For Housekeepers. The market square was truly a busy place this morning. As the condition of the country roads improve and the weather becomes pleasanter, the markets are increasing in size and activity. Today's was possibly the largest of the year, being well attended both by country folk and citizens.

A considerable amount of business was transacted at the butchers' stand. Meats

transacted at the butchers' stand. Meats in abundant quantity were offered, and the demand was fairly good. Prices remained firm, and there is little likelihood of any immediate change in present quotations. tations.

The poultry market was fairly active, chickens, which

The poultry market was fairly active, especially as regards chickens, which sold readily at 50c to 70c per pair. The majority of sales were made at 60c. A few turkeys sold from 10c a pound, and hardly any ducks were offered.

Butter was much in demand, and prices being suitable both to buyer and seller, exchanges were effected quickly, though the supply seemed to be adequate a large amount could undoubtedly be sold. There appears to be not only much butter in the country at present, but with the clearing of snow from the pastures the supply will increase, and a decrease in price expected. As it is, pound rolls bring 22c and 23c retail, and other quantities at corresponding prices. Eggs sold titles at corresponding prices. Eggs sold freely, at 13c and 14c per dozen. A noticeably active trade was done in vegetables, which sold freely as quoted.

Feeders were moderately active, with a good inquiry; prices unchanged. Milch cows were steady, with a keen demand for choice animals. Sheep, lambs and calves were steady, with light receipts. Hogs were offered more freely, and prices were unchanged. The total run was 70 loads, including 1,194 cattle, 344 sheep and lambs, 20 calves and 825 hogs. Export cattles. The highest price reported for loads of export cattle was \$4.80, but the lower quotations was due to the fact that the stock was not as good as some of those which have been coming to the market recently, a few small lots sold at \$5, but the bulk were taken at \$4.50 to \$4.80; buyers stated that they would be willing to pay \$5 for the choicest cattle, and they complained that they were unable to get what they wanted; there were plenty of good loads, and these sold fairly well; prices were steady and unchanged; the old country markets are about steady, and cables are a little more encouraging; there is no great demand in England, however, and the market there is not strong. Butchers' cattle—The principal inquiry was for choice to picked lots, and these were good property; the prices paid were up to the range of the past two weeks, and all the best

TORONTO, March 22.—There was a good deal of activity at the western cattle market today, and buyers said that trade was very good. Sellers were not exactly of the same opinion, as prices did not range any higher than on Thursday or Tuesday. The volume of business was large, and all the cattle were sold quickly, considering the heavy run. The receipts during the early part of the week were small, and dealers were not able to fill their wants. When the market opened were small, and dealers were not able to fill their wants. When the market opened today there was a keen demand, which continued until the majority of the cattle had been sold. The quality of the offerings was only fair, and those buyers who wish to confine their operations to the gilt-edged lines of stock were unable to do much business. Prices were steady to firm throughout the whole, and there are no changes in quotations. Before noon the pens were well cleared out, and the rest of the day's business was rather quiet. Exporters were about steady. The receipts were not up to standard in quality, and only a few picked lots brought the top price. Butchers were active and firm; the supply was large, and there was a good demand. Export bulls were steady and unchanged, with large offerings.

The New Constitutional Treatment Not Only Eradicates the Disease, But Renews the Exhausted Strength.

CANCER

SUFFERERS

A great many people suffering from cancers and tumors find their strength the skin a soft, smooth and white appearance. All irritations the vitality. To operate or use plasters simply

means further exhaustion and deple-tion. The new constitutional treatment, instead of weakening, actually builds up the strength and invigorates the en-tire system; not only this, but it ar-rests the progress of the disease and entirely eliminates every particle of the cancer poison from the system. It is a pleasant treatment, and can be taken at home without pain or inconveni-
