DON'T EAT ECGS WHEN ANCRY A Boston Man Says It Is Dangerou and May Cause Death.

St. Louis Republic.

"Never eat eggs while you are angry," said A. E. Stewart, of Boston. "My attention was first called to this strange fact by the tragic and sud-den death of a lady acquaintance in Boston several years ago. I accepted her husband's invitation to dine with them. Just as we were going in to dinner a servant did something that caused the lady to fly into a terrible some minor complaint for several days and her husband calmed her ruffled feelings sufficiently for the dinner to be eaten in good temper. I noticed that she ate an unusual amount of soft scrambled eggs. Fifteen minutes after we left the dining-room she was a corpse. She died in frightful convulsions, before the nearest doctor reach-ed the house. The doctor was unable to ascribe the cause. A few months later I was visiting a brother in Conmecticut and one of his sons died under similar circumstances. Before breakfast one morning the boy, who was about 15 years old, had a fight with a neighbor's boy. Before his anger had subsided my nephew was called to breakfast. He ate four soft boiled

boy died with exactly the same symptoms that were present when my friend's wife died. This set me to thinking about the matter. "It wasn't long after this before a Beacon Hill friend of mine expired ouddenly after a meal. The doctors, as usual, were divided in opinion on the cause of death. Some of them con tended that it was heart failure, whatever that is, and others are still holding out that it was apoplexy. Inquiry me developed the fact that my friend was very angry when he sat down to table, and that he ate five eggs. With these developments I searched no further for the cause of his death. He was angry, he ate the chain of cause and effect the hu an intellect is incapable of logical

eggs. Had I known as much then as I do now I would have prevented it. In

less than a half hour after breakfast
