

AROUND THE CITY

FASHIONABLE WEDDING IN OTTAWA TODAY.

Ottawa, June 6.—The gay season at the Federal Capital was today marked by the charming and fashionable June wedding which took place this morning in St. Andrew's church, when Dora Oliver, daughter of Hon. Frank Oliver, minister of interior, was united in marriage to John Jamieson Anderson, manager of the Union bank at Edmonton.

The church was beautifully decorated with palms and flowers, seen flowers, and there was a splendid musical programme. Rev. Dr. Herdige, of St. Andrew's, performed the ceremony.

The bride was given away by her father and looked very charming as she walked up the aisle bearing on her father's arm. Her bridesmaids were her sister, Miss Clara Oliver, and Miss Marie Dubuc, daughter of Mr. Justice Dubuc, of Winnipeg. The groom was supported by his brother, Duncan Anderson. The ushers were Messrs. W. L. MacKenzie King, Hammett Hill, Ian Brooker and C. E. Watson. After the carriage ceremony a reception was held at the residence of the bride's father, Somerset street. The bride wore the groom's present, a magnificent diamond and sapphire ring.

There was a large collection of handsome and costly gifts, including black bear skins, large and small, from the west, and a pair of seals. The young couple left for Montreal by this afternoon's train and will sail by the Virginian for England, where they will spend the couple of months before taking up their residence in Edmonton.

REPAIRING CHISHOLM BLOCK.

Repairs on the Chisholm block, corner of Jasper and Fourth street, are being rushed along. Mr. Chisholm says the building will be ready for occupancy by July 1st. It will be built practically the same as before. The entire block has already been leased and the tenants are waiting and anxious to get in.

As reported in the Bulletin some time ago the entire lower floor and basement has been leased for five years by P. Burns & Co. Mr. Burns during his trip to the city this week met the east side store to R. Bruce Inglis & Co., the well known grocers. P. Burns & Co. will occupy the west store, or the premises formerly occupied by Williamson Bros.

The second and third floors have been secured by the Grand Trunk business college, under a five year lease. They will take possession of the second floor as soon as ready and are fitting it up as a way to accommodate the different classes. The building was gutted by fire early in the winter.

MANUFACTURERS ENQUIRING.

The secretary of the board of trade is receiving numerous enquiries from eastern manufacturers regarding the possibilities of Edmonton as a city to establish manufacturing industries, and says there never was a time when prospects were so promising of results. Within the past few days he has received letters from firms covering nearly all kinds of manufactured goods, including concrete, woolen goods, brick, brushes and brooms, lumber and hardware. A number of inquiries from Minneapolis firms have been received regarding openings for jobbing warehouses, and also for wholesale dry goods.

A couple of New York capitalists have been in Edmonton the past week looking over the city and district. They are desirous of establishing a lined oil factory, but do not think the amount of fix in crop this year will justify the opening of a factory at once. However, they are investing considerable capital in building houses in the north end of the city and will probably be established in the lined oil manufacturing business next season.

HOTEL ARRIVALS.

The duties of the new inspector will be to enforce the postal laws and regulations affecting this district, maintain the efficiency of the postal machinery, and report regarding new post offices and mail routes required.

This department desires that the administration of these important matters be directed as far as possible by man on the spot and familiar with the local conditions.

City Delivery.

The delivery of mail in the city of Edmonton will commence on Saturday next. A staff of carriers have been organized and completely drilled. Delivery will be made twice a day in the business section and semi-residential, and once in the outlying portions of the city.

The citizens are respectfully requested to advise their correspondents to address all mail with street and number to facilitate the work of the post office, and are asked to exercise reasonable forbearance until the new carriers are adjusted to the difficulty of their new position.

Every effort will be put forth by the department to expedite the work of the new organization with accuracy and speed.

Status of City Establishments.

CHARGED WITH ATTEMPTED RAPE.

Medicine Hat, Alta., June 4.—John Sturm was arrested at Irvine yesterday by the R. N. W. M. P., and received a preliminary hearing last night on the grave charge of attempting to rape Rosy Brost, thirteen years of age, at that village. The girl stated that Sturm entered into the bushes by the creek, and was only deterred from accomplishing his purpose by her cries for assistance, which were heard in the village and brought aid. The prisoner has been committed for trial. Defence was reserved.

At last night's meeting of the city council by-laws were introduced authorizing the issue of debentures for \$1,000,000 to be used for the construction of a fire alarm system.

Second, \$25,000 for extension of water mains.

Third, \$2,000 for additions to natural gas mains.

Fourth, \$6,500 for installation of fire alarm system.

The city engineer estimates that \$23,000 will be spent on street grading this year, \$25,000 on the water system, and \$25,000 on pavements. \$10,000 is required for an isolation hospital and a grant of \$500 will be given toward defraying the cost of the \$23,000 wing to the general hospital.

BEGINNINGS OF ZOOLOGICAL GARDEN.

The city is soon to have an attraction of unusual interest. Plans are under way for the development of the East End City park and the establishment of a small buffalo herd in connection with it.

This is the outcome of a suggestion of the late Hon. Frank Oliver when the minister of the interior was in the city the mayor had a conference with him with reference to the city's obtaining three buffalo, a bull and two cows, from the government herd, to be maintained at the city's expense in one of the city parks. The minister of the interior gave it as his opinion that the government would have no objection to providing us with these three animals provided that the city undertake to care for them and maintain them properly.

The original intention was to take the bison from the Pablo herd now at Lamont. The intention now is to select animals from the herd maintained for them an equal number of the Pablo herd in the National park.

The cost of the enclosure, buildings and support of the herd was set forth in a report from the commissioners last night as follows:—

3000 feet fencing, 2 ft. 6 in. high, 240	Enclosure for hay	80
Cost of labour	150	
Total	\$680	
Estimated cost of hay	80	
The posts will be of tamarac, 12 ft. long, not less than 5 in. at the top and not less than 7 in. at the butt. The wire netting is Dillon's. There is a sough on the East End park from which the animals might drink. They would only require to be fed hay in the fall, winter and spring months of the year. It is suggested by the commissioners that these buffalo might form an attraction in this park, and that possibly in the future other animals might be added, subject to some extent increasing the traffic of the municipal street railway. <p>The report was adopted and passed. Some of the aldermen expressing themselves in favor of establishing a zoological garden in the East End containing all the characteristic fauna of the country and continent.</p>		

MAY BE VICTIMS OF SASKATCHEWAN.

From Wednesday's Bulletin.

Capt. B. J. Saunders, surveyor, has returned from a five weeks' trip in the Rockies. The captain and a party of six other men left Inisfail for Rocky Mountain House, five weeks ago to-day, taking with them provisions and ten pack horses.

Four of the party have returned. They are Capt. Saunders, Sam L'Hirondelle, Everest L'Hirondelle, and Frank G. Coffin. The other three, Frank Smith, Fred Smith and Jack Hutchinson, left Rocky Mountain House by boat on Saturday to come down the river. They should have arrived in Edmonton on Monday, but nothing has been heard of them, and Captain Saunders is becoming very anxious. The men are two days overdue now, and unless they arrive within another two days Captain Saunders will go in search of them: Rocky Mountain House, where "the ruins of an old Hudson Bay post, is 200 miles up the Saskatchewan.

The purpose of Capt. Saunders' trip was to ascertain the feasibility of the construction of a railway running north and south between the Grand Trunk Pacific and the main line of the C. P. R.

"I am not at liberty to say who is projecting this road," said the captain, "but I think there is no question as to the practicability of constructing it. The proposed railway will run on the east side of the mountains."

Provisions a week ago last Friday had been compelled to go on short rations. For two days before the captured home they had nothing at all to eat.

The party found great difficulty in getting through the country, the fall and winter snows making the trail impassable. It took eight days to make Rocky Mountain House from Medicine Lodge hills, a distance of 150 miles.

Capt. Saunders says there are many losses at Moose Jaw along the Saskatchewan east of the mountains. They are for the most part Americans. According to him there is little to justify a gold rush into the mountains.

SENTENCED FOR HORSE STEALING.

Constable Davies, of the R. N. W. M. P. force, at Moose Jaw, arrived in the city yesterday with a prisoner named Alfred Thompson. Thompson was arrested at North Portal on the charge of selling stolen horses under false pretences, and was sentenced by Justice Wetmore, of the supreme court at Moose Jaw, to two years in the penitentiary.

THE MILKMAN'S OPPORTUNITY.

dry-farming expert of Nebraska, Colo., whose system of cultivating land has revolutionized the semi-arid districts of the United States.

One of the striking features of our expanding agricultural and industrial enterprises is the conspicuousness of the absence of dairying in many of the most thickly settled districts. By dairying in this case we do not simply mean the keeping of cows, their milking and the sale or manufacture of cream, but in every district where there is a regular occurrence for the traveling public to stop at hotels where only the imitations of milk appeared upon the tables. Some of our new growing cities depend for their milk supply upon more than two or three small dairies, and a few struggling cows. We do not cite these instances to disparage the towns and cities so circumstanced, but to show what a large opportunity there is for the man who will take up this line of work. There are some dairies we know of, the cows which are making as much as \$75.000. Two farmers were overcome while fighting the flames. Barely had the firemen returned from the fire when they were summoned to another fire of incendiary origin in the basement of a three story brick warehouse in the business section occupied by the Prince Furniture Co. While the building was saved, the stock valued at \$10,000 was totally ruined.

Before the firemen were finished with their work at the second fire they were called to another business fire in the business section occupied by the Prince Furniture Co. While the building was saved, the stock valued at \$10,000 was totally ruined.

THE ARTIFICIAL GAS FRANCHISE WAS ENDORSED

Big Vote Cast Yesterday by the Ratepayers—Hospital Grant Also Endorsed—Natural Gas Franchise Rejected.

As a result of yesterday's election on the city bylaws the Artificial Gas company have been granted a franchise by an exceptionally large majority and the Natural Gas Co. have lost their franchise by a correspondingly large vote.

The bylaw to raise \$50,000 for the city hospital was the largest endorsed by the voters.

The vote was the largest ever polled in the city on bylaws submitted to the burgesses. There was a great deal of interest in the contest and 600 electors appeared at the polling booth, casting 1344 votes in all. The amount of work in connection with the election can be estimated from the fact that the returning officer was over four hours in counting the ballots.

The result is as follows:—

Bylaw No. 105, to raise \$50,000 as a loan in aid of the construction of a City Hospital.	973
Against	247
Bylaw No. 111, to grant to the North West Gas and Oil Co., Ltd., a special franchise for the supply of natural or artificial gas.	325
For	670
Bylaw No. 112, to grant C. S. Eaton and M. E. Springer a special franchise for the supply of artificial gas.	1083
For	124
Against	124

Mr. Eaton, in speaking of the vote on the artificial franchise said: "I am delighted with the result of yesterday's vote, although not particularly surprised. The agreement between the city and the International Heating and Lighting Co. is one in which the city is fully protected. I question if a gas company ever accepted so restrictive a franchise. My company is satisfied, however, and will commence work as soon as possible. The company will expend \$300,000 and will employ 200 men in installing the plant.

"I may also add for the satisfaction of the public of Edmonton that the International Heating and Lighting Co. will not charge the maximum prices for gas named in the agreement."

Forty-five Cent.

Isn't much, but it will be the best pound of Java Coffee to be had.
