INTER CLUB BILLIARDS. Masonic Bill Holding Comfortable Lead.

The Inter Club Billiard Tournament games, between the B.I.S. and Masonic Clubs, are being followed with ever-increasing interest by the supporters of both organizations, and the game as played last night, between W. J. Martin (Masonic), and J. Hickey (B.I.S.), proved to be no exception. After a hard fought and interesting game the former won the honors by the small margin of two points, and as a result the Masons are still holding the lead by a majority of 167 points. The first game, scheduled for the night was J. Wornell (Masonic) vs. A. O'Brien (B.I.S.), but owing to the fact that the latter player is ill, the game had to be postponed. O'Brien, unfortunately, will not be able to play in the series and his place will be taken by C. O'Neill.

Mr. Hickey, for the B.I.S., took an early lead in the second game last night, and when the 300 mark was reached he had a lead of 79 over his opponent, Mr. Martin, who was playing a steady game throughout the match, usually narrowed down his opponent's lead by several petty breaks, and when Hickey was 384 he was 384, and it was anybody's game. The outcome terminated, however, in a win for Mr. Martin, by two points. The breaks were:—

W. J. Martin (Masonic)—400—16, 13, 11, 10, 11, 13, 14, 10, 15, 11, 10, 11, 13, 16, 17, 13, 14, 13—237. J. Hickey (B.I.S.)—598—13, 16, 26, 19, 17, 10, 19, 12, 14, 13—158. To-Night's Game. 7:30—D. P. Duff (Masonic), vs. N. J. Wadden (B.I.S.).

BANKERS' BOWLING LEAGUE. The annual series of games of the Bankers' Bowling League opened at the Alley in the Seaman's Institute, yesterday afternoon, when the Bank of Montreal and Canadian Bank of Commerce, opened the series, the 3 frames being won by the latter team. A noteworthy feature of the game was the splendid score made in the last frame by Phoney, of the Commerce team, who rolled 234. The games will be played at regular periods until the schedule is completed. The following are yesterday's scores:—

Montreal 1 2 3 T.L. Carmichael 49 90 82 231 Huggitt 144 120 112 376 Butt 97 125 101 323 Netten 134 111 124 370

HOCKEYISTS IN TRAINING. Four-Cornered Fight For Championship. The season for hockey, the game of all games, is fast approaching in our midst, and although the forthcoming games are not being discussed very much, nevertheless all four teams, viz., Pellidians, St. Bon's, Terra Nova and Guards will again form the League. The players of the respective teams have been training indoors quietly for some weeks past and by

Bank of Montreal Opens Branch at Corner Brook

Twenty-four years ago this autumn the Bank of Montreal, the pioneer Bank in this part of Newfoundland, established its first branch on the West Coast at Corner Brook. For the first year it was located in the Western Star building. It later moved into quarters of its own. Ten years ago it erected a splendid concrete building here. A few years later it established a branch at St. George's and now a branch has been established at Corner Brook. The substantial building has been erected. It is situated on Main Street, in the business centre of the town. The building has a frontage of 28 feet and a rearage of 50 1/2 feet, two storeys and a full concrete basement. The outer walls of the main part are of brick veneer. Inside, the walls are plastered, and the finishings are of Douglas Fir. The banking offices are on the ground floor. It is very conveniently laid out, affording ample room both for the clerks and the public. The manager's office is located to the right immediately inside the vestibule. The manager's residence quarters are on the first floor, and are accessible by a hall and stairs off the vestibule to the left. The building is heated by hot water system, lighted throughout by electricity, and the kitchen is fitted with an electric range.—Western Star.

Bonne Bay Notes

No vessels have arrived at Bonne Bay this season for herring cargoes. The Sagona landed about thousand barrels herring here on her previous trip from Straits-Belle Isle. Some six firms have been packing herring and five or six other individual packers have put up a few. A number of men from Bonne Bay and vicinity have gone to North Brook to engage in pulpwood cutting. At Trout River little has been done with herring. The catch there is said to be only between one and two hundred barrels. The herring fishing has not been very brisk. On Thursday catches ranged from 200 to 300 lbs. per day. The fish are of a good run in size and quality. God continues fairly plentiful and boats get from 200 to 300 lbs. per day when weather is favorable to get on the grounds. There are some 20 boats codfishing. The herring fishery at Bonne Bay to date has amounted to about one thousand barrels. Of this amount about half has been packed by the Scotch method, and the balance rippled.—Western Star.

Little Jack Rabbit by David Cory

"Chickadee! Chickadee! That's the name of Little Me. I'm a cheerful little bird. As no doubt you've often heard."

Sang Charlie Chickadee as he dangled like a circus acrobat on a cone of Professor Jim Crow's Tall Pine Tree.

"Aren't you cold?" asked Little Jack Rabbit, his pink nose twinkling in the frosty air.

"Not a bit," answered that cheerful little bird. "Loving Mother Nature has given me a thick coat of fat under my fluffy gray feather. My black feather hat keeps my head nice and warm."

"What are you doing up there?" asked the curious little bunny as Charlie Chickadee hopped on a twig and, turning head-downward, hung from his high trapeze.

"Looking for a fat grub or a nest of insect eggs," he answered, carefully inspecting the rough bark. "One must have bright eyes now-a-days to find enough food for breakfast, dinner and supper."

"Ha, ha!" laughed the little rabbit. "I have a secret."

"Tell me," cried the nimble little chickadee, drooping awfully to the ground.

"Dear me," sighed the bunny boy, "your feathers underneath are very dry."

"No, they are not," answered Charlie Chickadee. "They are more the color of dingy white than gray. But they are not dirty."

"I'm glad to hear that," replied the little rabbit. "Mother says every one should be neat and clean."

"But what's the secret you spoke of?" asked Charlie Chickadee, and the next minute he uttered three very high, clear cut notes. Pretty soon he was surrounded by maybe a dozen chickadees, for they are very sociable birds, and when one is seen, there are sure to be many more not far distant.

Pertinent Questions Editor Evening Telegram.

Dear Sir,—Now that the approaching Municipal Election has, amongst other matters, brought the question of city finances and revenue to the fore, it may not be amiss to draw the attention of all candidates to the fact that some of the present sources of revenue are not as fully exploited as they should. For instance, why the

comparatively small tax on Foreign Commercial Travellers who come in here and secure orders running into hundreds of thousands of dollars to the detriment of local commission agents; and this in spite of the fact that local men apart from their contributions to city revenue, are also large contributors to the general revenue of the Colony, as well as employers of labor etc. Against this the foreigner for a paltry \$50.00, and without any further overhead expense is free to come and go as he pleases.

Then again, what about outside contractors to whom the same remarks apply, with one or two exceptions? Have they contributed in the past? Are any steps being taken to have them do so in the future? If not, why not?

These are two instances, there are many others, but space does not permit of referring to them at this time. Before closing, Mr. Editor, I crave your permission to refer to a matter

about which John Citizen is very much in the dark, and it is this: Why is view of the city's ownership of Mobil water power which is estimated at \$500,000 h.p. did the Council enter into a twenty year contract with the Light & Power Co., to light the city streets? This cost the city \$21,000.00 per annum, which capitalized at 5% equals \$420,000.00 which would be more than ample to develop said water power, thereby becoming a source of ever increasing revenue, coupled with possibilities of cheap light to house holders. Is there an inside story? I so, let us have it. Thanking you so, Yours very truly, CURIOUS.
