REMOVAL.

G. B. FRASER

Has removed directly opposite his old stand, where he has opened with a brand new stock at much lower prices than could be bought earlier in the season.

G. B. Fraser is too modest to advertise that he is selling much cheaper than those who make a great blow. Still facts are stubborn chieftains, and a discerning public pronounce Fraser's to be the cheap store to deal in.

G. B. Fraser gives his old friends a cordial invitation, and invites all who wish to save money to call and see his new stock.

Regarding the action of our six quarterly meetings voted for the proposed Union, and nineteen quarterly meetings voted against it,—Resolved, that the above should be recorded in the Conference Journal, and printed in the minutes for further use and reference." A committee was appointed to consider the connexional situation, and report to this Conference such measures as may be deemed advisable.

THE NEW ATLANTIC CABLE.—By the end of August the people of this continent will probably be placed in cheap telegraphic connection with Great Britain. The Direct United States Company have now the first portion of their cable on board the "Faraday." This section will be laid between Rye Beach, New Hampshire, and the coast of Newfoundland, and the shore ends are to be brought by the "Ambassador." The "Faraday" will then return to Great Britain and ship the other part of the cable; which she will pay out between Newfoundland and the coast of Ireland. It is to be hoped that no accident will occur to delay the accomplishment of this new enterprise. The existing transatlantic telegraph monopoly has been a burden upon the public of the most grievous description. There is no doubt that ample encouragement will be given to the opposition company, and that the low tariff which they intend to charge will result in bringing a handsome return for the capital invested.

THE DISASTER IN MASSACHUSETTS.—Latest reports from the scene of the mournful disaster in Massachusetts add nothing to what has already been said concerning the extent of that calamity. Investigations of the ruined water works disclose the fact that there was great carelessness in construction, with a criminal desire to be economical at the expense of safety. A Committee of the Massachusetts Legislature is viewing the ground, with an intention of preparing a formal report on the subject. It is said that members of this Committee express great indignation at the business with which the reservoir was built. It is pleasant to observe that there has been a generous response to the call for help made in behalf of the afflicted villagers. Aid is coming in from all quarters, but it is explicitly stated that the urgency of the demand is still very great.

A NOVEL PRESENTATION.—J. Scott Hutton, Esq., Principal of the Deaf and Dumb Institute, Halifax, was waited upon by a party of his former pupils numbering about twenty, and presented with an address and accompanying piece of plate, as a birthday souvenir. The presentation took place in the school room, in the presence of the pupils. Mr. Inglis Munford, a deaf mute, occupied the chair, and explained the object of the meeting. John Logan then read the address, interpreting it in signs, after which a handsome Ice Pitcher and Cup were presented. Mr. Hutton's reply was in sign language. Mr. John C. Tupper, assistant teacher, made a brief address, as did others. Mr. Adam Logan offered vocal prayers, interpreted in signs by the Principal.

The work on the new canal is rapidly progressing. About 150 men are now employed in this section. The contractors say that by the end of the month they will employ 350 to 500 men more.
