price, with receipts sufficient. Cured have sold steadily at 8e. per 1b. by the car-lot.

CALSEKINS—Inactive and nominally unchanged.

SHEEPSKINS—Prices still as before at 80c. for the best city green. Receipts of country lots small, but quite up to the demand, which is slack; prices ranging from 50c. for dry to 70 to 75c. for green.

WOOL—Scarcely any has been changing hands; sales to the factories have been few and small and at easy prices, which has led dealers to hold off; values, however, have stood much as before at 18c. for Cotswold to 19 to 20c. for Leicester, about 24c for super, and 30c, for extra.

TALLOW—Still weak at 71c. for rendered and 3c. for rough, with offerings large; dealers have sold job-lots at 8c., but have offered round lots lower.

Ountains stand as follows:—No. 1 in.

sold job-lots at 8c., but have offered round lots lower.

There was nothing unusual to note in the market this week. The run was fair, but the demand, while not excessive, was fully equal to it, and all were sold. No export cattle offered, and butchers' brought full last week's quotations. Sheep were easier, and lambs unchanged. Calves, when offered, found purchasers at last week's prices. Prospects for next week fair, unless spoiled by an unusually heavy run. CATTLE,

ENGLISH GRAIN TRADE, The Mark Lane Express of Monday, in its reekly review of the British grain trade, says:weekly review of the British grain trade, says:

"There had been some severe frosts, and the position of the wheat crop is exceedingly favourable, as the result of one of the finest seed times ever known. The tendency of both wheat and flour has been downward. Barley is slow, Foreign wheat off stands is drooping, and sales are only possible when concessions are made to buyers. American maize is scarce, and has advanced 6d; round maize is firmly held, but is dull. Ten wheat cargoes arrived; three were sold, six were withdrawn, and three remained. The sales of English wheat during the week were 67.745 quarters at 40s. 3d. per quarter, against 48.936 quarters at 40s. 8d. per quarter for the corresponding week last year."
