—The seven ex-members of the Forest City Bicycle Club against whom C. C. Hill, of Kingston, is alleged to have entered suit for \$5,000 damages do not appear to be much worried over the report. They have received no writs yet. Said one of them: "Mr. Hill, who was president of the C. W. A. at the time, wired us from Kingston before we went that he would provide hacks and accommodation for us as representatives of the F. C. B. C. at the meet. We found neither accommodation nor hacks there when we arrived, so we hired both and paid for them. I suppose Mr. Hill claims he provided both, and now sues us for the cost." Militia Changes.

Mission to Lepers.

The regular monthly meeting of the London branch of the Mission to Lepers in India and the East was held in the parlor of the Dundas Center Church yesterdsy afternoon at 4:30. The meeting was opened by reading of the Scriptures and prayer by the president, Mrs. Robertson, of Adelaide Street Baptist Church. Miss Ziegler was in excellent voice and rendered very effectively the solo, "Where Is Heaven?" A diesply interesting essay was read by Miss L. Gourley, the subject being "European Lepers." Miss Gourley touched on leprosy in the leading European countries, showing much research and careful study, special reference being made to Miss Kate Marsden's journey to Siberia to investigate the condition of the lepers in that country. The Bishop's Travels.

In the new Cronyn Hall last night the Bishop of Huron delivered the concluding locture on his recent trip to the Holy Land. On a recent occasion his Lordship delivered an interesting address on his trip, but at the conclusion had only described up to his arrival at Joppa, the first place of the Holy Land on which his feet had trodden. The half was sain crowded with an audience deeply interested in the bishop's experience, as so elequently told by himself. The various places visited were described with a vividness the result of closest observation. On a rival at Close prices.

Between these two cities are the hills of Judea, and when the train reached the top of the heavy grade the steam gave way and down earne the train at a terrific rate back to Raniah, where a long wait was occasioned till steam was again got up. But Jerusalem was finally reached, and there the temple area—the dimensions of which are 1,600 yards long by 1,000 yards in width—was thoroughly inspected, and directly opposite which to the outside of the city was the Mount of Olives, surmounted by the little village of Mount Olivet, but which was now known by another name.

—The street car drivers were provided with new time cards last night. The change takes effect to day, and in consequence the Dundas street service will consist of only ten cars instead of twelve as formerly. This, however, will not affect the service very much. The "Black Crook."

The attraction to be presented at the Grand on Friday night is the world-famed spectacular romance "The Black Crook."

It has been played more times than any play known to American theater-goere. The scenery, of which there are tons, is alone worthy of especial attention, and when the supperb dramatic cast, the charming balleta, the dezzling coatumes and the sumptucus transformation scenes are considered, not to speak of the numerous European specialities, it is easily the most imposing. It is long run at the Academy of Music, New York, should lend additional interest to the engagement here.
