STOCK-TAKING has found our Millinery Department with too many Hats on hand, a condition at this time of the season that requires prompt action, if we would dispose of them.

To make an immediate clearance certain, we have gone through the entire stock, and marked them at the lowest point regardless of cost.

The range of colors is most complete, including Champagne, A net, Prunella, Black, White, Brown, Mole, Navy, Alice, Aeroplala, V. Rose, Grey, Tuscan, etc., etc.

We would advise all those contemplating purchasing Millinery the advantages to be gained by an early visit this week, while the assortment is large.

MAIL ORDERS FILLED

Editor Evening Telegram.

Dear Sir.—Any one who witnessed the voluntary and most enthusiastic reception given the two popular mechanics—Messrs. Myrick and Mullaly—candidates for Municipal honors, at the Reid Co's. premises on Friday afternoon could certainly say that at least the mechanics and labourers, to the number of 500, are fully alive, and assured the candidates of their hearty support. Mr. Geo. McDonald, master boiler-maker, on the premises delivered a most interesting address paying high tribute to the qualification and fitness of Messrs. Myrick and Mullaly as representatives of mechanics and labourers. He said in effect:—"I have been associated with them for years in their endeavours to uplift the mechanics. I refer now to the work done by those two men in the Mechanics' Society some few years ago." (Cheers.) He then called on Mr. Mullaly to say a few words which he did in good style. At its conclusion Mullaly was cheered to the echo. Then a voice from the crowd shouted out: "What's the matter with Myrick?" "He's all right," Mr. Myrick in an appropriate speech sincerely thanked his fellow-workmen for the enthusiastic reception tendered, and promised that should they be honoured with a seat at the Council Board that they would do all in their power in the best interest of the citizens generally. The informal gathering ended with hearty cheers for the candidates. Various were the opinions expressed as to the fitness of Myrick and Mullaly, and all came to the conclusion that both men were not only practical but most independent — a most necessary qualification for every Councillor to possess.

Yours respectfully,
ONE WHO WAS PRESENT.

June 17th, 1910.

Pleasant Visit to Smith Sound.

Editor Evening Telegram.

Dear Sir.—With your permission I would like to say a few words in your paper about a recent visit I had to Smith Sound, T.B. To begin with I paid a visit to that beautiful locality about thirty years ago, and as I sailed up the Sound this time I could not help wondering at the many changes for the better that one can see all around. As you sail up the Arm, that beautiful little town, Britannia Cove, with its nice houses, churches, schools and hall and mercantile premises of J. T. Currie, Esq., tells its own story of improvement. But, Mr. Editor, the greatest changes that I see all around is Broad Cove shore, from Foster's Point up as far as Snook's Brook. Thirty years ago there was only four or five families on Broad Cove shore. It was then a wilderness, now it has about sixty families, with two schools, a beautiful church and Orange hall, and thanks to the Liberal Government and energy of the late Noah Baird in carefully handling every dollar at their disposal, they have beautiful roads; and as far as I can see everything is on the upward grade. There is another industry here, conducted by Pitman Bros. Here also is a marked change for the better. With their steam and machinery everything is in order for making brick. They have on hand now about one hundred thousand splendid brick, and I would advise contractors and others wanting brick to place their orders with Pitman Bros. if they want good, reliable brick. There is one grievance the people have to put up with and that is their mail service. Until this winter the mailman lived at Shoal Harbor, and as soon as the mail came he brought it down, and if a man wanted to send a return letter he could send it on the same day. But the Tories got it changed to suit their heels. A person has got to wait a week now to get a letter back if ever so urgent.

Now, Mr. Editor, I must close for I am afraid of the "basket"; but I must say I enjoyed my visit in that locality, and if there are any who need a rest from business they won't find a more pleasant spot to spend a week or two.

Yours,
VISITOR.
Broad Cove, Smith Sound, T.B.,
June 14th, 1910.

Services Yesterday.

Rev. R. H. Mercer, of Sound Island, preached at George St. Church yesterday morning and at Gower Street Church last evening. The sermons were earnest and soul-stirring. Mr. Mercer is a native of Bay Roberts. At an early age he devoted his talents to the work of the ministry and fitted himself both by probation and duty for the important work. He is certainly in love with his calling and will make his mark as a pulpit orator. The people of Sound Island are fortunate in having such a capable preacher.

KEEP MINARD'S LINIMENT IN THE HOUSE.

Makes Hair Grow.

ASK MCMURDO & CO.

McMurdo & Co. has an invigorator that will grow hair or money back. The time to take care of your hair is when you have hair to take care of.

If your hair is getting thin, gradually falling out, it cannot be long before the spot appears.

The greatest remedy to stop the hair from falling is SALVIA, the Great American Hair Grower, first discovered in England. SALVIA furnishes nourishment to the hair roots and acts so quickly that people are amazed.

And remember, it destroys the Dandruff germ, the little pest that saps the life that should go to the hair from the roots.

SALVIA is sold by McMurdo & Co. under a positive guarantee to cure Dandruff, stop Falling Hair and Itch of Scalp in ten days, or money back. A large bottle costs 50c. The word "SALVIA" (Latin for sage) is on every bottle and is sold by dealers everywhere.

Favors Mr. Fitzpatrick

Editor Evening Telegram.

Dear Sir.—Mr. Fitzpatrick will make an ideal Councillor. While not in any way reflecting upon the merits of the other candidates, I have not the slightest doubt that Mr. Fitzpatrick would give us exceptionally good service in his capacity as a civic dictator, as his qualifications are from every standpoint fully up to the standard we should look to. His interests as a property holder and as a man of independent means causes him to stand out prominently as one in whom every ratepayer could have the utmost confidence. As this is the chief essential that is necessary, all who have the welfare of the city at heart ought to bear Fitzpatrick well in mind on polling day and record for him a vote that will give him not alone a place among the winners but a position well upon the top of the list.

Yours truly,
CIVIC VOTER.

Man Shorn of Strength

Weak Liver so Undermined
His Vitality That He Almost Died.

"Early manhood vigor easily led me to view irregularities of my system as incapable of affecting my strength. I am a barrister," writes a well-known legal light, "and there are times in our professional work so exciting and exhausting that any weakness reveals itself in all its naked awfulness. Pressure of work prompted me to ignore some of the distressing symptoms of impaired liver activity—sour stomach, fullness after eating and dullness of intellectual activity. It was not until a severe attack of sleeplessness following an exacting session of court, and a nervous excitability that later developed, that I realized fully my condition. My physician ordered complete change and rest, but my engagements rendered impossible this course.

"To correct the system I began using Dr. Hamilton's Pills, and to my delight, not only did they establish regularity, but the liver activity of my earlier days returned. The solution of my health problem was immediate, digestion improved, appetite became active, and my nerves were speedily up to my old fighting mark. Please head me as a Dr. Hamilton Pill man."

The Shipwrights Refuse Wages.

The Telegram noted recently that the shipwrights of the city had made a demand for \$2.50 per day for work done on local shipping. The mercantile body was notified of this and the men who immediately employ the union workers, but the mechanics say that nothing was said, and the belief entertained by them was that silence meant consent. Saturday evening the 40 odd men who are working on the various jobs in the city were offered \$2 per day for their week's work but refused and left, leaving the money in the hands of their employers. Their union is incorporated, and the men say they will not accept anything less than \$2.50 for the last week, and will not work for anything less in future. Some few who worked at odd jobs on schooners in their own behalf last week received \$2.50 per day from the owners. The men assembled on Dunder's premises to-day to take steps to protect themselves and form plans for their future guidance.

One reason why Carpenter-Morton Roofing is getting so popular is because it is so easy to put on and wears after it is on. You don't have to keep fussing with it. It does not break through like a lot of cheaper roofings on the market. Once it is put on, it stays on, and it lasts and wears. It is guaranteed for years. The Horwood Lumber Co., Ltd., local agents.

Live Stock Perish.

A couple of days ago Mr. John Rice, of Harvey Road, arrived here from Toronto with 34 head of cattle and 9 horses of a splendid breed, all of which he selected himself. On the way across the Gulf, the Bruce in which they came, met bad weather, the hatches were battened down and from lack of ventilation four of the horned cattle—worth \$60 each—perished. They were not insured and this is a serious loss to the owner.

ished. They were not insured and this is a serious loss to the owner.

STRICKEN WITH EPILEPSY.
Saturday evening a young man passing down Water Street, near Beck's Cove, was stricken with epilepsy and fell very heavily to the ground. He was a long while unconscious, and was attended to by the police and some citizens.

A Sudden Death.

About 9.30 Saturday night as Mr. James Hudson, of Henry Street, accompanied by his wife, was returning from a visit to his son's residence in Georgetown, when passing out near Rawlins' Cross was seized with a sudden illness and fell to the street, dying in a few moments. People passing ran to the stricken man's aid and he was conveyed to the surgery of Dr. Macpherson near but was beyond help, death having overtaken him very quickly. Rev. Fr. O'Callaghan was promptly summoned from the Cathedral but when he arrived life was extinct. Dr. Macpherson pronounced death to be due to heart disease. Mr. Hudson, who was over 70 years old, was for the past 13 years night watchman at Bennett's Brewery and was well known and respected in the community. To his widow and family the Telegram extends its condolence.

To-Night's Match.

The Stars—last year's champions—and Collegians, the latter an excellent football aggregation, meet to-night at St. George's Field. It is to be hoped that fine weather will prevail. The line up will be:—

Star—Keefe, goal; J. Hart and A. Nother backs; L. Kavanagh, T. Jackman and W. Duggan, half backs; Brien, Adams, E. Power, Morgan and Duffey, forwards.

Collegians.—Butler, goal; Gear, and Thomas, backs; Sparkes, E. Barnes and A. Pike, half backs; Bastow, St. Hill, Aitken, Penney and S. James, forwards.

BRIGADE MATCH.—The first Brigade match for the season will take place between the C. F. C. and C. L. B. to-morrow evening.

The Invermore Back.

The S. S. Invermore, Capt. Parsons arrived here at 12.40 p.m. yesterday from Labrador. The ship went as far north as Macovic, a distance of 859 miles, and about 80 miles this side of Nain. There was no ice on the coast. Nearly all the schooners were down and had their trap berths secured. There was a good sign of fish from Domino to Battle Harbor, and several traps had from five to ten quintals the early part of last week. The weather was very stormy on the return trip and the ship had to put up for two days at Hawke's Harbor. The storm that prevailed last week threw a heavy sea in all along the coast and prevented fishing.

Portia From the West.

The S. S. Portia, Capt. Fitzpatrick, arrived here at 6 a.m. yesterday from the westward. She left here on the 10th inst., and except for a couple of days, last week when a gale of N. E. wind was experienced with heavy sea, she had the weather. The ship brought a small freight and these passengers:—Messrs. P. F. Power, McDonald, J. J. Curtis, J. Fowler; Mrs. Edstrom; Misses Quinland (2), and Edstrom and 5 second class.

SCHOONER IN TOW.—Coming this way the a.s. Susu called at Catalina and took in tow for this port the schr. Gertrude L. When the ship had come about 15 miles on her way the hawser parted owing to a heavy sea running. Later the hawser was spliced, but fearing it was not strong enough to again stand the strain the schooner was towed back to Catalina and will be brought up next trip.

Special Clearance Sale of Dry Goods.—You should take advantage of our Genuine bargains. Big reductions on every line. —SIMPSON'S, Rawlins' Cross.

THE PROGRAMME OF To-Morrow's Events.

WE WILL ALLOW A DISCOUNT OF
10 per cent.
