VACATION TIME Is at hand and is gladly welcomed by all, especially those whose duties in life have caused them to greatly run down their system to meet the requirements. Physical and mental, forced upon them. With these and others, it is important, whether at home, at the seashore or in the country, that some thought be given to diet, and as further assistance to Nature, a good building-up medicine like Hood's Sarsaparilla had best be resorted to. If the digestion is poor, liver deranged and frequent headaches seem to be the rule, Hood's will change all this and enable everyone to return to their home and business in a refreshed state of mind and bodily health.

HANDSOME FEATURES. Sometimes unsightly blotches, pimples or eruptions mar the face, and detract from the beauty of the hands. In all such cases Hood's Sarsaparilla will build up the system and impart freshness and beauty.
