

Exceptional Value

Girls' ALPACA COATS

As Spring creeps on and warm days make their influence felt, many mothers are concerned in getting Coats for their girls to meet the seasons requirements. We believe to-day we can suit you.

ALPACA COATS

for your Girls, in Navy, Grey, White and Brown.

PRICES FROM

\$1.20 up to \$2.50.

ACCORDING TO SIZE.

We are ready for the Girl who has not already purchased her Summer Coat.

S. MILLEY, Water Street.

Household Notes.

Alum meal is excellent for a dry skin. Lemon and salt will remove stains from varnished wood.

Borax is used for giving additional gloss to starched fabrics. For sprinkling clothes, a handy article to use on wash day is a flower sprinkler.

Emery powder and oil made into a paste is an excellent mixture to clean steel.

To bone collars, try using the wire taste such as milliners use for stiffening bows.

An easy way to stop windows from rattling is to use broken clothes pins as wedges.

Rolls of pieces may be kept neat by slipping a band of elastic tape over each roll.

Do not tear carpet rags as the edges will be rough and will catch dust. Instead, cut them.

Rob new shoes over with a slice of raw potato, and they will polish as easily as old ones.

Use borax for softening the water for the bath. It is also a valuable disinfectant and antiseptic.

Nickel and silver may be kept bright by rubbing them with a woolen cloth saturated with ammonia.

Do not use ammonia to clean black goods; this is a common cleanser, but it makes woollens look rusty.

Large eyelets in embroidery will keep their shape better if they are not cut until the embroidery is done.

A little mashed potato is a great improvement when making stout crust for puddings of meat and fruit.

The Open Door for Consumption

And How "Father Morrissey's No. 10" (Lung Tonic) Closes it.

A low run-down condition, with perhaps a neglected cold and a little cough, is a cordial invitation to the White Plague, Consumption, to come in and make itself at home. And it seldom overlooks the invitation.

In such a case there is no time to be lost. The door must be promptly closed. This can be done by taking a complete rest, with plenty of fresh air, and "Father Morrissey's No. 10" (Lung Tonic). This medicine clears out the passages, relieves the cough and heals the delicate membrane of lungs and air passages. But perhaps the most important of all, it builds up the whole system, giving Nature the needed assistance in fighting off the dread disease.

Though other remedies may have failed, don't give up. Try "Father Morrissey's No. 10," combined with fresh air and exercise, and even though you are in the first stages of consumption there is hope of a permanent cure. Sample bottle 25c. Regular size 50c, at your dealer's, or from Father Morrissey Medicine Co., Ltd., Montreal, Que.

U.S. After C.P.R. is a Rumor Keeping Railway Men Busy

Although Sir Thomas Shaughnessy has laughingly dismissed the idea of the Standard Oil Company seeking to acquire a controlling interest in the stock of the Canadian Pacific Railway, the rumor has aroused extraordinary interest in railway circles, and is being much discussed to-day among leading officials.

It is pointed out as a remarkable fact that ever since the reciprocity agreement has been in the air, the price of the C. P. R. stock has been steadily advancing, until now it is considerably higher than at any time in its history.

"About the quickest way in which the United States could annex Canada," said one official to the Star to-day, "would be for the great American trusts to get control of Canadian railways. If they did they would have such a hold on the country that the Canadian people would be helpless. Look at what the Standard Oil and the Rothschilds have done for our Nickel industry. They hold the control of it, with the result that while a certain amount of refining is done in Canada, all the expensive work in connection with the nickel mined in Canada is done in the United States. Canada is simply left with the hole in the ground, and is helpless to make her enormous nickel deposits contribute as they should contribute to the wealth of the country."

"There is not the slightest doubt that the United States are after our natural resources with a view to working them up in American factories. They are coveting our country, and I believe American trusts already have their eyes on our railways with a view to getting control of the enormous influence exercised by those railways."

That there is something big doing in connection with C. P. R. stock is the opinion of most officials consulted on the matter. It is pointed out that shortly before Sir Thomas sailed for England this spring he took the unprecedented course of issuing a circular to shareholders advising them to hold on to their stock, and promising them still better things to come.

Sir Thomas pins his faith to the wide distribution of C. P. R. stock among thousands of small shareholders. This, he thinks, will preserve the control of the company from ever passing into the hands of a small group of men. At the same time the advancing price of the stock and the appeal to the shareholders to hold on.

MINARD'S LINIMENT USED BY PHYSICIANS.

Montreal, Que.

are taken as evidence that, even if Standard Oil or some other big American combination is not after the railway, there is at any rate something doing behind the scenes.

Work of Scientists Arouses Jerusalem

Jerusalem, Palestine, May 3.—The inhabitants have been aroused to the point of rioting by the operations of a party of English archaeologists, who are accused of having excavated beneath the inviolable mosque of Omar and removed relics reputed to include the ark of the covenant, the cenotaph and other sacred vessels which belonged to the tribes of Israel.

A Sem Bey, the Turkish Governor, was mobbed on the streets for supposed complicity in the profanation and hoisted as "a pig."

The Mosque has been closed and is closed and guarded pending the arrival from Constantinople of officials of the Government, who will make an investigation. The expedition worked for two years on a large scale, beginning at the village of Siloam, which lies at the southeast end of Jerusalem on the southern slope of the Mount of Olives overlooking the Valley of Kedron and the Pool of Siloam.

The explorers are credited with having excavated a passage from the Pool to Siloam toward the place where once stood Solomon's Temple, built in 1012 B.C., pillaged and robbed and finally destroyed by Titus A.D. 70. Failing to reach the relic's sought in this manner, the explorers according to the alleged confessions of the guards of the mosque, bribed the guards, entered the mosque, and after digging on six nights, spirited away the treasures.

"The whereabouts of which," says Arab paper, "no one knows except God and these English."

Mystery surrounds the expedition, whose operations have been of such magnitude as to make evident that a large sum of money was invested.

NEWFOUNDLANDERS ON ELLINOR.—There are 11 Newfoundlanders on the Ellinor, all of whom belong to Rose Blanche and who were engaged there and proceeded to Halifax to join her. Mr. W. Day, of the Naval Reserve, and formerly of this city, is on board the ship and has been on her for some time past.

MORE THEFTS OF CASKS.—Sergeant Byrne yesterday afternoon arrested a resident of the West End, who is charged with the larceny of oil casks from Geo. Neal's and other places. A number of young chaps of late have been stealing these packages from various wharves along the harbor front.

Cable News.

Special Evening Telegram.

LONDON, May 9.

Lack of interest in the Veto Bill in the House of Commons, the result of which was a foregone conclusion, is shown by the fact that at one time to-night Winston Churchill was the only Liberal present. When however, they were needed for divisions the Liberal members were always forthcoming in sufficient numbers, using the Government majority on more than one hundred occasions. Several Opposition amendments to the Bill were defeated by means of the guillotine. The Preamble and all the clauses have been disposed of.

Special to Evening Telegram.

LONDON, May 9.

A suffragette wedding took place yesterday in a church at Brighton. The suffragettes gathered in force with tri-colour flags, emblematic of freedom, purity and honour. The bride and groom exchanged rings. There was a specially worded marriage service, which declared that the couple united themselves on the ground of perfect equality, as comrades and helpmates in whatsoever circumstances life might bring them.

Special to Evening Telegram.

NEW YORK, May 9.

A telegram from the Grenfell Missionary Association to Dr. Grenfell from Battle Harbour, Labrador, says that between 5,000 and 8,000 settlers on the Labrador coast are suffering severely from food shortage, the effects of the severe winter. The people at the coast are starving and have wired the Government for help.

Special Evening Telegram.

OTTAWA, May 8.

A political rumour is current to-day that Sir Wilfrid Laurier intends going to the country on the Reciprocity question next fall in the event of the United States Senate passing the Agreement.

Steamer Short of Coal.

At 7 p.m. yesterday the s.s. Fornebo, Capt. Hansen, arrived here to get a supply of coal. The ship is bound from South Shields to Sydney and Montreal and was 16 days on the run. She met stormy weather which practically exhausted her supply of fuel. This is the ship's first visit to this port. Mr. Tasker Cooke is looking after the supplying of the ship.

MORE DIPHTHERIA.—One of the boys of Mount Cashel, who had developed diphtheria, was removed to the Hospital yesterday afternoon. A patient from Tessler Place and another from Circular Road were also taken to Hospital suffering from the same disease. Both these were females. A Miss Moore was discharged from Hospital, she having recovered from the disease.

INGRAM TAKES SEALERS.—The tug Ingham sailed to-day for the northward taking the crews of the Diana and Erik to Wesleyville and other places. The King's crew proceeded home by yesterday's express. All have made fair wages this spring.

Blood Poison in Hand.

Zam-Buk Works a Wonderful Cure.

Mr. Jas. Davey, of 786 Ellice Avenue, Winnipeg, and a fireman at the Hudson Bay Company's stores, says:—"A few months since I was cured of a poisoned finger through the timely use of Zam-Buk. I cut a deep gash across the knuckle on the first finger of my right hand in opening a lobster can. I suffered at the time with the soreness and pain, but had no idea it would become a serious wound. However, in about two days I was greatly alarmed as my whole hand and arm to the elbow became suddenly inflamed, and the finger was much discoloured, showing signs of blood-poisoning. The pain was dreadful and I was forced to leave off my work and go home."

"The wound on the knuckle had been poisoned through the dust and dirt about the furnaces and boilers. I then decided to start the Zam-Buk treatment, and having first bathed the wound, I applied the healing balm. It soothed the pain almost instantly, and by the next day there was a great improvement. The pain was relieved and the inflammation lessened. In a week's time, through perseverance with this wonderful preparation, a complete cure was brought about."

Zam-Buk is just as good for eczema, ulcers, scalp sores, abscesses, piles, ringworm, boils, varicose ulcers, running sores. It draws all poison and foulness from a wound or sore and then heals. Use it too for cuts, burns, bruises, and all skin injuries. Zam-Buk Soap should be used in conjunction with the balm for washing wounds and sore places. Excellent too for baby's bath."

All druggists and stores sell Zam-Buk at 50c. box and Zam-Buk Soap at 25c. tablet. Post free upon receipt of price from Zam-Buk Co., St. John's, Nfld.

"The Old Days."

Give me the 'old days' that I spent up to the school. Though they may bring with them the master's cruel 'rule.' Though they may bring the lessons that I used so much to hate, I crave for the days of the Reader and Slate.

Give me the days when I'd mimic all the birds. And on my journey home from school would frighten grazing herds; Give me the days when I'd whistle 'bout my work— The days of a young heart that had no time for mirth.

Ah! 'tis the 'old days' each heart doth yearn for so; Though half of those 'old days' meant sorrow and woe; The days spent with mother and father at home, To the heart of its longings make the far greatest loan.

SCHOOL MASTER. Sandy Point, Bay St. George, May 6th, 1911.

THE ELLINOR ARRIVES.—The Canadian surveying ship Ellinor, Capt. Coombes, arrived here at 2 p.m. yesterday and will be docked here for a clean up and some necessary repairs. She left Halifax Saturday afternoon and had a good run to port. The ship will make her winter quarters here, and after coming off dock will go on her surveying mission.

Came to Hospital.

Yesterday Mr. Oldford, of Musgrave Harbor, arrived here to go to the Hospital for treatment.

While chopping wood near his residence some time since a splinter flew from the axe and hit him square in the eye which was injured so badly that the sight of the optic is almost gone. Mr. Oldford suffered much pain as a result of the accident and has gone to Hospital to undergo an operation.

Labor Day Parade.

The Labourers' Union will meet next week to arrange for the celebration of Labor Day this season. The parade will be one of the best in the history of the organization and the sports in the afternoon will be well contested and of an entertaining character. The festivities will wind up with a dance at night.

Indigestion & Dyspepsia

In all its Forms can be Cured. It is quite a daily occurrence to hear persons say: Oh, what a feeling of distress I have after meals, fullness of the stomach, heaviness and headache, I feel too tired to do anything. I have no heart to exert myself and at times I care for nothing. I often have a pain in the pit of my stomach, no appetite, my heart beats rapidly on the slightest exertion. I feel just as tired when rising in the morning as when retiring to bed. My sleep is often disturbed, and I often awake with a sense of suffocation and a difficulty of again going to sleep. I have to be careful of what I eat, and my life seems a veritable burden.

Now, it seems a shame and a pity for persons to be suffering like that when it is in their power to get cured by taking a Bottle of Dr. Stafford's Prescription A. A sure cure for persons afflicted with stomach troubles. It can be obtained at

DR. F. STAFFORD & SON, Duckworth Street and Theatre Hill. Small size, 25 cents; postage, 5c; extra, large size, 50 cents; postage, 10c. extra. Mail orders must be accompanied by remittance.—Oct 29, 1911.

Here and There.

INVERMORE ARRIVED.—The s.s. Invermore arrived at Port aux Basques at 7.40 a.m. to-day.

VISITING FRIENDS.—Constable Gardiner of Harbor Breton went to Kelligrews yesterday on a visit to friends.

PATIENTS ALL RECOVERING.—All the small pox patients at Seal Cove are recovering. The quarantine will be raised in a few days.

NEW GROCERY STORE.—Mr. P. Laracy has added a grocery store to his business on Water Street. Mr. F. R. Broderick is foreman.

SIX ARRESTS.—The police made six arrests for drunkenness last night. One was discharged and the others were held to appear before the Magistrate this morning.

THE FIRST CODFISH.—Yesterday the first codfish was taken by boats which went out from Quidi Vidi. Cod were also caught on the Southern Shore and at Blackhead. The fish were of fair size.

GIRLHOOD AND Scott's Emulsion

are linked together. The reason is that at a period when a girl's digestion is weak

Scott's Emulsion provides her with powerful nourishment in easily digested form. It's the food that builds and keeps up a girl's strength.

By Authority.

His Excellency the Governor in Council has been pleased to appoint

A. W. Piccott, Minister of Marine and Fisheries, President (ex-officio), A. I. W. McNelly, Esq., K. C., J. R. Bennett, Esq., M.H.A., Robert Moulton, Esq., M.H.A., W. C. Winsor, Esq., M.H.A., E. G. Grant, Esq., M.H.A., L. E. Keegan, Esq., M.D., Thomas Winter, Esq., W. J. Carroll, Esq., F. McNamara, Esq., W. H. Bartlett, Esq., G. E. Motley, Esq., W. B. Solter, Esq., J. W. Penny, Esq., Alex. McDougall, Esq., W. H. Rennie, Esq., J. F. Tompkins, Esq., (Little River), Norman Fisher, Esq., (Bay of Islands), C. Fitzgerald, Esq., M.R.C.S. (St. Jacques), R. Mossell, Esq., (Port aux Basques), and W. Sinnott, Esq., (Placentia), to be the Game and Inland Fisheries Board, under the provisions of Section 1, Chapter 29, 10 Edward VII.; Arthur Barnes, Esq., to be a member of the Council of Higher Education, in place of A. J. Harvey, Esq., resigned; Mr. Wm. C. Gear, to be Sub-Collector of Customs at Lark Harbour, in place of Mr. Henry Norman, transferred; Mr. Henry Norman, to be Sub-Collector of Customs at Humbermouth, in place of Mr. Wm. C. Gear, transferred; Mr. Wilfrid Pippy, to be a Deputy Surveyor of Crown Lands; Messrs. Elias Chalk, Kenneth Hicks, George Blackwood, Alfred Hicks, Eli West, George Butt, and Israel Hicks, Jr. to be the Road Board for Carmanville North, District of Fogo; Messrs. William Goodyear, Hubert Collins, John Penneil, Azariah Parsons, and George Pennell, to be the Road Board for Noggin Cove, District of Fogo; Messrs. Victor Roach, John Whelan, Frank Dyke, Walter Ducey, Louis Briffett, Walter LeDrew, and Wm. Sweetapple, to be the Road Board for Alexander Bay, District of Bonaville; Mr. Robt. J. Matthews, to be a member of the Road Board for New Perlican, District of Trinity, in place of Mr. Peter J. Matthews, J.P., deceased.

Colonial Secretary's Office, May 9, 1911.

SHOULD BE CAREFUL.—A certain young man residing on Goodview St. is of late conducting himself in a disgraceful way. He has repeatedly threatened his mother, and neighbors say that if he doesn't mend his ways he will find himself before court.

Can't Get Away From It

Is it possible to nourish, strengthen and Rebuild the Brain by Food?

Every man who thinks uses up part of the brain each day. Why don't it all disappear and leave an empty skull in say a month of brain work? Because the man rebuilds each day.

If he builds a little less than he destroys, brain fog and nervous prostration result sure. If he builds back a little more each day, the brain grows stronger and more capable. That also is sure. Where does man get the material to rebuild his brain? Is it from air, sky or the ice of the Arctic sea? When you come to think about it, the rebuilding material must be in the food and drink.

That also is sure. Are the brain rebuilding materials found in all food? In a good variety but not in suitable proportion in all.

To illustrate: We know bones are made largely of lime and magnesia taken from food; therefore to make healthy bone structure we must have food containing these things. We would hardly feed only sugar and fat to make healthy bone structure in a growing child.

Likewise if we would feed in a skillful manner to insure getting what the brain requires for strength and rebuilding, we must first know what the brain is composed of and then select some article or articles (there are more than one) that contain these elements.

Analysis of brain by an unquestionable authority, Geoghegan, shows of mineral salts: Phosphoric Acid and Potash combined (Phosphate of Potash) 2.91 per cent. of the total, 5.33 of all mineral salts. This is over one-half.

Beaunis, another authority, shows "Phosphoric Acid combined" and Potash 73.44 per cent from a total of 101.07.

Considerable more than one-half of Phosphate of Potash.

Analysis of Grape-Nuts shows: Potassium and Phosphorus (which join and make Phosphate of Potash) is considerable more than one-half of all the mineral salts in the food.

Dr. Geo. W. Carey, an authority on the constituent elements of the body, says: "The gray matter of the brain is controlled entirely by the inorganic cell-salt, Potassium Phosphate (Phosphate of Potash). This salt unites with albumen and by the addition of oxygen creates nerve fluid or the gray matter of the brain. Of course, there is a trace of other salts and other organic matter in nerve fluid, but Potassium Phosphate is the chief factor, and has the power within itself to attract, by its own law of affinity, all things needed to manufacture the elixir of life."

Further on he says: "The beginning and end of the matter is to supply the lacking principle, and in molecular form, exactly as nature furnishes it in vegetables, fruits and grain. To supply deficiencies—this is the only law of cure."

The natural conclusion is that if Phosphate of Potash is the needed mineral element in brain and you use food which does not contain it, you have brain fog because its daily loss is not supplied.

On the contrary, if you eat food known to be rich in this element, you place before the life forces that which nature demands for brain-building.

Mind does not work well on a brain that is broken down by lack of nourishment. A peaceful and evenly poised mind is necessary to good digestion.

Worry, anxiety, fear, hate, etc., etc., directly interfere with or stop the flow of Pyralin, the digestive juice of the mouth, and also interfere with the flow of the digestive juices of stomach and pancreas.

Therefore, the mental state of the individual has much to do (more than suspected) with digestion.

Brain is made of Phosphate of Potash as the principal Mineral Salt, added to albumen and water.

Grape-Nuts contain that element as more than one-half of all its mineral salts.

A healthy brain is important, if one would "do things" in this world.

A man who sneers at "Mind" sneers at the best and least understood part of himself. That part which some folks believe links us to the Infinite.

Mind asks for a healthy brain upon which to act, and Nature has defined a way to make a healthy brain and renew it day by day as it is used up from work of the previous day.

Nature's way to rebuild is by the use of food which supplies the things required. Brain rebuilding material is certainly found in
